***Joseph Moretz's innovative work focuses on what battleships actually did in the inter-war years and what its designed war role in fact was. In doing so, the book tells us much about British naval policy and planning of the time. Drawing heavily on official Admiralty records and private papers of leading officers, the author examines the navy's operational experience and the evolution of its tactical doctrine during the interwar period. He argues that operational experience, combined with assumptions about the nature of a future naval war, were more important in keeping the battleship afloat than***

Addresses the areas highlighted as poor in the Chief Examiner's feedback of candidate performance Assists students in decoding questions found in the City and Guilds 2394 and 2395 exams Uses realistic exam questions as examples and rather than simply providing the answers, explains how the student should go about answering a question

of that type. An essential guide to the City and Guilds 2394/2395 Initial Verification and Certification of Electrical Installation and Periodic Inspection and Testing qualifications, this book addresses the areas which have resulted in a considerable failure rate, such as the technical and legal terminology used within these exams. Full coverage of technical terms is included, as is the structure of exam questions and their interpretation. By running through examples of real exam questions in a step-by-step

fashion, this book explains how to decode the questions and examine the answer choices in order to get to the correct answers. This book is ideal for all electricians, regardless of their experience, who need a testing qualification in order to take the next step in their career.
