Fruit from the Sands - Robert N. Spengler 2020-09-22  
“A comprehensive and entertaining historical and botanical review, providing an enjoyable and cognitive read.”—Nature The foods we eat have a deep and often surprising past. From almonds and apples to tea and rice, many foods that we consume today have histories that can be traced out of prehistoric Central Asia along the tracks of the Silk Road to kitchens in Europe, America, China, and elsewhere in East Asia. The exchange of goods, ideas, cultural practices, and genes along these ancient routes extends back five thousand years, and organized trade along the Silk Road dates to at least Han Dynasty China in the second century BC. Balancing a broad array of archaeological, botanical, and historical evidence, Fruit from the Sands presents the fascinating story of the origins and spread of agriculture across Inner Asia and into Europe and East Asia. Through the preserved remains of plants found in archaeological sites, Robert N. Spengler III identifies the regions where our most familiar crops were domesticated and follows their routes as people carried them around the world. With vivid examples, Fruit from the Sands explores how the foods we eat have shaped the course of human history and transformed cuisines all over the globe.

Not Ours Alone - Elizabeth Emma Ferry 2005-10-05 
Elizabeth Ferry explores how members of the Santa Fe Cooperative, a silver mine in Mexico, give meaning to their labor in an era of rampant globalization. She analyzes the cooperative's practices and the importance of patrimonio (patrimony) in their understanding of work, tradition, and community. More specifically, she argues that patrimonio, a belief that certain resources are inalienable possessions of a local collective passed down to subsequent generations, has shaped and sustained the cooperative's sense of identity.

World History - Candice Goucher 2013-03-12
World History: Journeys from Past to Present uses common themes to present an integrated and comprehensive survey of human history from its origins to the present day. By weaving together thematic and regional perspectives in coherent chronological narratives, Goucher and Walton transform the overwhelming sweep of the human past into a truly global story that is relevant to the contemporary issues of our time. Revised and updated throughout, the second edition of this innovative textbook combines clear chronological progression with thematically focused chapters divided into six parts as follows: PART 1. EMERGENCE (Human origins to 500 CE) PART 2. ORDER (1 CE-1500 CE) PART 3. CONNECTIONS (500-1600 CE) PART 4. BRIDGING WORLDS (1300-1800 CE) PART 5. TRANSFORMING LIVES (1500-1900) PART 6. FORGING A GLOBAL COMMUNITY (1800- Present) The expanded new edition features an impressive full-color design with a host of illustrations, maps and primary source excerpts integrated throughout. Chapter opening timelines supply context for the material ahead, while end of chapter questions and annotated additional resources provide students with the tools for independent study. Each chapter and part boasts introductory and summary essays that guide the reader in comprehending the relevant theme. In addition, the companion website offers a range of resources including an interactive historical timeline, an indispensable study skills section for students, tips for teaching and learning thematically, and PowerPoint slides, lecture material and discussion questions in a password protected area for instructors. This textbook provides a basic introduction for all students of World History, incorporating thematic perspectives that encourage critical thinking, link to globally relevant contemporary issues, and stimulate further study.

Che Guevara and the Mountain of Silver - Anne Mustoe 2011-11-30
In her brand-new travelogue, intrepid ex-headmistress and bestselling author Anne Mustoe dusts off the bicycle clips once more and embarks on a remarkable journey through South America. Following in the bike tracks of Che Guevara, Anne retraces the route this iconic revolutionary figure once tread, as documented in the famous Motorcycle Diaries. A second route takes her to Potosi, the highest city in the world, as she travels to the Mountain of Silver. Beautifully written and wonderfully evocative, Che Guevara and the Mountain of Silver charts an epic journey by bike and train through South America’s most colourful and historically interesting areas.

Global Undergrounds - Carlos López Galviz 2016-06-15
Rest your eyes long enough on the skylines of Delhi, Guangzhou, Jakarta—even Chicago or London—and you will see the same remarkable transformation, building after building going up with the breakneck speed of twenty-first-century urbanization. But there is something else just as transformative that you won’t see: sprawling networks of tunnels rooting these cities into the earth. Global Undergrounds offers a richly illustrated exploration of these subterranean spaces, charting their global reach and the profound—but often unseen—effects they have on human life. The authors shine their headlamps into an astonishing diversity of manmade underground environments, including subway systems, sewers, communications pipelines, storage facilities, and even shelters. There they find not only an extraordinary
range of architectural approaches to underground construction but also a host of different cultural meanings. Underground places can evoke fear or hope; they can serve as sites of memory, places of work, or the hidden headquarters of resistance movements. They are places that can tell a city’s oldest stories or foresee its most distant futures. They are places—ultimately—of both incredible depth and breadth, crucial to all of us topside who work as urban planners, geographers, architects, engineers, or any of us who take subway trains or enjoy fresh water from a faucet. Indeed, as the authors demonstrate, the constant flux within urban undergrounds—the nonstop circulation of people, substances, and energy—serves all city dwellers in myriad ways, not just with the logistics of day-to-day life but as a crucial part of a city’s mythology.

**I Am Rich Potosí** - Stephen Ferry 1999
The magnificent mountain of Potosí in Bolivia yielded more silver than any other mountain or region of the world. In the sixteenth and seventeenth centuries this wealth flowed through Spain into Europe and played an important role in the beginnings of the Industrial Revolution and trade with Asia. Yet the grueling work of extracting the silver was left to the indigenous population of the Andes, who were enslaved by the Spanish and died by the thousands on the mountain. Today, Potosí maintains this unique culture, based on its epic history. Approximately eighteen thousand miners still work in or around the mountain, searching for trace amounts of silver and tin. Inside the mountain, miners worship their devil, who is represented as a sexually potent Spaniard, lord of the mineral realm. Photographer Stephen Ferry has made many trips to Potosí to document this ongoing drama. His color images describe this world, which echoes back to the birth of modern Europe yet is one of the poorest places in the Americas. The text by Eduardo Galeano illuminates the complexity of the intersection of ancient rituals and the grandeur of the mountain and complements Ferry’s powerful portrait of this fascinating area. Ferry’s photographs are divided into four sections: the miners’ carnival; work that still takes place in and around the rich mountain; major institutions of civic life in the city of Potosí; and the festival of Esprit?, in which miners sacrifice llamas to the devil within the mountain to appease his thirst for blood so that he will not take their lives with accidents or illness.

**Violentology** - Stephen Ferry 2012
Based upon two decades of in-depth investigative reporting in Colombia’s conflict zones, this explosive volume integrates text, photography, and design to communicate the horrors that paramilitary groups, such as the "United Self-Defense Forces of Colombia" (as well as the other sides of the conflict in response to the violence), inflicted and continue to inflict on Colombia. An instant classic of journalism and South American political history.

**The Heroic Present** - Jan Yoors 2004
As a boy of twelve, Jan Yoors fulfilled many an adventurous youth's fantasy when he left his comfortable Belgian home to live and travel with a tribe, or kumpania, of Gypsies. Adopted into the extended family of Pulika, Yoors passed his days with the patriarch’s sons and nephews, learning the traditions and participating in the rituals of the Gypsies, or Romani. As the years passed, he divided his life between the world of his birth, where he became a noted tapestry artist, filmmaker, and war hero, and the world of the Romani, where he returned regularly for more than five decades. Yoors was also a gifted writer and photographer: his memoir, The Gypsies, is a riveting account of his life with the Romani; his many hundreds of images -- most of them never before published -- document the personalities and daily existence of his kumpania. The Heroic Present: Life Among the Gypsies brings together Yoors’s
photographs and excerpts from his memoir. The nuanced portrait details the rhythms of life among the Romani; the exceptional occurrences of birth, marriage, and death; and the highly codified system of conduct of the Gypsies. Roadside caravans, evening meals, multifamily feasts, village fairs, convocations of the kris (the Romani tribunal of justice), and wedding celebrations: all are powerfully evoked in both word and image. Comprehensive and vivid, expressive and lyrical, this volume is testimony to the author's remarkable facility with language -- both written and visual -- and an unequalled portrait of daily life among the Gypsies.

**Bolivia** - J. Valerie Fifer 2000

**Places of Encounter, Volume 1** - Aran MacKinnon 2018-04-27
Places of Encounter provides a place-based approach to world history, focusing on specific locations at critical moments when human history was transformed as a result of encounters—physical, political, cultural, intellectual, and religious. Original, contributed essays by leading academics in the field explore places from Hadar to Xi'an, Salvador to New York, and numerous other locations that have produced historical shockwaves and significant global impact throughout history. With a chronologically organized table of contents, each chapter dissects a particular moment in history, with personal commentary from each contributor, a narrative of the location's historical significance at the time, and a section on significant global connections. Primary sources and discussion questions at the end of each chapter allow students a view into the lives of individuals of the time. Students will experience the narrative of historic individuals as well as modern scholars looking back over documentation to offer their own views of the past, providing students with the perfect opportunity to see how scholars form their own views about history.

**The Underdogs** - Mariano Azuela 2008-07-29
The greatest novel of the Mexican Revolution, in a brilliant new translation by an award-winning translator The Underdogs is the first great novel about the first great revolution of the twentieth century. Demetrio Macias, a poor, illiterate Indian, must join the rebels to save his family. Courageous and
charismatic, he earns a generalship in Pancho Villa’s army, only to become discouraged with the cause after it becomes hopelessly factionalized. At once a spare, moving depiction of the limits of political idealism, an authentic representation of Mexico’s peasant life, and a timeless portrait of revolution, The Underdogs is an iconic novel of the Latin American experience and a powerful novel about the disillusionment of war.

**Spectacular Wealth** - Lisa Voigt 2016-12-13

Bridging print culture and performance, Spectacular Wealth draws on eighteenth-century festival accounts to explore how colonial residents of the silver-mining town of Potosí, in the viceroyalty of Peru, and the gold-mining region of Minas Gerais, in Brazil, created rich festive cultures that refuted European allegations of barbarism and greed. In her examination of the festive participation of the towns’ diverse inhabitants, including those whose forced or slave labor produced the colonies’ mineral wealth, Lisa Voigt shows how Amerindians, Afro-descendants, Europeans, and creoles displayed their social capital and cultural practices in spectacular performances. Tracing the multiple meanings and messages of civic festivals and religious feast days alike, Spectacular Wealth highlights the conflicting agendas at work in the organization, performance, and publication of festivals. Celebrants and writers in mining boomtowns presented themselves as far more than tributaries yielding mineral wealth to the Spanish and Portuguese empires, using festivals to redefine their reputations and to celebrate their cultural, spiritual, and intellectual wealth.

**Treasure of the World** - Tara Sullivan 2022-01-18

A young girl must find a way to help her family survive in a desolate and impoverished Bolivian silver mining community in this eye-opening tale of resilience. Twelve-year-old Ana wants nothing more than to escape the future set for her and her classmates in her small mining village. Boys her age are beginning to leave school to become silver miners and girls her age are destined to one day be the wives of miners. But when her often ill eleven-year-old brother is forced by their demanding father to start work in the mines, Ana gives up her dreams of school to volunteer in his place. The world of silver mining though is dark and dangerous and the men who work there don't want a girl in their way. *Bloodshot Mountain* - Robert Henrey 2017-09-01

Story of how a red-tinted volcanic dome in the South American Andes became the planet's largest silver mine and a symbol of unrivalled wealth and universal envy

*Latin American Studies* - Ana María Cobos 2002

The Latin American studies collections at many community, junior and four year colleges, and large public libraries often contain materials that are too specialized, uneven, outdated, incomplete, or written in Spanish or Portuguese--thus rendering them essentially useless to English-reading patrons. Better materials are out there, but librarians simply have not had, until now, a good resource guide to help in locating them. This work, designed as an acquisitions tool for colleges and libraries, is an annotated bibliography of approximately 1,400 recommended books published from 1986 through 2000 in the field of Latin American studies. It is divided into chapters that deal with reference works, descriptive accounts and travel guides, the humanities, language and literature, the social sciences, and science and technology. For the purposes of this book, Latin America is defined as all geographic locations south of the Rio Grande. While these are chiefly Spanish and Portuguese speaking regions, works about French, English, and Dutch speaking areas are also included. The literary works of authors living abroad are included if they are considered quintessentially Latin American. Periodicals, children's literature, audiovisual resources, and works about the Hispanic and Latino experience in the United States are not included. The majority of the works presented here were selected based on reviews from *Booklist*, *Choice*, *Hispanic American Historical Review*, *Library Journal*, *Los Angeles Times Book Review*, *New York Review of Books*, *New York Times Book Review* and *Publisher's Weekly*; also consulted were the catalogs of major university presses that focus on Latin American studies.

*An Insider's Guide to Bolivia* - Sarah Johnson 2003

*Trading Roles* - Jane E. Mangan 2005-04-26

Located in the heart of the Andes, Potosí was arguably the most important urban center in the Western Hemisphere during the colonial era. It was internationally famous for its abundant silver mines and regionally infamous for its labor draft. Set in this context of opulence and oppression associated with the silver trade, Trading Roles emphasizes daily life in the city’s streets, markets, and taverns. As Jane E. Mangan shows, food and drink transactions emerged as the most common site of interaction for Potosinos of different ethnic and class backgrounds. Within two decades of Potosí’s founding in the 1540s, the majority of the city’s inhabitants no longer produced food or alcohol for themselves; they purchased these items. Mangan presents a vibrant social history of colonial Potosí through an investigation of everyday commerce during the city’s economic heyday, between the discovery of silver in 1545 and the waning of production in the late seventeenth century. Drawing on wills and dowries, judicial cases, town council records, and royal decrees, Mangan brings alive the bustle of trade in Potosí. She examines quotidian economic transactions in light of social custom, ethnicity, and gender, illuminating negotiations over vendor locations, kinship ties that sustained urban trade through the course of silver booms and busts, and credit practices that developed to mitigate the pressures of the market economy. Mangan argues that trade exchanges functioned as sites to negotiate identities within this colonial multiethnic society. Throughout the study, she demonstrates how women and indigenous peoples played essential roles in Potosí’s economy through the commercial transactions she describes so vividly.

*A History of Mining in Latin America* - Kendall Brown 2012-03-16

For twenty-five years, Kendall Brown studied Potosí, Spanish America's greatest silver producer and perhaps the world's most famous mining district. He read about the flood of silver that flowed from its Cerro Rico and learned of the toil of its miners. Potosí symbolized fabulous wealth and unbelievable suffering. New World bullion stimulated the formation of the first world economy but at the same time it
had profound consequences for labor, as mine operators and refiners resorted to extreme forms of coercion to secure workers. In many cases the environment also suffered devastating harm. All of this occurred in the name of wealth for individual entrepreneurs, companies, and the ruling states. Yet the question remains of how much economic development mining managed to produce in Latin America and what were its social and ecological consequences. Brown's focus on the legendary mines at Potosí and comparison of its operations to those of other mines in Latin America is a well-written and accessible study that is the first to span the colonial era to the present.

**The Mountain that Eats Men** - Ander Izagirre 2019-04-15

From the 16th century, the mines of Potosí, perched high in the Andes, bankrolled the Spanish empire. During those years immense wealth allowed the city to grow larger than London at the time and the mountain was quickly given the epithet Cerro Rico – the 'rich mountain'. But today, Potosí’s inhabitants are some of the poorest in South America while the mountain itself has been so greedily plundered that its summit is on the verge of collapsing. So many people have died in the mines that the Cerro Rico is now called the 'mountain that eats men'. In this captivating, moving tale of harrowing bravery and wistful beauty Ander Izagirre tells the story of the mountain and those who risk their lives in its shadow through the eyes of Alicia – a 14-year-old girl working in the dark, dangerous mines to support her family. Through her eyes we can come to know the story of postcolonial Bolivia.

**City of Silver** - Annamaria Alfieri 2009-08-04

In Potosí, the richest city in the Western Hemisphere, Inez de la Morada, the bewitching, cherished daughter of the rich and powerful Mayor, mysteriously dies at the convent of Santa Isabella de los Santos Milagros, where she had fled in defiance of her father. It looks as though the girl committed suicide, but Mother Abbess Maria Santa Hilda believes her innocent and has her buried at the convent in sacred ground. Fray Ubaldo DaTriesta, local Commissioner of the Inquisition, has been keeping an eye on the Abbess, who is too "Protestant" for his tastes, and this action may be just what he needs to convince the lazy, cowardly Bishop to punish her. At the same time, Potosí finds its prosperity threatened. The King of Spain has discovered that the coins the city has been circulating throughout the world are not pure silver and is sending his top prosecutor and the Grand Inquisitor to mete out punishment. With the imminent arrival of the Spanish officials, many have reason to prove their loyalty, and keep hidden the crimes and sins they've committed. With her life at stake, Maria Santa Hilda finds herself in a race against time to prove the true cause of Inez's death, aided by her fellow sisters, a Jesuit priest with a dark secret from his past, and a tomboyish girl who's run to the convent to avoid an unwanted marriage. Together they will discover that Inez was not the girl she seemed, and that greed has no limits. Annamaria Alfieri writes with astounding detail, showing an appreciation for the complexities and social nuances of this intriguing time in Latin American history when politicians, religious leaders, and an indigenous people all competed for power and survival in the thin mountain air of the Andes.
