Each Haynes manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine, in this case the Honda CBR1000RR Fireblade, model years 2004 through 2007. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box. A typical Haynes manual covers: general information; troubleshooting; lubrication and routine maintenance; engine top end; engine lower end; primary drive, clutch and external shift mechanism; transmission and internal shift mechanism; engine management system; electrical system; wheels, tires and drivebelt; front suspension and steering; rear suspension; brakes; body, and color wiring diagrams. An index makes the manual easy to navigate.

There is a Haynes manual for most popular domestic and import cars, trucks, and motorcycles. By conducting complete tear-downs and rebuilds, the Haynes staff has discovered all the problems owners will find in rebuilding or repairing their vehicle. Documenting the process in hundreds of illustrations and clear step-by-step instructions makes every expert tip easy to follow. From simple maintenance to trouble-shooting and complete engine rebuilds, it's easy with Haynes.

Motorcycles, the open road, cruising; all things associated with this powerful locomotive are detailed in this marvelous history of a stunning vehicle. Humanity is capable of many wonderful things, but the art of making motorcycles is arguably not its greatest achievement. Throughout history there have been far more pressing needs than the desire to get from A to B more quickly and more pleasurably than anyone else. And yet, thousands of entrepreneurs have gravitated to the motorcycle industry: scratch any of them, and one will most likely find an enthusiast beneath the skin. Why else would anyone be willing to risk time and money in a business notorious for its glorious failures?

London to Cape Town overland by Panther and sidecar, pulling a trailer. No roads, no backup -- just straight across the Sahara through equatorial Africa, and South to the Cape -- in 1935, without even a compass! This is quite simply the most incredible Panther journey ever! Undeterred by nomads, sand drifts, heat, rain, rivers, breakdowns and politics, Theresa Wallach and Florence Blenkiron completed a journey that might well defeat a modern bike. From oasis to oasis arguing with the French Foreign Legion for permission to continue, and winning; fashioning a tow hitch for the trailer when it broke in the desert; rebuilding the entire engine from scratch in Agadez; meeting gorillas, lions and snakes on the road, staying in African villages and meeting an amazing variety of friendly and helpful people. Not to mention having an accident in Tanganyika (Tanzania) with the only car seen on the road for days!

Ted Simon is the author of the classic travel book JUPITER'S TRAVELS. It documents his four-year journey round the world by motorbike, travelling through Europe, Africa, South and North America, and Asia. A number one bestseller in the late 1970s, it is still regarded as one of the greatest motorcycle books - indeed, one of the greatest travel books - ever written. In 2001, at the age of 69, Ted Simon decided to retrace his journey, and DREAMING OF JUPITER is the result. It took him two and a half years - during which time he revisited all the countries he had

travelled through in the 1970s. He found much had changed, and he reflects upon the increased poverty, political upheavals, environmental issues and indeed the changes in himself. But ultimately, DREAMING OF JUPITER is a hugely inspiring read with a positive message at its heart - that even at the age of 70 you can still set off on an adventure, and be surprised and excited by what life throws at you along the way.

The 1983 Six Days in Wales was supposed to be America's great chance to finally come home with the World Trophy. The year before in Czechoslovakia, the American team, mudders all, came within a whisker of winning the great prize, and the bogs of Wales in 1983 were set for the final showdown. In the end, bad trouble was our constant companion in Wales, starting with the injury that sidelined one of our top Trophy Team members, and ending with unrelenting bad weather and subsequent machine breakdowns. This is the story of that week.
