

3rd Edition Market Leader Upper Intermediate

A new classic, cited by leaders and media around the globe as a highly recommended read for anyone interested in innovation. In *The Innovator's DNA*, authors Jeffrey Dyer, Hal Gregersen, and bestselling author Clayton Christensen (*The Innovator's Dilemma*, *The Innovator's Solution*, *How Will You Measure Your Life?*) build on what we know about disruptive innovation to show how individuals can develop the skills necessary to move progressively from idea to impact. By identifying behaviors of the world's best innovators—from leaders at Amazon and Apple to those at Google, Skype, and Virgin Group—the authors outline five discovery skills that distinguish innovative entrepreneurs and executives from ordinary managers: **Associating, Questioning, Observing, Networking, and Experimenting**. Once you master these competencies (the authors provide a self-assessment for rating your own innovator's DNA), the authors explain how to generate ideas, collaborate to implement them, and build innovation skills throughout the organization to result in a competitive edge. This innovation advantage will translate into a premium in your company's stock price—an innovation premium—which is possible only by building the code for innovation right into your organization's people, processes, and guiding philosophies. Practical and provocative, *The Innovator's DNA* is an essential resource for individuals and teams who want to strengthen their innovative prowess.

Why is it that Casio can sell a calculator more cheaply than Kellogg's can sell a box of corn flakes? Why can FedEx "absolutely, positively" deliver your package overnight but airlines have trouble keeping track of your bags? What does your company do better than anyone else? How will you increase that value next year? As customers' demands for the highest quality products, best services, and lowest prices increase daily, the rules for market leadership are changing. Once powerful companies that haven't gotten the message are faltering, while others, new and old, are thriving. In disarmingly simple and provocative terms, Treacy and Wiersema show what it takes to become a leader in your market, and stay there, in an ever more sophisticated and demanding world.

Entrepreneurial Life tells the fascinating history of CaptiveAire, the largest commercial kitchen ventilation company in North America. From the beginning, CaptiveAire's story is not a typical one. Forged by Bob Luddy during a growing recession, with little capital, and as a newcomer to the region-his startup should not have survived, much less taken the trajectory it has had. In these pages, Luddy shares some of the values he learned as one of eight children in a "hard-scrabble, can-do" family and details his take on the type of leadership, innovation, financial management, and marketing strategy that has spurred his manufacturing company to grow at a remarkable pace over the course of forty-plus years at the helm. Entrepreneurial Life reveals Luddy's philosophy on all things entrepreneurship, character, and the skills necessary for achieving your fullest potential, no matter what your calling.
