never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so

Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work,

Mindefusement has been a passion project for me since 2016 when I wrote the first concept. I quickly realized this could become a book. I decided to do a short-story format for the book that interweaves the characters and the company behind it all, Mindefusement. Mindefusement is a secretive company that

specializes in treating those with morbid fantasies and allowing them to visualize these fantasies in the form of a short film. Fantasies are called torture templates, and each client brings some morbid fantasy to life during the film production process. The book Mindefusement contains the inner workings of the company and dives deeper into the client's various fantasies. Such cases could be torture, mutilation, murder, and a host of incredibly graphic and taboo topics. As a result, this book is intended for a mature audience. Mindefusement, the company, has its own internal problems, and these are highlighted in the book and provide a major plot point.
