During the years 1500–1800, European performing arts reveled in a kaleidoscope of Otherness: Middle-Eastern harem women, fortune-telling Spanish 'Gypsies', Incan priests, Barbary pirates, moresca dancers,

and more. In this prequel to his 2009 book Musical Exoticism, Ralph P. Locke explores how exotic locales and their inhabitants were characterized in musical genres ranging from instrumental pieces and

popular songs to oratorios, ballets, and operas. Locke's study offers new insights into much-loved masterworks by composers such as Cavalli, Lully, Purcell, Rameau, Handel, Vivaldi, Gluck, and Mozart. In

these works, evocations of ethnic and cultural Otherness often mingle attraction with envy or fear, and some pieces were understood at the time as commenting on conditions in Europe itself. Locke's

accessible study, which includes numerous musical examples and rare illustrations, will be of interest to anyone who is intrigued by the relationship between music and cultural history, and by the

challenges of cross-cultural (mis)understanding.

The Story Of The Mahabharata Is Not Only Of The Great War Between The Kouravas And Pandavas For A Period Of Eighteen Days In The Battlefield Of Kurukshetra Near Delhi. As A Matter Of Fact The Supreme

Lesson Held Out By The Great Epic Is The One With Which Vyasa Deva, The Author, Starts-Viz. When Men Live Together As One Family They Not Only Thrive, But They Exist As A Great Community Or Race. As Long

As The Pandavas And Kauravas Lived Together They Not Only Thrived As Two Great Wings Of A Race But As One And The Same Race Of The Kurus. As We Proceed With The Story Of The Mahabharata We Notice How This

Was Stabilised As Long As They Lived Together With Each Other. And We Have Noticed How The Great War Reduced The Powerful Kurus And Decimated Them To A Struggling Few To Call Themselves As Remnants Of The

Great Kuru Race. This Holds Good Not Only In The Case Of Few Families Living Together In Small Units But Number Of Races Living In The World Culminating In The Truth Noticed In The Maxim "One World One

Family" Which Is The Title Of The Next Work By The Same Author.

During the early 1900s, Horatio Parker was one of the best-known composers in the United States. He received numerous commissions and was a patriarchal figure among America's Protestant church musicians and choral societies; his symphonic works were performed by the leading orchestras of the day; and he headed the Yale School of Music for twenty-five years. Kearns's study is a thorough analysis of the circumstances leading to Parker's popularity in pre- World War I America and his neglect thereafter. The book includes a detailed narration of the composer's life and an extensive description of his major works. Over fifty examples of his music are included, as well as a comprehensive listing of works and writings.

“The indelible imprint of sacred music drama throughout history is undeniable . . . and its resurgence in the twentieth and twentieth-first centuries stirs the curiosity.” Carl Gerbrandt, in pursuing these issues, has brought to our fingertips a stimulating historical perspective on sacred music drama as well as an extensively annotated list of repertoire. Years of research have gone into providing information on centuries of sacred music dramas/operas which for the most part have been known to very few. Included in these pages of his Second Edition are over 330 sacred music dramas/operas, each with scholarly and practical information that will be of interest and great value to the opera director, the performer, the scholar, the conductor and the church musician. Gerbrandt's SETTING THE STAGE section is an enlightening overview of sacred music history. The repertoire selected includes works from the Middle Ages to works being written today. Each work is reviewed with regard to the source of libretto, the style and difficulty of its musical content, the date and location of the first performance, the number of acts and scenes, and the performance length of the work. Additionally, each role is listed by name and voicing, and in most cases, the vocal range is indicated. The choral demands, orchestrations and dance requirements are identified. A thorough plot synopsis as well as the location of scores and parts is given. Ten appendices cross-reference textual sources and topical content while assisting in the selection of works for worship services or theatrical performances. Select contact information of publishers and composers is also included. Sacred Music Drama: The Producer's Guide fills a long standing void by acquainting directors, students, performers and interested readers with the numerous sacred music dramas which are available.

Anthony Ruff, osb has written a brilliant, comprehensive, well-researched book about the treasures of the Church's musical tradition, and about the transformations brought about by liturgical reform. The liturgy constitution Sacrosanctum Concilium stated many revolutionary principles of liturgical reform. Regarding liturgical music, the Council's decrees mandated, on the one hand, the preservation of the inherited treasury of sacred music, and on the other hand, advocated adaptation and expansion of this treasury to meet the changed requirements of the reformed liturgy. In clear, precise language, he retrieves the Council's neglected teachings on the preservation of the inherited music treasury. He clearly shows that this task is not at odds with good pastoral practice, but is rather an integral part of it. The book proposes an alternate hermeneutic for understanding the Second Vatican Council's teachings on worship music.

Christian Sacred Music in the Americas explores the richness of Christian musical traditions and reflects the distinctive critical perspectives of the Society for Christian Scholarship in

Music. This volume, edited by Andrew Shenton and Joanna Smolko, is a follow-up to SCSM's Exploring Christian Song and offers a cross-section of the most current and outstanding scholarship

from an international array of writers. The essays survey a broad geographical area and demonstrate the enormous diversity of music-making and scholarship within that area. Contributors

utilize interdisciplinary methodologies including media studies, cultural studies, theological studies, and different analytical and ethnographical approaches to music. While there are some

studies that focus on a single country, musical figure, or region, this is the first collection to represent the vast range of sacred music in the Americas and the different approaches to

studying them in context.

Like many other small towns in Trinidad, Felicity is populated almost entirely by East Indians. In their Caribbean exile, the residents of Felicity have created and recreated the music of

their Hindu ancestors. Music of Hindu Trinidad is a fascinating account of the history and cultural significance of Hindu music that explores its symbolic, aesthetic, and psychological

aspects while asking the larger question of how this music has contributed to the formation of identity in the midst of their great diaspora. Myers details the musical repertory of

Felicity, which is based largely on north Indian genres including the traditional Bhojpuri folk songs and drumming styles brought by the first indentured laborers in 1845. In her engaging

exploration of the fate of Indian classical music and new popular styles such as Hindi calypso, soca, and chutney, she even finds herself at the ancestral home of Trinidadian V. S. Naipaul

in India. Copiously illustrated and accompanied by a compact disk, Music of Hindu Trinidad is a model ethnographic study.

The Oxford Handbook of Music and World Christianities investigates music's role in everyday practice and social history across the diversity of Christian religions and practices around the globe. The volume explores Christian communities in the Americas, Europe, Africa, Asia, and Australia as sites of transmission, transformation, and creation of deeply diverse musical traditions. The book's contributors, while mostly rooted in ethnomusicology, examine Christianities and their musics in methodologically diverse ways, engaging with musical sound and structure, musical and social history, and ethnography of music and musical performance. These broad materials explore five themes: music and missions, music and religious utopias (and other oppositional religious communities), music and conflict, music and transnational flows, and music and everyday life. The volume as a whole, then, approaches Christian groups and their musics as diverse and powerful windows into the way in which music, religious ideas, capital, and power circulate (and change) between places, now and historically. It also tries to take account of the religious self-understandings of these groups, presenting Christian musical practice and exchange as encompassing and negotiating deeply felt and deeply rooted moral and cultural values. Given that the centerpiece of the volume is Christian religious musical practice, the volume reveals the active role music plays in maintaining and changing religious, moral, and cultural values in a long history of intercultural and transnational encounters.

Saint Poet Kabir Was Illiterate By Choice. He Was Of The Firm View That If One Realises The Value Of The Two Letters Of The Alphabet R And M Which Make The Name Of Shri Rama There Was No Need To Bother About The Rest Of The Fifty-Four Alphabets Which Might As Well Be Washed Down The River As Being Of No Value. But Kabir Also Emphasised That The True Value Of Shri Rama Should Be Realised Which Will Help Man To Realise The Intrinsic Value Of God And Ingrain True And Deep Love For The Lord. And Kabir Acted Accordingly As He Has Shown In His Songs And Maxims Which Flowed From His Lips In Thousands. The Maxims Selected For This Book Through Small In Number Being 160 In All Show How Deep And Broad Were His Realisation.

Ferdinand III played a crucial role both in helping to end the Thirty Years' War and in re-establishing Habsburg sovereignty within his hereditary lands, and yet he remains one of the most neglected of all Habsburg emperors. The underlying premise of Sacred Music as Public Image for Holy Roman Emperor Ferdinand III is that Ferdinand's accomplishments came not through diplomacy or strong leadership but primarily through a skillful manipulation of the arts, through which he communicated important messages to his subjects and secured their allegiance to the Catholic Church. An important locus for cultural activity at court, especially as related to the Habsburgs' political power, was the Emperor's public image. Ferdinand III offers a fascinating case study in monarchical representation, for the war necessitated that he revise the image he had cultivated at the beginning of his reign, that of a powerful, victorious warrior. Weaver argues that by focusing on the patronage of sacred music (rather than the more traditional visual and theatrical means of representation), Ferdinand III was able to uphold his reputation as a pious Catholic reformer and subtly revise his triumphant martial image without sacrificing his power, while also achieving his Counter-Reformation goal of unifying his hereditary lands under the Catholic church. Drawing upon recent methodological approaches to the representation of other early modern monarchs, as well as upon the theory of confessionalization, this book places the sacred vocal music composed by imperial musicians into the rich cultural, political, and religious contexts of mid-seventeenth-century Central Europe. The book incorporates dramatic productions such as opera, oratorio, and Jesuit drama (as well as works in other media), but the primary focus is the more numerous and more frequently performed Latin-texted paraliturgical genre of the motet, which has generally not been considered by scholars as a vehicle for monarchical representation. By examining the representation of this little-studied emperor during a crucial time in European history, this book opens a window into the unique world view of the Habsburgs, allowing for a previously untold narrative of the end of the Thirty Years' War as seen through the eyes of this important ruling family.

In Sacred Song in America, Stephen A. Marini explores the full range of American sacred music and demonstrates how the meanings and functions of this musical expression can contribute to a greater understanding of religious culture. Marini examines the role of sacred song across the United States, from the musical traditions of Native Americans and the Hispanic peoples of the Southwest, to the Sacred Harp singers of the rural South and the Jewish music revival to the music of the Mormon, Catholic, and Black churches. Including chapters on New Age and Neo-Pagan music, gospel music, and hymnals as well as interviews with iconic composers of religious music, Sacred Song in America pursues a historical, musicological, and theoretical inquiry into the complex roles of ritual music in the public religious culture of contemporary America.
