

8th Grade Illinois Constitution Study Guide

Translate standards-based content into enriched learning projects that build 21st century skills. A valuable tool for teachers, this book uses an enriched learning projects model to develop student skills in communication, collaboration, critical thinking, creativity, and global and cross-cultural awareness. It highlights e-tools that enhance projects and presents research-based instructional strategies that engage students.

A Practical Pathway to 21st Century Skills

Instructional Program Mandates

Legislative Research Checklist

Paint, Oil and Drug Review

This practical resource shows educators how to use the Internet to help students communicate electronically, reaching beyond the borders of traditional classroom walls. The authors—a lifelong professional developer and a dedicated facilitator of improved K-12 education through her work with graduate students in school leadership—provide the how-to for teaching essential foundation elements, including teamwork, Internet research, evaluation of information sources, cross-cultural communication, and thinking skills. Emphasizing practical tools and techniques, their model integrates the internet, common school software, and free online technology tools to create engaging projects that advance 21st-century skills.
