Karnataka SSLC Sample Question Papers, Class-10, Science

The present dictionary is a practical exercise in word-compilation to facilitate the study of Sanskrit language. Based on Webster's complete English dictionary it includes general terms of all sciences and such technical terms as could be duly represented by Sanskrit equivalents actually existing in that language. Besides the general vocabulary quotations from the works of famous authors have been inserted to render the connotation of a word easily intelligible. It is also designed to help scholars translate any passage from English into Sanskrit. It covers a very large field-Epics such as the Ramayana and Mahabharata, Puranas and Upapuranas, Smrti and Niti literature, Darśanas or Systems of Philosophy, such as Nyaya, Vedānta, Mīmāṃsā, Sāṅkhya and Yoga, Grammar, Rhetoric, Poetry in all its branches, Dramatic and Narrative literature, Mathematics, Medicine, Botany, Astronomy, Music and other technical or scientific branches of learning. Thus, it embraces all words occurring in the general post-Vedic literature. It includes most of the important terms in Grammar. It gives quotations and references to the peculiar and remarkable meanings of words, especially such as occur in books prescribed for study in the Indian and foreign universities. It also renders explanation of important technical terms occurring in different branches of Sanskrit learning. To add to its usefulness the work includes three appendices.
