The greatest transfer of wealth in the nation and the world is now unfolding. Money is about to flow away from the financially uninformed and flow towards the financially well-informed in the years ahead. Whenever governments start to dilute their money investors transfer their money into gold and silver. Although gold is a great way to preserve your wealth, it's silver you could actually make a fortune with. Protect your savings and create a substantial investment income every single month. Financial ignorance is the only reason you are not yet cashing in on the biggest wealth transfer in history. A Solid Method to Achieve Financial Freedom This book will show you exactly how to live and prosper by the new laws of money in the new economy. It will show you how to beat the new money thieves (Banks and Governments) at their own game while quietly profiting from the money meltdown that is now underway. Most recently, gold started climbing with even greater speed. History repeats itself again and again. Whenever governments start to dilute their money investors transfer their money into gold and silver. Gold and silver have intrinsic value and will always prevail in any economy. Many financial experts predict that gold could at least double to \$3,000 . . . \$3,500 . . . and some say even \$5,000! But experts also predict the price of silver could rise seven to eight times its current value before hitting its peak. What most non-investors and investors - including yourself - probably don't realize is that although gold is a great way to preserve your wealth, it's silver that could actually make you rich! The price of gold has already risen dramatically, but silver is just beginning its parabolic climb. Over the last 9 years the silver price increased an average of 29% per year! Compare this to the stock and real estate market, which declined when adjusted for inflation. Nine Reasons Why Silver is a Unique Wealth Building Instrument Silver, like gold, has intrinsic value Silver has been in a commodity bull cycle since 2000 Silver is a safe hedge against currency inflation Silver is a security choice during times of financial crisis Silver is rarer than gold Silver is used in 90% of all electronics - and its mostly non-renewable Silver leasing - the scam will be exposed soon Silver investment markets are expanding

donated to charity. *Book Description* Are you unhappy in your job? Are you tired of living paycheck to paycheck and feel like you just don't have enough money, skills, or education to turn your life around? Even if you're not sure you know what it is you like to do, you can change your life and get rich doing it, says entrepreneur Duane Harden in his wise and entertaining new book, *5 Easy Steps to Financial Freedom: Do What You Love & Get Rich Doing It*. Turning your passion into a profitable business is easy, fast, and fun, says Harden, and you can become rich in just five easy steps. First, start by saying yes to financial freedom. Attitude is everything and as the Law of Attraction states, what you put out into the universe is often what you attract. If you imagine yourself financially secure and happy, you will be. Imagining a new life for yourself is the inspiration you need to go out and do the concrete things to turn your dreams into a reality.

Con conversationally written and filled with humorous drawings, helpful worksheets, and key tips, *5 Easy Steps to Financial Freedom* also offers a 90-day action plan that includes blueprints for success that Harden himself used to build his wealth. His own journey included the purchase of numerous real-estate properties, opening a restaurant, starting a music company, and much more. Harden gives you "Life Assignments" that get you thinking and acting differently. Beware of what he calls the "crabs in a pot" mentality, where everyone is trying to pull everyone else down in order to struggle to the top. Instead, he advises, think positively. Stay away from the naysayers and feed your dream. Soon you will realize that your inner life is reflected in your outer life. Harden helps you to discover the real you, what you want, and how much money you want to be there for you now and in the future. He explains how the real difference between rich people and poor people is fear and an unwillingness to keep an open mind to new opportunities. Rich people are not afraid to take risks, and well-planned risks almost always pay off. Success, he reminds you, is your birthright and it's your job to claim it. Review your credit and your financial house. Clean up the clutter in your life, whether it is the wrong way of thinking or a messy desk. Discover what really makes you tick because when you love what you do it's never really work, and when passion is present the money will miraculously follow. Keep daily positive reminders taped where you can see them, or even

have a vision board filled with photographs of where you want to be in life. Write your resignation letter to your boss, but don't send it yet. Just the act of writing it puts you in the right frame of mind for moving on to something much better. "You are what you think and will become what you dream," says Harden. You'll learn to be a PIG (passive income generator) Farmer, which requires little work but makes you tons of money. *5 Easy Steps to Financial Freedom* shows you how go from rags to riches and is understandable and easy to read. This invaluable guide will change your life!
