This volume is the first of its kind to provide a detailed, comprehensive treatment of the genealogical subgrouping of Semitic. Starting with the traditional, morphologic approach and then shifting to the pertinent lexical evidence, it covers key topics in the Semitic subgrouping debate, including the East/West dichotomy, the Central Semitic hypothesis, the Canaanite affiliation of Ugaritic, and the linguistic specificity of Modern South Arabia.

Step-by-step guidelines for successful marketing management! Designed for college- and graduate-level marketing students, Marketing Management: Text and Cases is also a valuable resource for anyone trying to market a product or service. This volume integrates understandable marketing concepts and techniques with useful tables, graphs, and exhibits. Three leading experts in marketing management teach you how to market any business. Marketing Management: Text and Cases is divided into two sections to accommodate a wide variety of interests. The first

section is an essential textbook that offers a complete overview of marketing management, and describes the steps necessary for successful company-to-customer interaction. Each chapter comes generously enhanced with tables and charts to clearly demonstrate the marketing process from concept to implementation. Marketing Management: Text and Cases also contains fifteen new case studies to challenge the more experienced marketing student as well as introduce the beginner to situations where the marketing process can be demonstrated. These cases provide a wide variety of managerial situations for small, medium, and large companies as well as entrepreneurial cases to expose readers to the types of analyses needed for those examples. From the creation of a new waterpark to marketing algae products,

Beyond Audubon: A quirky, “ lively and illuminating ” account of bird-watching ’ s history, including “ rivalries, controversies, [and] bad behavior ” (The Washington Post Book World). From the moment Europeans arrived in North America, they were awestruck by a continent awash with birds—great flocks of wild pigeons, prairies teeming with grouse, woodlands alive with brilliantly colored songbirds. Of a Feather traces the colorful origins of American birding: the

frontier ornithologists who collected eggs between border skirmishes; the society matrons who organized the first effective conservation movement; and the luminaries with checkered pasts, such as Alexander Wilson (a convicted blackmailer) and the endlessly self-mythologizing John James Audubon. Naturalist Scott Weidensaul also recounts the explosive growth of modern birding that began when an awkward schoolteacher named Roger Tory Peterson published *A Field Guide to the Birds* in 1934. Today, birding counts iPod-wearing teens and obsessive “listers” among its tens of millions of participants, making what was once an eccentric hobby into something so completely mainstream it’s now (almost) cool. This compulsively readable popular history will surely find a roost on every birder’s shelf.
