In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among Grit’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).

Pilihan Raya Umum Ke-13 Kesinambungan Politik Baharu, Kekentalan Politik Lama (UUM Press)

The Islamic Perspective

Dewan budaya

Fenomena politik baharu yang bermula semenjak PRU-10 1999 dilihat terus mencorakkan trend pengundian dalam PRU-13 yang berlangsung pada Mei 2013. Walaupun sedemikian, fenomena sebegini bukanlah trend yang konsisten jika dilihat dari dua sudut iaitu faktor yang mendukung gagasan ini dan juga pembalikan politik lama yang berlaku selepas sesuatu PRU. Penerusan pergeseran antara politik baharu dengan politik lama ini merupakan antara inti pati yang mendasari analisis di sembilan buah negeri yang terlibat dalam PRU-13 yang lalu. Pilihan raya yang disifatkan sebagai “ibu segala pilihan raya” ini ternyata memberikan paradoks kepada kedua-dua pihak yang bertanding iaitu Barisan Nasional dan Pakatan Rakyat yang “kalah dalam menang dan menang dalam kalah”. Biarpun keputusan PRU-13 terus menghantar mesej yang politik baharu tetap menjadi taruhan dan pilihan, perkembangan selepas PRU-13 menyarankan yang kedua-dua pihak semakin cenderung untuk kembali ke politik lama demi mengimbangi tuntutan perjuangan masing-masing.

Pengarang menumpukan perhatian kepada beberapa buah pertubuhan, termasuk Bendera Merah dan Bendera Putih di Pulau Pinang, Perak dan Kedah. Kongsi gelap Melayu bermula sebagai persatuan kebajikan dan keagamaan, tetapi kemudian ada persatuan yang mengubah bentuk kegiatan mereka menjadi kegiatan berbau jenayah. reformasi total

Essentials of Strength Training and Conditioning

Tak sekedar reformasi atau rekonstruksi, Dekonstruksi Syari'ah adalah eksperimentasi Abdullahi Ahmed An-Na'im yang sangat mendasar. Baginya, Reformasi Syari'ah tak mampu menjawab kebutuhan metodologis untuk memecahkan paradoks yang selama ini melekat dalam Syari'ah yang diskriminatif terhadap perempuan dan non-Muslim, bahkan tetap melegalisasi perbudakan. Karena itu, isu-isu penting untuk masa depan kemanusiaan, seperti demokratisasi, penghormatan hak-hak asasi manusia dan perdamaian dunia tak terjamah oleh Islam. Umat Islam kontemporer lalu menghadapi dilema. Ketaatan terhadap prinsip Syari'ah menjebak mereka pada Absolutisme. Sementara meninggalkan sama sekali Syari'ah membawa mereka pada sekularisasi internal. Adakah "Jalan Pembebasan" bagi Muslim sekarang dan masa depan untuk melampaui dilema itu? Dapatkah dibangun lagi dasar-dasar teoritik-ijtihady bagi syari'ah-demokartik? Saya percaya, ide-ide yang ditawarkan di sini akan menyentuh nalar, hati dan perasaan umat Islam. Bahkan kebanyakan ide-ide itu sudah lebih dulu muncul--walaupun mungkin dalam bentuk yang masih kasar dan malu-malu-- dari hati dan perasaan umat Islam, khususnya di kalangan generasi muda yang merupakan agen perubahan sosial yang lebih cepat. Abdullahi Ahmed An-Na'im

Malaysia's multicultural society supports one of the most dynamic economies in Asia. This completely revised new edition of the standard text, first published twenty years ago, traces the history of the country from early times to the present day. The authors give particular attention to the evolution of Malay polities and their close links with indigenous groups who lived on the oceans and in the deep jungles of the region, from Sumatra to Borneo. This provides the background to the establishment of the Malay port of Melaka, which was conquered by the Portuguese in 1511, foreshadowing the establishment of a British colonial regime in the late nineteenth century. Although the large numbers of Chinese and Indian migrants who arrived to work in the tin and rubber industries contributed to economic expansion, colonial policies did not encourage communal interaction. The authors trace the process by which post-independence leaders in Malaya attempted to counter the legacy of ethnic hostility while answering Malay demands for an affirmation of their rights and a stronger commitment to Islam. The incorporation of the Borneo states of Sarawak and Sabah into the Federation of Malaysia in 1963 rendered the goal of welding a nation from areas that were geographically separated and culturally disparate even more problematic. The intense emotions attached to issues of race were made tragically evident in the racial riots of May 1969, which this book sees as a watershed in modern Malaysian history. As Malaysia enters the twenty-first century, the government is determined to oversee the transition to an economy focused on manufacturing and advanced technology, and to eliminate poverty and the association between occupation and race. While several recent studies deal with the impact of colonial rule and Malaysia's spectacular economic transition, this book is unique because it tracks developments from early times and identifies continuities as well as change. Combining the authors' specialist knowledge of precolonial sources with the most recent contemporary research, this new edition reinforces the position of A History of Malaysia position as a standard reference for all those interested in the historical processes which led to the emergence of this culturally varied and economically energetic country.
