The eighteenth-century German physicist Georg Christoph Lichtenberg left behind at the time of his death thousands of fragmentary notes commenting on a dazzling and at the same time puzzling array of subjects. Pierre Senges's *Fragments of Lichtenberg* imaginatively and hilariously reconstructs the efforts of scholars across three centuries to piece together Lichtenberg's disparate notes into a coherent philosophical or artistic statement. What emerges instead from their efforts are a wide variety of conflicting and competing Lichtenbergs – the poet, the physicist, the philosopher, the humorist – and a very funny meditation on the way interpretations and speculation create new histories and new realities. In just over half a century, Georg Christoph Lichtenberg (1742-1799) had the time to be all of the following: a hunchback; a mathematician; a physics professor; a connoisseur of hare pate; a hermit; an electrical theorist; a skirtchaser; a friend of King George III of England; an asthmatic; a defender of reason; a hypochondriac; a dying man; and the author of 8,000 fragments written with ink and goose quills. Traditionally those fragments have been considered no more than aphorisms, to be sipped like fine schnapps, but certain scholars claim, however, that his famous Wastebooks are really the scattered pieces of a Great Novel, and that this might yet be reconstructed, with the help of scissors, glue, and paper, and by using what is left of our imaginations. The present volume retracts, among other things, the work undertaken for more than a century by valiant Lichtenbergians.

A Tale of Two Cities: A Tale of Two Cities is a novel by Charles Dickens, set in London and Paris before and during the French Revolution. The novel depicts the plight of the French peasantry demoralized by the French aristocracy in the years leading up to the revolution, the corresponding brutality demonstrated by the revolutionaries toward the former aristocrats in the early years of the revolution, and many unflattering social parallels with life in London during the same time period. It follows the lives of several protagonists through these events. **Great Expectations:** Great Expectations is a bildungsroman, or a coming-of-age novel, and it is a classic work of Victorian literature. It depicts the growth and personal development of an orphan named Pip. The novel was first published in serial form in Dickens' weekly periodical All the Year Round, from 1 December 1860 to August 1861. **David Copperfield:** David Copperfield is the common name of the eighth novel by Charles Dickens, first published as a novel in 1850. Many elements of the novel follow events in Dickens' own life, and it is probably the most autobiographical of his novels. **Oliver Twist:** Oliver Twist is notable for Dickens' unromantic portrayal of criminals and their sordid lives. The book exposed the cruel treatment of many a waif-child in London, which increased international concern in what is sometimes known as "The Great London Waif Crisis": the large number of orphans in London in the Dickens era. **A Christmas Carol:** The tale has been viewed by critics as an indictment of 19th-century industrial capitalism. It has been credited with restoring the holiday to one of merriment and festivity in Britain and America after a period of sobriety and sombreness. Charles Dickens (1812-1870) was an English writer and social critic. He created

some of the world's best-known fictional characters and is regarded by many as the greatest novelist of the Victorian era.

Imperial Japanese soldiers were notorious for blindly following orders, and their enemies in the Pacific War derided them as "cattle to the slaughter." But, in fact, the Japanese Army had a long history as one of the most disobedient armies in the world. Officers repeatedly staged coups d'états, violent insurrections, and political assassinations; their associates defied orders given by both the government and the general staff, launched independent military operations against other countries, and in two notorious cases conspired to assassinate foreign leaders despite direct orders to the contrary. In Curse on This Country, Danny Orbach explains the culture of rebellion in the Japanese armed forces. It was a

culture created by a series of seemingly innocent decisions, each reasonable in its own right, which led to a gradual weakening of Japanese government control over its army and navy. The consequences were dire, as the armed forces dragged the government into more and more of China across the 1930s—a culture of rebellion that made the Pacific War possible. Orbach argues that brazen defiance, rather than blind obedience, was the motive force of modern Japanese history. Curse on This Country follows a series of dramatic events: assassinations in the dark corners of Tokyo, the famous rebellion of Saigō Takamori, the "accidental" invasion of Taiwan, the Japanese ambassador's plot to murder the queen of Korea, and the military-political crisis in which the Japanese prime minister "changed colors." Finally, through the sinister plots of the clandestine Cherry Blossom Society, we follow the deterioration of Japan into chaos, fascism, and world war.

Disaster risk reduction at farm level Multiple benefits, no regrets: Results from cost-benefit analyses conducted in a multi-country study, 2016-2018 Food & Agriculture Org.

This report presents the findings of a multi-year FAO study undertaken on over 900 farms in ten different countries that measured, using field data, benefits gained through the use of innovative farming practices designed to boost the resilience of farmers in the face of natural disasters and other shocks. Its findings show that the use of good disaster risk reduction practices offer significant economic gains at the household level, and also that – because they are usually low-cost and easily implemented – they hold significant potential for reducing disaster risks at the national and regional scales as well. These results can guide farmers in making choices about how to manage risks, and have important implications for disaster risk policymaking as well.

It ' s election time in Blackwater Bay but there ' s a dead man in Cotter ' s Cut who won ' t be casting his vote this year. Sheriff Matt Gabriel is faced with a murder without apparent motive and circumstantial evidence leads him to arrest Frog Bartlett. Frog Bartlett is the ugliest man in Blackwater County, and he has the nastiest temper. But at least one person believes he is innocent – and has enough money to anonymously finance a strong defence. The election hots up, tempers become frayed, a small riot occurs – and then somebody else is killed. Suddenly Matt Gabriel himself is a suspect. Forced to withdraw from the investigation, he turns it over to his Chief Deputy George Putnam. Now the townsfolk are really worried. While George turns himself inside out trying to be a proper Sheriff, certain people decide to lend both George and Matt a hand – adding further confusion to the situation. Once again, Paula Gosling brings her talent for zany characters and complex, suspenseful plots to the world of Blackwater Bay. The result is a delightful story of thrills and spills and assorted cookies.

Why savoring single? Because you were meant to enjoy it! Finding purpose, knowing love, and experiencing adventure aren't reserved solely for the married girls! You can enjoy a full and vibrant life even while being single. It's also a perfect time to partner with what God wants to develop in you through this once-in-a-lifetime part of your journey! The Routledge Companion to Urban Imaginaries delves into examples of urban imaginaries across multiple media and geographies: from new visions of smart, eco, and resilient cities to urban dystopias in popular culture; from architectural renderings of starchitecture and luxury living to performative activism for new spatial justice; and from speculative experiments in urban planning, fiction, and photography to augmented urban realities in crowd-mapping and mobile apps. The volume brings various global perspectives together and into close dialogue to offer a broad, interdisciplinary, and critical overview of the current state of research on urban imaginaries. Questioning the politics of urban imagination, the

companion gives particular attention to the role that urban imaginaries play in shaping the future of urban societies, communities, and built environments. Throughout the companion, issues of power, resistance, and uneven geographical development remain central. Adopting a transnational perspective, the volume challenges research on urban imaginaries from the perspective of globalization and postcolonial studies, inviting critical reconsiderations of urbanism in its diverse current forms and definitions. In the process, the companion explores issues of Western-centrism in urban research and design, and accommodates current attempts to radically rethink urban form and experience. This is an essential resource for scholars and graduate researchers in the fields of urban planning and architecture; art, media, and cultural studies; film, visual, and literary studies; sociology and political science; geography; and anthropology.
