**NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day. Delightful stories, other material based on works of Don Juan Manuel, Luis Taboada, Ricardo Palma, other noted writers. Complete faithful English translations on facing pages. Exercises.***

Did you know that there are many different ways to learn a new language? The more common way is to live in a country where an unknown language is spoken. Practicing it every day and using it to relate to people will make you understand it. This is how you learn your mother tongue and how children learn a second language. Another way is to get into a course where instructors teach you all the characteristics and particularities of the language. Another way is reading sentences in both languages and doing some analysis word by word to understand the meaning of each word according to its context. In the book 1001 Top Spanish Words in Context: How to Speak Intermediate-Level Spanish in Less than 21 Days, we will teach you 1000 basic words used in different sentences, so you can understand the context of their use.
