The authors of this book explain the differences between managing by the 3-Ps (Proximity, Position, and Persuasion) and the 3-Cs (Clarity, Consistency, and Connectivity). Leaders who employ the 3-Ps manage with a focus on the individual. Leaders who use the 3-Cs, however, manage by weaving personal leadership techniques with a process of managing the business or organization that has proven extremely effective during the decade since it was introduced. It's a way to lead a company or organization that leaves a legacy of sustained growth and success for those who come after the leader to latch onto and continue. The book is written as a business novel. What is learned on the protagonist's journey is expanded upon in a lesson at the conclusion of each chapter. Readers are then invited to assess their own legacy potential by completing a self-assessment. The management process this book contains is now being employed successfully not only by small and medium size businesses, but also by Fortune 500 companies, successful municipalities, and the United States Army.

A Novel

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

From 1980 to 2000, Camel Trophy took more than 500 amateur competitors from 35 countries on extraordinary and challenging adventures. On most of these events, teams drove specially prepared Land Rovers to the limit and beyond in locations as varied as Borneo, Mongolia, Papua New Guinea and Tanzania. Camel Trophy charts the history of the event and tells the incredible stories resulting from the constant challenge to both man and machine.. As one of the official photographers on the last four events, author Nick Dimbleby's first-hand account, the shared experiences of competitors, along with contemporary reports and extensive new interviews of key event leaders, all combine to make Camel Trophy a gripping tale of adventure, adversity, technological change and logistical challenge. Illustrated with a stunning collection of photographs including never-before-published, behind-the-scenes shots, this meticulously researched publication can legitimately claim to be the definitive history of the Camel Trophy. In this revolutionary book, a renowned computer scientist explains the importance of teaching children the basics of computing and how it can prepare them to succeed in the ever-evolving tech world. Computers have completely changed the way we teach children. We have Mindstorms to thank for that. In this book, pioneering computer scientist Seymour Papert uses the invention of LOGO, the first child-friendly programming language, to make the case for the value of teaching children with computers. Papert argues that children are more than capable of mastering computers, and that teaching computational processes like de-bugging in the classroom can change the way we learn everything else. He also shows that schools saturated with technology can actually improve socialization and interaction among students and between students and teachers. Technology changes every day, but the basic ways that computers can help us learn remain. For thousands of teachers and parents who have sought creative ways to help children learn with computers, Mindstorms is their bible.

JUE 477

1997 to 2003

A novel by the author of Ready Player One

Third Generation L322 (2002-2012)

Revealed to the world in 1948, the Land-Rover not only revived the Rover Company's fortunes in an austerity-riddled post-war period, but galvanized its future, thanks to the model's almost immediate success. With the manufacture of an initial 48 'pre-production' examples coming to a close, the first official production models were assembled - starting with chassis 860001. As original factory records prove, this pivotal vehicle was destined for His Royal Highness King George VI, but the decision was made to postpone the presentation and instead, 'number one' was retained by the factory until 1950, when it was registered JUE 477 before leaving Rover Company ownership. After decades left out in the cold and exposed to the elements, 860001 had certainly seen better days, but thanks to the determination of Sir Jim Ratcliffe, founder and Chairman of INEOS, the future of JUE 477 was secured in 2017. Over the next two years, a dedicated team of experts, led by chief restorer, Julian Shoolheifer set about restoring the vehicle while retaining as much of its original DNA as was physically, and safely, possible and making sure that this remarkable vehicle's history and past life was still worn with pride.

NATIONAL BOOK AWARD FINALIST • NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to

unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history.

The Range Rover's designers intended it to be a more comfortable and road-friendly passenger-carrying Land Rover, but customers quickly saw something much more in it. During the 1970s, while its immense practicality and capability were appreciated and acknowledged, a Range Rover became a sought-after and prestigious possession. It went on to change the face of Land Rover for ever. *Range Rover First Generation - The Complete Story* delves into the real story of the Range Rover, examining what lay behind the multiple changes in its twenty-six years of production. The book covers the full development story; custom and utility conversions; Range Rovers for the US market; full technical specifications and Range Rovers assembled overseas. If ever a car deserved the over-used epithet 'iconic', the first-generation Range Rover is it. The book provides an insight into the little-known difficulties and problems that were so well concealed by the Range Rover's makers and is a must read for all Range Rover and Land Rover enthusiasts.

From the author of Ready Player One, a rollicking alien invasion thriller that embraces and subverts science-fiction conventions as only Ernest Cline could. Zack Lightman has never much cared for reality. He vastly prefers the countless science-fiction movies, books, and videogames he's spent his life consuming. And too often, he catches himself wishing that some fantastic, impossible, world-altering event could arrive to whisk him off on a grand spacefaring adventure. So when he sees the flying saucer, he's sure his years of escapism have finally tipped over into madness. Especially because the alien ship he's staring at is straight out of his favorite videogame, a flight simulator called Armada--in which gamers just happen to be protecting Earth from alien invaders. As impossible as it seems, what Zack's seeing is all too real. And it's just the first in a blur of revelations that will force him to question everything he thought he knew about Earth's history, its future, even his own life--and to play the hero for real, with humanity's life in the balance. But even through the terror and exhilaration, he can't help thinking: Doesn't something about this scenario feel a little bit like...well...fiction? At once reinventing and paying homage to science-fiction classics as only Ernest Cline can, Armada is a rollicking, surprising thriller, a coming-of-age adventure, and an alien invasion tale like nothing you've ever read before.

In the Days of the Comet

From the bestselling, award-winning author of *The Buddha in the Attic*, this commanding debut novel paints a portrait of the Japanese incarceration camps that is both a haunting evocation of a family in wartime and a resonant lesson for our times. On a sunny day in Berkeley, California, in 1942, a woman sees a sign in a post office window, returns to her home, and matter-of-factly begins to pack her family's possessions. Like thousands of other Japanese Americans they have been reclassified, virtually overnight, as enemy aliens and are about to be uprooted from their home and sent to a dusty incarceration camp in the Utah desert. In this lean and devastatingly evocative first novel, Julie Otsuka tells their story from five flawlessly realized points of view and conveys the exact emotional texture of their experience: the thin-walled barracks and barbed-wire fences, the omnipresent fear and loneliness, the unheralded feats of heroism. When the Emperor Was Divine is a work of enormous power that makes a shameful episode of our history as immediate as today's headlines. Don't miss Julie Otsuka's new novel, *The Swimmers*, coming in February 2022!

It is a story of fantastic love and heartrending loss; of impossible things and unshakable destinies; and of the great Tale that envelops us all. It is a wonder.

This is a rollicking romp about employees in the Sleep Tite Pajama Factory who are about to strike for a 7½ cent raise. Wisecracking dialogue and dry wit abound. 7½ Cents was adapted by Richard Bissell and George Abbott for the Broadway musical success The Pajama Game. A quarter of a century ago, the Land Rover Discovery defined at a stroke how traditional 4 x 4 all-terrain ability could co-exist with family-estate practicality at an affordable price. Since 1989, the Discovery has gone through several iterations, but its essential qualities have remained unchanged. Practical, capable, and above all completely distinctive - the stepped roof seemed odd at first but now defines the Discovery shape - the Discovery has gone on to become one of Land Rover's best-loved products. Land Rover Discovery - 25 Years of the Family 4 x 4 looks in detail at the four generations of Discovery, including full specification details and production histories. Topics covered include the design and development of the original Discovery in the late 1980s, and the move into North America; the new 300Tdi engine and R380 gearbox of 1994, and the BMW takeover; Series II models of 1998-2004, and Land Rover's move from BMW to Ford; Discovery 3/'LR3' - 2004-2009, and the new TDV6 engine, developed by Jaguar; Discovery 4/'LR4' - the all-purpose family luxury car; special editions and derivatives of all four generations of Discovery, including Discoverys for the emergency services and the Camel Trophy and G4 Challenge competition vehicles. 'Wishful Drinking is a touching and incisive account of bipolarity, addiction and motherhood.' Independent 'No motive is pure. No one is good or bad - but a hearty mix of both. And sometimes life actually gives to you by taking away.' Carrie Fisher in *Wishful Drinking* In *Wishful Drinking*, Carrie Fisher told the true and intoxicating story of her life with inimitable wit. Born to celebrity parents, she was picked to play a princess in a little movie called *Star Wars* when only 19 years old. "But it isn't all sweetness and light sabres." Alas, aside from a demanding career and her role as a single mother (not to mention the hyperspace hairdo), Carrie also spends her free time battling addiction and weathering the wild ride of manic depression. It's an incredible tale: from having Elizabeth Taylor as a stepmother, to marrying (and divorcing) Paul Simon, and from having the father of her daughter leave her for a man, to ultimately waking up one morning and finding a friend dead beside her in bed. Carrie Fisher's star-studded career included roles in numerous films such as *The Blues Brothers* and *When Harry Met Sally*. She was the author of four bestselling novels, *Surrender in the Pink*, *Delusions of Grandma*, *The Best Awful* and *Postcards from the Edge*, which was made into a hit film starring Shirley MacLaine and Meryl Streep. Carrie's experience with addiction and mental illness - and her willingness to talk honestly about them - made her a sought-after speaker and respected advocate. She was truly one of the most magical people to walk among us. Further praise for Carrie Fisher:- [Shockaholic] is the finest, funniest chronicler of the maddest celebrity mores.' masquerades as carefree self-deprecation' Los Angeles Times 'She is one of the rare inhabitants of La-La Land who can actually write' New York Times

The record-breaking phenomenon from Elizabeth Kostova is a celebrated masterpiece that "refashioned the vampire myth into a compelling contemporary novel, a late-night page-turner" (San Francisco Chronicle). Breathtakingly suspenseful and beautifully written, The Historian is the story of a young woman plunged into a labyrinth where the secrets of her family's past connect to an inconceivable evil: the dark fifteenth-century reign of Vlad the Impaler and a time-defying pact that may have kept his awful work alive through the ages. The search for the truth becomes an adventure of monumental proportions, taking us from monasteries and dusty libraries to the capitals of Eastern Europe—in a feat of storytelling so rich, so hypnotic, so exciting that it has enthralled readers around the world. "Part thriller, part history, part romance...Kostova has a keen sense of storytelling and she has a marvelous tale to tell." —Baltimore Sun
