Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. one's life." So observes John Jerome about his purpose for rebuilding a 1950 Dodge pickup. Yes, he needs the truck to haul manure, but Jerome also hopes that "by knowing every nut, lockwasher, and cotter pin I could have a machine that had some meaning to me." Thus his year-long odyssey under the hood, among the brake shoes and valves, becomes more than a mechanic's memoir; it is a meditation on machines, metaphysics, and the moral universe. Nearly two

decades after publication in 1977, the essential dilemma of Truck still rings true: as Jerome dismantles the aged straight six, he also disassembles our reliance on "two-hundred-dollar appliances that sport flaws in thirty-five-cent parts" and decries the "deliberate encapsulation, impenetrability, of the overtechnologized things with which we furnish our lives." Despite gouged knuckles, a frigid New Hampshire winter, frustrating and inexplicable assemblies,

and a close call when the truck rolls off its jacks, he perseveres. In the end, he admits, "I did not find God out there in the barn" among the cans of nuts and bolts." What he does find, however, is that he must make peace with technology; it's a mistake, he says, to "assume there is a point on that line between the caveman's club and the moon shot that marks the moral turnaround, before which technology was somehow benign, after which it is

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors

Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher
