A narrative like no other: a cultural history that explores how cars have both propelled and reflected the American experience—

from the Model T to the Prius. From the assembly lines of Henry Ford to the open roads of Route 66, from the lore of Jack Kerouac to the sex appeal of the Hot Rod,

## Access Free 66 Vw Bug Engine

America's history is a vehicular history—an idea brought brilliantly to life in this major work by Pulitzer Prize-winning journalist Paul Ingrassia.

## Access Free 66 Vw Bug Engine

Ingrassia offers a wondrous epic in fifteen automobiles, including the Corvette, the Beetle, and the Chevy Corvair, as well as the personalities and tales

behind them: Robert  
McNamara's unlikely role  
in Lee Iacocca's  
Mustang, John Z.  
DeLorean's Pontiac GTO ,  
Henry Ford's Model T, as  
well as Honda's Accord,

the BMW 3 Series, and the Jeep, among others. Through these cars and these characters, Ingrassia shows how the car has expressed the particularly American

tension between the lure of freedom and the obligations of utility. He also takes us through the rise of American manufacturing, the suburbanization of the
