The Math Curriculum for Gifted Students series provides gifted and advanced learners with challenging activities to extend their mathematical thinking. Developed by the Center for Gifted Education at William & Mary, the lessons, activities, and extensions in each book are aligned to national standards and are designed to provide high-ability learners advancement beyond the general curriculum. In Math Curriculum for Gifted Students (Grade 6), the 21 lessons cover mathematics content for grade 6 and are divided into five sections: ratios

and proportional relationships, the number system, expressions and equations, geometry, and statistics and probability. Each lesson includes a teacher page that outlines the Common Core State Standards and mathematical practices covered, estimated time, key terms, materials, and objectives; a challenging activity to allow students to explore the concepts in depth; practice problems; and an assessment similar to CCSS-based grade-level standardized assessments. Ideal for gifted classrooms or gifted pull-out groups, lessons are easy to implement and feature engaging above-level student activities. Optional student workbooks, which feature ample room for student responses, are also available in sets of 5. This new book is an exciting follow-up to the authors '

Each page in Common Core Math Workouts for grade 6 contains two "workouts"; one for skills practice and one for applying those skills to solve a problem. These workouts make great warm-up or assessment exercises. They can be used to set the stage and teach the content covered by the standards. They can also be used to assess what students have learned after the content has been taught. Content is aligned with the Common Core State Standards for Mathematics and includes Geometry, Ratio and Proportional Relationships, The Number System, Expressions and Equations, and Statistics and Probability. The workbooks in the Common Core Math
