The book, Visser's Annotated European Patent Convention, is a commentary on the European Patent Convention and a bestseller in European patent law. The 2021 edition of this preeminent work – the only regularly updated authoritative article-by-article commentary in English on the European Patent Convention (EPC), its implementing regulations, and associated case law provides the complete text of the law annotated with commentary and expert guidance on the interpretation of each paragraph. Since its first edition in 1994 it has provided the European patent community with the necessary insights to practice successfully before the European Patent Office. The EPO recommends the Visser's Annotated European Patent Convention as the first book in its list of non-EPO/WIPO literature to be used for the preparation of the European qualifying examination. In addition to a thorough updating of developments, new material in the 2021 edition includes the following: Amended EPO Guidelines that entered into force on 01.03.2021 Consolidated discussion of procedures relating to oral proceedings held by video conference Commentary on recent amendments to the implementing regulations Recent decisions of the boards of appeal The 2021 edition is suitable for candidates preparing for the EQE 2022. A free supplemental note will be published providing candidates with an overview of the main legal changes between the 2021 edition and the 31.10.2021 legal cut-off date for the EQE 2022.

Legislating for an ecosystem approach to fisheries (EAF) is complex, due to the holistic nature of EAF involving multiple factors that underpin the social, economic, environmental, and institutional aspects of fisheries sustainability. These factors include ecosystems integration, risks, inter-sectoral collaboration, research, participatory processes, monitoring, control, surveillance, and enforcement, among others. To assess how an EAF is being implemented through national policy and legal frameworks, FAO developed "A diagnostic tool for implementing an ecosystem approach to fisheries through national policy and legal frameworks". The present legal report on the EAF used the diagnostic tool to assess the alignment of selected policy and legal instruments of Togo with an EAF. This assessment analysed the extent to which 82 EAF legal requirements, which are considered the minimum standards in legislating for an EAF, are reflected in Togo's policies and legislation relevant to the fisheries sector of the country and other relevant sectors (such as environment, wildlife, ecosystems, and maritime affairs). Based on this preliminary diagnosis, gaps were identified in the assessed instruments, and recommendations were made for improving the implementation of an EAF. This report was elaborated following a participatory approach with the involvement of the national competent authorities of Togo. Drafted in July 2021, the report was submitted to the national authorities of Togo in October 2021. The Ministère de l'économie maritime, de la pêche et de la protection côtière (MEMPPC) [Ministry of Maritime Economy, Fisheries and Coastal Protection] endorsed this EAF Legal Report of Togo in December 2021.

Colleen Moore (1899–1988) was one of the most popular and beloved stars of the American silent screen. Remembered primarily as a comedienne in such films as *Ella Cinders* (1926) and *Orchids and Ermine* (1927), Moore's career was also filled with dramatic roles that often reflected societal trends. A trailblazing performer, her legacy was somewhat overshadowed by the female stars that followed her, notably Louise Brooks and Clara Bow. An in-depth examination of Moore's early life and film career, the book reveals the ways in which her family and the times in which she lived influenced the roles she chose. Included are forewords written by film historian Joseph Yranski, a friend of the actress, and by Moore's stepdaughter, Judith Hargrave Coleman.
