This edited volume addresses the pressing imperative to understand and attend to the needs of the fast-growing population of minority students who are increasingly considered "superdiverse" in their cultural, linguistic, and racial backgrounds. Superdiverse learners—including native-born learners (Indigenous and immigrant families), foreign-born immigrant students, and refugees—may fill multiple categories of "diversity" at once. This volume helps pre- and in-service teachers and teacher educators to move beyond the demographic backgrounds of superdiverse learners to consider not only their ways of being, motivations, and social processes, but also the ongoing systemic issues of marginalization and inequity that confront these learners. Challenging existing teaching and learning paradigms in the K-12 North American context, this volume provides new methods and examples for supporting superdiverse learners in a range of settings. Organized around different conceptual underpinnings of superdiversity, contributors identify the knowledge gaps and effective practices in engaging superdiverse learners, families and communities. With cutting-edge research on this growing topic, this text will appeal to researchers, scholars, educators, and graduate students in multilingual education, literacy education, teacher education, and international education.

A task a day to cure a broken heart. Esmé Peel is approaching thirty with some trepidation, but hope in her heart. If she can just get her long-term boyfriend Andrew to propose, she will have ticked everything off her 'things to do by the time you're 30' list. She didn't reckon on finding another woman's earring in her bed however, and soon she finds herself single, homeless and in need of a new plan. Her best friend Carys gives her the perfect present - The Single Girl's Calendar - which has a different cure for heartbreak every day: Day 1: Look and feel fabulous with a new hair style. Day 2: Step out of your comfort zone and try something new. Day 3: Reconnect with friends and enjoy! By the end of week one she has four new male housemates, and despite a broken heart she is determined to show Andrew she can do more than survive, she can thrive.
