The Railway Children is a children’s book by Edith Nesbit, originally serialised in The London Magazine during 1905 and first published in book form in 1906. It has been adapted for the screen several times, of which the 1970 film version is the best known. The Oxford Dictionary of National Biography credits Oswald Barron, who had a deep affection for Nesbit, with having provided the plot. The setting is thought to be inspired by Edith’s walks to Chelsfield railway station close to where she lived, and her observing the No

Multiculturalism and the Demise of Nationalism in Australia

Progress. It is one of the animating concepts of the modern era. From the Enlightenment onwards, the West has had an enduring belief that through the evolution of institutions, innovations, and ideas, the human condition is improving. This process is supposedly accelerating as new technologies, individual freedoms, and the spread of global norms empower individuals and societies around the world. But is progress inevitable? Its critics argue that human civilization has become different, not better, over the last two and a half centuries. What is seen as a breakthrough or innovation in one period becomes a setback or limitation in another. In short, progress is an ideology not a fact; a way of thinking about the world as opposed to a description of reality. In the seventeenth semi-annual Munk Debates, which was held in Toronto on November 6, 2015, pioneering cognitive scientist Steven Pinker and bestselling author Matt Ridley squared off against noted philosopher Alain de Botton and bestselling author Malcolm Gladwell to debate whether humankind’s best days lie ahead.

Two beings dwell within me: one of them, having seen too much of filth and loathsomeness, had become chastened. Life’s dreadful humdrum had made him skeptical and suspicious, and he looked with helpless compassion upon all people, including himself. This individual longed to lead a quiet, retired life far away from cities and people. He dreamed of going to Persia, of entering a monastery, of living in a forester’s hut or the lodge of a railway guard, or becoming a night watchman somewhere on the outskirts of town. The fewer the people and the more remote, the better.” The other individual, baptized by the holy spirit of wise and truthful books, realized that life’s dreadful humdrum exerted a ruthless power which might easily lop off his head or crush him under a grimy heel. And so he summoned all his strength in self-defense, baring his teeth, clenching his fists, ever ready for a fight or an argument.”In My Apprenticeship, Maxim Gorky (1868-1936) gives an exact account of his own adolescence. After the death of his mother, fourteen-year-old Alexei Peshkov (Gorky) sets out to earn his own living. First he is the errand boy in a shoe shop; then, in turn, a draughtsman’s apprentice, a dishwasher on a Volga steamboat, and an apprentice in a studio where icons are painted. Repulsed by the ugly mediocrity of middle-class life, by the “senseless, stupid animosity poisoning the life around him,” he constantly searches for something better. My Apprenticeship (1916) is the second book of Gorky’s autobiographical trilogy, each book of which represents and independent work.

On a sweltering day in August, a small town drunkenly celebrates its six-hundredth anniversary with a funfair when an anonymous tip leads police to find a young woman brutally beaten, raped, and thrown under the floorboards of the very stage on which her attackers had just played a polka. An eight-member brass band composed of respectable family men with respectable day jobs is charged with the crime. A neophyte defense lawyer, still wet behind the ears and breaking in his attaché case, takes on the trial, only to lose his innocence in the process. So begins Guilt. Ferdinand von Schirach’s tense, riveting collection of stories based on real crimes he has known. In these brief, succinct tales, von Schirach calls into question the nature of guilt and the toll it takes—or fails to take—on ordinary people. In “The Illuminati,” the popular mean crowd at an all-boys’ boarding school wages a vicious attack against an outsider schoolmate, and ends up accidentally killing the boy’s beloved teacher. Attempting to hurdle through a midlife crisis, a housewife begins to steal trivial things no one will miss, an act that gives her a rush and staves off depression in “Desire.” And in “Snow,” an old man whose home is used as a way station for a heroin ring agrees to protect the identity of the lead ring runner, who receives his comeuppance in due course. Compassionate and seen with the same cool, controlled eye that propelled Ferdinand von Schirach’s debut collection, Crime, onto best-seller lists, Guilt is a stunning follow-up from one of Germany’s finest new writers.

This collection of first-person narratives by specialists in education from South East Europe makes vivid the politics and paradoxes of the transformation of education systems. The book chronicles the profound effect on schooling caused by the armed conflict, post-communist transition, and increasing openness of the last fifteen years. The stories narrate the thoughts and feelings of individuals, experienced first-hand, in the classrooms of eleven countries and territories.” –Book Jacket.

Capturing all the rueful irony and racial ambivalence of small-town Mississippi in the late 1950s, Melinda Haynes’ celebrated novel is a wholly unforgettable exploration of family, identity, and redemption. Mother of Pearl revolves around twenty-eight-year-old Evie Grade, a black man who grew up an orphan, and Valuable Korner, the fifteen-year-old white daughter of the town whore and an unknown father. Both are passionately determined to discover the precious things neither experienced as children: human connection, enduring commitment, and, above all, unconditional love. A startlingly accomplished mixture of beauty, mystery, and tragedy, Mother of Pearl marks the debut of an extraordinary literary talent.

Samad Behrangi was an author who would always incorporate some kind of meaningful story in his writing. According to Samad, literature for children and teenagers was not a "Do and Do not" lecture, but a place for developing their social awareness. He would try to familiarize their creative and questioning minds with concepts like, justice, honesty and friendship. He was a teacher in poor villages who knew exactly what poverty was. In his writing, he would consider the life of poor people, and the way they lived. His stories were dedicated to children from the disadvantaged side of the society. He is the author of stories like, The Little Black Fish, Oldooz and Speaker Doll, all stories with meaningful tales. One peach and one thousand peaches is a story of a tree in which a gardener does everything to make it grow, but he fails. Who knows why? The author by asking this question is provoking the reader’s mind, as he is telling the story from the point of the peach tree itself. The main protagonists, Poolad and SahebaAli, are the voice of the poor, and the gardener is the rich, powerful, and uncaring part of society.

This chilling and intense novel tells the story of a solitary young woman drawn into an online world run by a charismatic web guru who entices her into impersonating a glamorous but desperate woman. Now a series on Netflix. A sheltered young woman raised by a single mother, Leila often struggled to connect with the girls at school. On an internet community for philosophical and ethical debate, she finally comes into her own, and is flattered when the website’s brilliant, charismatic founder invites her to be part of Project Tess. Communicating only through online channels, Leila immerses herself in Tess’s world. She must learn every detail about this other woman’s life: her mother’s birthday, her favorite songs, her best friends, her first kiss. Because soon, Leila will have to become her. And Tess will disappear. FINALIST The Guardian First Book Prize British National Book Award–New Writers Award

Read Arvin’s previous novel, The Last Goodbye, was “the best thing a thriller can be: suspenseful, intelligent, and well written” (Harlan Coben), and had the critics raving: People magazine stated, “You’ll be hooked,” and the New York Times declared it “sultry, devious, adrenaline-boosting suspense.” Now comes a vivid and haunting tale of one man’s search for the truth -- no matter what the consequences. Thomas Dennehy, senior prosecutor in Davidson County, Tennessee, doesn’t recognize Nashville anymore: a decade of relentless immigration means cops are learning Spanish, and the DA’s office is looking for Vietnamese translators. Thomas’s latest case is prosecuting Moses Bol, a Sudanese refugee who faces the death penalty for killing a white woman in the Nations, a notorious, racially charged part of town. Bol’s conviction seems certain, until a university professor claims Thomas sent the wrong man to the death chamber in a previous case. The DA’s office is rocked to its core, but within days another blow falls: a beautiful and brilliant anti-death penalty activist mysteriously surfaces as Bol’s alibi, claiming she was with him at the time of the crime. Bol’s case becomes a lightning rod as protesters on all sides converge on Nashville and tensions threaten to explode. Meanwhile, Bol’s alibi has her own secrets -- and is terrified of someone working behind the scenes to get what he wants -- even if it means murder. Will Dennehy be able to piece things together before everything he believes about the law, and about justice, is torn apart? Vivid with the emotional complexity that has become the hallmark of Reed Arvin’s work, Blood of Angels is filled with nonstop action, impeccable detail, and unforgettable characters, making this a novel that is impossible to resist.

“Germany long ago became part of us German Turks,” Zafer Senocak observes. “Are we also a part of Germany?” Gathered here for the first time in English translation, these essays chart a new orientation for German life, culture, and politics beyond the Cold War and at the dawn of an unprecedented era. The 1990s began with national unification between East and West and closed with a radical liberalization of German citizenship law; many questions about the largest minority in this multicultural Germany have yet to be asked. This decade also reeled with war in the Persian Gulf and “ethnic cleansing” in the Balkans. As Germans imagine themselves as westerners interacting with Muslim populations at home and abroad, these essays acquire a critical urgency. Senocak reconfigures the Turkish diaspora and the German nation by mapping a “tropical Germany.”

Immigration and its consequences have always been topics of public debate in Australia and in recent times the debate has intensified. Strong views are held on the advantages and disadvantages of immigration, and on the desirable size and composition of the immigrant intake. The authors look at the characteristics and numbers of immigrants who have arrived in Australia in recent years, where they have settled and the impact on the workforce. They discuss the effect of immigration on Australia’s population and outline the advantages and disadvantages of population growth through immigration. They include a thorough examination of research-based knowledge on economic, environmental and social impacts.” Immigration and Australia is the most up-to-date source of information on immigration issues, and a comprehensive resource for students, researchers and policy-makers.”--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. This book investigates recent policies introduced into Turkey which are designed to reduce state activities and open up the country to international investment and trade. This is done in the context of the UNs Millennium Development Goals continuing to stretch into the distant future amid the ongoing instability of the global financial system and economic pressures on the West. The focus is on agriculture and the major effects of a deliberate restructuring of an agrarian economy as seen through the lens of the peasant, the village and poverty. This unique socioeconomic review of Turkey, which is generally thought to be a contemporary success story of the neo-liberal paradigm, argues for a new understanding of the destructive effects of global capitalism. Some issues addressed are the effects on Turkey’s countryside as its agricultural sector has been catapulted onto the world market, how farming has changed and what this has meant for small-scale enterprises. Also discussed is how rural communities have fared, capital relations have been transformed in the process and the impact this has had on the nation’s poor. Finally, the ways in which neo-liberalism has guided government’s response to the new social needs is discussed along with how Turkey’s experience parallels similar developments worldwide. This serves as a window to the reality of development at a time when the philosophy for growth underpinning development is facing an increasingly profound crisis of confidence worldwide.
