We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely – on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

One of America's most influential Hispanics -- 'Maria' on Sesame Street -- presents a powerful novel set in New York's El Barrio in 1969 There are two secrets Evelyn Serrano is keeping from her Mami and Papo? her true feelings about growing up in her Spanish Harlem neighborhood, and her attitude about Abuela, her sassy grandmother who's come from Puerto Rico to live with them. Then, like an urgent ticking clock, events erupt that change everything. The Young Lords, a Puerto Rican activist group, dump garbage in the street and set it on fire, igniting a powerful protest. When Abuela steps in to take charge, Evelyn is thrust into the action. Tempers flare, loyalties are tested. Through it all, Evelyn learns important truths about her Latino heritage and the history makers who shaped a nation. Infused with actual news accounts from the time period, Sonia Manzano has crafted a gripping work of fiction based on her own life growing up during a fiery, unforgettable time in America, when young Latinos took control of their destinies.

Now an ancient Russian immigrant, Leonka claims to be the last living witness to the Romanovs' brutal murders and sets down the dark secrets of his past with the imperial family. Does he hold the key to the many questions surrounding the family's murder?
