the Olympic Games in one locale: the city of Los Angeles, USA. The author critically compares the similarities and differences of the LA Olympics by reviewing the 1932 and 1984 Olympics and by analyzing the concurrent planning process for the 2028

Olympics. The author unravels

the conditions that make (or do not make) LA28s

argument "we have staged the Games before, we can do it again"

compelling. Setting the bids promises into the

contemporary local and global mega-

event contexts, the author analyzes

why LA won the bids, how those wins allowed LA to negotiate

concessions with the IOC and NOC, and how legacies were planned, executed, and ultimately evolved.

The author concludes with a

prediction which
2028 legacy

promises might
and might not be
