The ultimate hockey dad, Karl Subban is a former school principal and father of five, including three sons--P.K., Malcolm and Jordan--who have been drafted to the NHL. Karl's inspirational story follows the hockey journey from house league to the big leagues and shows how to grow the unlimited potential that is in every child. In his thirty-plus years of coaching, teaching and parenting, Karl Subban has proved to be a leader with the gift of inspiring others. He has dedicated his life to helping young people grow their potential--to be better at what they do, and to be better people. Originally from Jamaica, Karl Subban, along with his wife, Maria, have raised five accomplished children. Their oldest son is P.K. Subban, who won the Norris Trophy for top defenceman in the NHL and whose trade from the Canadiens to the Nashville Predators shocked the hockey world. Their two daughters are teachers, one a university basketball star and the other a talented visual artist. Their two youngest children, goaltender Malcolm and defenceman Jordan, are also rising through the professional ranks, drafted and signed by NHL teams--the three sons adding up to what Karl calls "the Subban hat trick." Now, from the backyard hockey rink to the nail-biting suspense of draft days, Karl Subban shares tales of his family's unique hockey journey. Mixing personal stories with lessons he learned as a coach and principal--lessons about goal-setting, perseverance and accomplishment--How We Did It will allow other parents, teachers, coaches and mentors to apply the same principles as they help the young people in their lives to identify, develop and live their dreams.

- Part adventure story, part history, and part argument for the importance of inspiring future generations to value nature

The nation's wild places—from national and state parks to national forests, preserves, and wilderness areas—belong to all Americans. But not all of us use these resources equally. Minority populations are much less likely to seek recreation, adventure, and solace in our wilderness spaces. It's a difference that African American author James Mills addresses in his new book, *The Adventure Gap: Changing the Face of the Outdoors*. Bridging the so-called “adventure gap” requires role models who can inspire the uninitiated to experience and enjoy wild places. Once new visitors are there, a love affair often follows. This is important

because as our country grows increasingly multicultural, our natural legacy will need the devotion of people of all races and ethnicities to steward its care. In 2013, the first all-African American team of climbers, sponsored by the National Outdoor Leadership School (NOLS), challenged themselves on North America's highest point, the dangerous and forbidding Denali, in Alaska. Mills uses Expedition Denali and its team members' adventures as a jumping-off point to explore how minority populations view their place in wild environments and to share the stories of those who have already achieved significant accomplishments in outdoor adventures—from Mathew Henson, a Black explorer who stood with Peary at the North Pole, to Kai Lightner, a teenage sport climber currently winning national competitions. The goal of the expedition, and now the book, is to inspire minority communities to look outdoors for experiences that will enrich their lives, and to encourage them toward greater environmental stewardship.

In 2000 the United States began accepting 3,800 refugees from one of Africa's longest civil wars. They were just some of the thousands of young men, known as "Lost Boys," who had been orphaned or otherwise separated from their families in the chaos of a brutal conflict that has ravaged Sudan since 1983. The Lost Boys of Sudan focuses on four of these refugees. Theirs, however, is a typical story, one that

repeated itself wherever the Lost Boys could be found across America. Jacob Magot, Peter Anyang, Daniel Khoch, and Marko Ayii were among 150 or so Lost Boys who were resettled in Atlanta. Like most of their fellow refugees, they had never before turned on a light switch, used a kitchen appliance, or ridden in a car or subway train—much less held a job or balanced a checkbook. We relive their early excitement and disorientation, their growing despondency over fruitless job searches, adjustments they faced upon finally entering the workforce, their experiences of post-9/11 xenophobia, and their undying dreams of acquiring an education. As we immerse ourselves in the Lost Boys' daily lives, we also get to know the social services professionals and volunteers, celebrities, community leaders, and others who guided them—with occasional detours—toward self-sufficiency. Along the way author Mark Bixler looks closely at the ins and outs of U.S. refugee policy, the politics of international aid, the history of Sudan, and the radical Islamist underpinnings of its government. America is home to more foreign-born

In 1939 Swiss travel writer and journalist Ella K. Maillart set off on an epic journey from Geneva to Kabul with fellow writer Annemarie Schwarzenbach in a brand new Ford. As the first European women to travel alone on Afghanistan 's Northern Road, Maillart and Schwarzenbach had a rare glimpse of life in Iran and Afghanistan at a time when their borders were rarely crossed by Westerners. As the two flash across Europe and the Near East in a streak of élan and daring, Maillart writes of comical mishaps, breathtaking landscapes, vitriolic religious clashes, and the ingenuity with which the women navigated what was often a dangerous journey. In beautiful, clear-eyed prose, *The Cruel Way* shows Maillart 's great ability to explore and experience other cultures in writing both lyrical and deeply empathetic. While the core of the book is the journey itself and their interactions with people oppressed by political conflict and poverty, towards the end of the trip the women 's increasingly troubled relationship takes center stage. By then the glamorous, androgynous Schwarzenbach, whose own account of the trip can be found in *All the Roads Are Open*, is fighting a losing battle with her own drug addiction, and Maillart 's frustrated attempts to cure her show the profound depth of their relationship. Complete with thirteen of Maillart 's own photographs from the journey, *The Cruel Way* is a classic of travel writing, and its protagonists are as gripping and fearless as any in literature.

Drawing on rarely examined diaries and journals, *Down the Great Unknown* is the first book to tell the full, dramatic story of the Powell expedition. On May 24, 1869 a one-armed Civil War veteran, John Wesley Powell and a ragtag band of nine mountain men embarked on the last great quest in the American West. The Grand Canyon, not explored before, was as mysterious as Atlantis—and as perilous. The ten men set out from Green River Station, Wyoming Territory down the Colorado in four wooden rowboats. Ninety-nine days later, six half-starved wretches came ashore near Callville, Arizona. Lewis and Clark opened the West in 1803, six decades later Powell and his scruffy band aimed to resolve the West's last mystery. A brilliant narrative, a thrilling journey, a cast of memorable heroes—all these mark *Down the Great Unknown*, the true story of the last epic adventure on American soil.

“A haunting novel” about sex and obsession, set off the coast of Scotland and “full of otherworldly emotion and strange impulses” (Marie Claire). A professor marries his prize student, a woman forty years his junior, and at her request, he takes her to the sea for their honeymoon. His life’s work is a book about enchantment—narratives in literature, most of them involving strange girls and women—but soon he finds himself distracted by his own enchantment with his new white-haired young wife. They travel to the Orkney Islands, the ancient Mesolithic and Neolithic site north of the Scottish coast, a barren place of extraordinary beauty known as “the Seal Islands.” And as the days of their honeymoon pass, his desire and his constant, yearning contemplation become his normality. His mysterious bride becomes his entire universe. He is consumed . . . From the author of *The Still Point*, a winner of the John Llewellyn Rhys Memorial Prize, this is a novel that “will appeal to literature aficionados: a Lolita-esque love, a romance born out of academia, and folklore come to life” (Booklist). “What begins as a familiar, almost fairytale-like narrative ends as something more fragmented, unsettling, and odd . . . Providing a brooding, bruised, ever-changing backdrop to all this is Orkney, the book’s most compelling character of all. In a tribute to Virginia Woolf’s experimental masterpiece, *The Waves*, the sea in Orkney functions as a kind of rhythmic talisman, its ebb and flow mirrored in the actions, ideas, and themes of the book. More than anything, Sackville’s Orkney is a breathtaking place in the most literal of senses.”

A fascinating and illuminating account of how George Washington became the dominant force in the creation of the United States of America, from award-winning author David O. Stewart "An outstanding biography . . . [George Washington] has a narrative drive such a life deserves."—The Wall Street Journal

Washington's rise constitutes one of the greatest self-reinventions in history. In his mid-twenties, this third son of a modest Virginia planter had ruined his own military career thanks to an outrageous ego. But by his mid-forties, that headstrong, unwise young man had evolved into an unassailable leader chosen as the commander in chief of the fledgling Continental Army. By his mid-fifties, he was unanimously elected the nation's first president. How did Washington emerge from the wilderness to become the central founder of the United States of America? In this remarkable new portrait, award-winning historian David O. Stewart unveils the political education that made Washington a master politician—and America's most essential

leader. From Virginia's House of Burgesses, where Washington mastered the craft and timing of a practicing politician, to his management of local government as a justice of the Fairfax County Court to his eventual role in the Second Continental Congress and his grueling generalship in the American Revolution, Washington perfected the art of governing and service, earned trust, and built bridges. The lessons in leadership he absorbed along the way would be invaluable during the early years of the republic as he fought to unify the new nation.

The fortunes of the late nineteenth century's imperial and industrial powers depended on a single raw material—rubber—with only one source: the Amazon basin. And so began the scramble for the Amazon—a decades-long conflict that found Britain, France, Belgium, and the United States fighting with and against the new nations of Peru, Bolivia, and Brazil for the forest's riches. In the midst of this struggle, Euclides da Cunha, engineer, journalist, geographer, political theorist, and one of Brazil's most celebrated writers, led a survey expedition to the farthest reaches of the river, among the world's most valuable,

dangerous, and little-known landscapes. The Scramble for the Amazon tells the story of da Cunha's terrifying journey, the unfinished novel born from it, and the global strife that formed the backdrop for both. Haunted by his broken marriage, da Cunha trekked through a beautiful region thrown into chaos by guerrilla warfare, starving migrants, and native slavery. All the while, he worked on his masterpiece, a nationalist synthesis of geography, philosophy, biology, and journalism he named the Lost Paradise. Da Cunha intended his epic to unveil the Amazon's explorers, spies, natives, and brutal geopolitics, but, as Susanna B. Hecht recounts, he never completed it—his wife's lover shot him dead upon his return. At once the biography of an extraordinary writer, a masterly chronicle of the social, political, and environmental history of the Amazon, and a superb translation of the remaining pieces of da Cunha's project, *The Scramble for the Amazon* is a work of thrilling intellectual ambition.
