Governance for Structural Transformation in Africa

Annual Statistical Report

This book explores how better governance can help  
Africa to achieve structural transformation (understood to  
be the reallocation of factors of production across and  
within sectors to better support inclusive development),

which history has shown to be key to sustained, inclusive growth. The book begins with a review of the existing literature on the links between governance and structural transformation and the success or otherwise of various sub regions in achieving structural transformation. It continues with a range of contributors addressing original empirical research on the relationships between different approaches to institutions and trade and industrial policies and structural transformation in Africa. The book makes recommendations for a new approach to governance in Africa that can deliver the structural transformation that the continent needs for Africans to enjoy shared prosperity, poverty reduction and

Despite the significant levels of unemployment in all four countries, labor market developments suggest that the strongest and earliest reformers have had the best labor market performance as well. It is crucial that all four countries*
