

A Special Blend Of Murder: A Food And Wine Club Mystery Book 1

An uncanny literary thriller addressing the painful legacy of lynching in the US, by the author of Telephone Percival Everett's The Trees is a page-turner that opens with a series of brutal murders in the rural town of Money, Mississippi. When a pair of detectives from the Mississippi Bureau of Investigation arrive, they meet expected resistance from the local sheriff, his deputy, the coroner, and a string of racist White townfolk. The murders present a puzzle, for at each crime scene there is a second dead body: that of a man who resembles Emmett Till. The detectives suspect that these are killings of retribution, but soon discover that eerily similar murders are taking place all over the country. Something truly strange is afoot. As the bodies pile up, the MBI detectives seek answers from a local root doctor who has been documenting every lynching in the country for years, uncovering a history that refuses to be buried. In this bold, provocative book, Everett takes direct aim at racism and police violence, and does so in a fast-paced style that ensures the reader can't look away. The Trees is an enormously powerful novel of lasting importance from an author with his finger on America's pulse.

Hedgewitch Katie Lightfoot is juggling wedding preparations, a visit from her father, and home renovations on top of her hours at the Honeybee Bakery. However, to prove it she'll have to work with ornery detective Peter Quinn again - and this time around he knows she's more than your everyday baker.

“Breaks new ground in its examination of the role of newspaper reporting during the police hunt for the first notorious serial killer.”—Reviews in History Press coverage of the 1888 mutilation murders attributed to Jack the Ripper was of necessity filled with gaps and silences, for the killer remained unknown and Victorian journalists had little experience reporting serial murders and sex crimes. This engrossing book examines how fourteen London newspapers—dailies and weeklies, highbrow and lowbrow—presented the Ripper news, in the process revealing much about the social, political, and sexual anxieties of late Victorian Britain and the role of journalists in reinforcing social norms. L. Perry Curtis surveys the mass newspaper culture of the era, delving into the nature of sensationalism and the conventions of domestic murder news. Analyzing the fourteen newspapers—two of which emanated from the East End, where the murders took place—he shows how journalists played on the fears of readers about law and order by dwelling on lethal violence rather than sex, offering gruesome details about knife injuries but often withholding some of the more intimate details of the pelvic mutilations. He also considers how the Ripper news affected public perceptions of social conditions in Whitechapel. “The apparently motiveless violence of the Whitechapel killings denied journalists a structure, and it is the resulting creativity in news reporting that L Perry Curtis Jr describes. His impressive book makes a genuine contribution to 19th-century history in a way that books addressing the banal question of the identity of the Ripper do not.”—The Guardian

Was the crash deliberately contrived, a diabolical piece of sabotage, or was it cruelly fortuitous? Simon Drake—Miss Nielsen's very personable and popular lawyer-detective—happens to be at the airport at the time of the crash, and notices that some surprising people have been awaiting the ill-fated plane: among them, a gangster boss and a millionaire playboy. He hastens to take his boat out into the bay, to help

search for possible survivors, but all he manages to pick up is one piece of hand luggage—a cosmetics case which is identified as belonging to Sigrid Thorsen, a young starlet who was joining her fiancé at Los Angeles. And the severed key concealed in the case is the first of many clues in the extremely dangerous and complex adventure which invades Drake's life. The mystery develops in many directions, and Drake finds himself and his friends more and more involved. In the background there is the hovering, enigmatic presence of the gangster boss. Allison's Wedding Dress, one of the 46 short stories in this book is based on a young woman the author met and observed while living and working in Aberdeen, Washington. The fictionalized account of her life was chosen to be the cornerstone of this collection of short stories, all of which are written by the author of this book. This collection is sure to entertain readers of all ages. Allison, raised by her great aunt and uncle, lived under extremely rigid conditions. She was forced to marry a total stranger who used her in place of frequenting the local brothel. Emotionally battered and practically brainwashed that she was going to go to hell, Allison lived a lonesome and forlorn life in her and John's tiny rundown home next to the railroad tracks. The very same house where her mother, by the same name, had died. Many of these stories are true to life or based on real events from newspaper articles. "Mega Woman" details how winning the Mega Bucks lottery, may have changed the life of a young woman struggling to make ends meet. Other stories answer questions never before answered, like, "how did the SCUD missile come by its name?" The "Mystery Of The Mima Mounds" is my offering of science fiction.

A humorous graphic investigation of the author's obsession with true crime, the murders that have most captivated her throughout her life, and a love letter to her fellow true-crime fanatics. Why is it so much fun to read about death and dismemberment? In *Murder Book*, lifelong true-crime obsessive and New Yorker cartoonist Hilary Fitzgerald Campbell tries to puzzle out the answer. An unconventional graphic exploration of a lifetime of Ann Rule super-fandom, amateur armchair sleuthing, and a deep dive into the high-profile murders that have fascinated the author for decades, this is a funny, thoughtful, and highly personal blend of memoir, cultural criticism, and true crime with a focus on the often-overlooked victims of notorious killers.

The Griffin Murders by Jon Gegenheimer Author Jon Gegenheimer is a long-time practicing attorney, elected court official, and a writer of serious literary fiction. His first novel, *The Second Hill* (AuthorHouse 2011), is an exceptional piece of historical/futuristic fiction. It is a unique work that foresaw virtually every malady afflicting today's troubled world: ubiquitous terrorism, rampant moral relativism, absurd political correctness, and the all-out assault against the Judeo-Christian ethic. Although *The Griffin Murders* is predominantly a straight murder mystery, it is of the same genre as *The Second Hill*. Beyond a spellbinding surface plot, it features deep character development and strikingly relevant themes. Its pace is lively; its prose is rich and finely crafted; and there are plenty of twists and turns along the way. *The Griffin Murders* is reminiscent of the Sherlock Holmes adventures. Its protagonists, Louisiana Supreme Court Justice Steve Wyndham and U.S. Attorney Rod West, are Holmes and Watson reincarnated. They follow myriad clues throughout New

Orleans' French Quarter in pursuit of an unusually cunning serial killer who leaves at each murder scene the likeness of a gryphon: the mythical creature that is half eagle and half lion. Four years after the initial murder, Justice Wyndham, in Holmes-like fashion, unmask the murderer during a Mardi Gras party at his stately French Quarter residence. The disclosure most certainly will astonish the reader. Without question, this story will appeal to the devoted whodunit audience. Moreover, it is fine Dickensian writing that informs as much as it entertains. Like *The Second Hill*, it is a story for the times - written to awaken, delight, educate, and spark conversation. In writing this unique detective adventure, Gegenheimer drew upon his vast experience as a trial lawyer. He believes in the axiom "Write what you know."

Blake and Shelby Gunner's plans to renovate the old boathouse go awry when murder comes calling...

Autumn in Port Scuttlebutt usually means a stormy Lake Superior, crisp temperatures, vibrant fall colors, and an invasion of deer hunters. This year, there's also a shallow grave. Someone killed Pete Dugan's ex-wife and planted her under his woodpile. The police consider him the obvious suspect, but the Gunner's have other ideas. What does the death of a pet squirrel, the sighting of a mysterious car, a break-in at the bed & breakfast, and the reappearance of three ex-cons into the community have to do with the murder of a middle-aged legal assistant? No detective worth a grain of salt believes in coincidence. So when things start piling up that seem too quirky to be happenstance, Blake and Shelby have to decipher the clues and come up with the truth before a killer gets away with murder.

Malibu, California. The sun has just come up and there is no fog along the beach. Suddenly all hell breaks loose. Retired Scotland Yard Chief Inspector Richard Greene's wife, Jenny, discovers the gruesome corpse of a man wedged between rocks at the foot of a cliff. There should have been blood, lots of it, because one of the man's legs is missing, severed just below the hip, the frayed edges of his jeans exposing a fresh stump. All identification, including fingerprints, has been removed, the only clue, a peculiar hand-embroidered design on the right-rear pocket of his jeans. Was it a revenge killing, a hate crime, the work of a satanic cult?

Inspector Greene, in L.A. to deliver the keynote speech at the International Forensics Symposium, suspects the bizarre presentation is the work of ALOPEX, master of disguise, scourge of Scotland Yard, purposely designed to draw the Inspector into another deadly game of chess. When Alopex's first taunting postcard arrives, the Inspector's worst suspicions are confirmed. Alopex's victims are always members of the medical profession who have through financial influence or membership in the "old boy's club," circumvented the judicial system, their patient's deaths never avenged. His latest victim, Dr. Louis Bronsib, a lustful egomaniac, covets a Nobel Prize at any price. In bed with organized crime, he ruthlessly tests an untried AIDS

vaccine in Africa where he becomes Alopex's quarry. When the young son of a Greek shipping magnate dies after mistakenly receiving a bone-marrow transplant containing hyped AIDS-virus instead of Bronsib's "miracle designer genes," maliciously added by one of Bronsib's discarded lovers, Bronsib becomes the target of a mob-style hit while fishing in Capri. Taban, Alopex's partner in crime, accidentally overhears the plot to kill Bronsib.

An incredible four-decade account of murder, power, and corruption in one of the country's largest police departments. In 1979, the gruesome slaying of a thirteen-year-old boy riveted the suburbs of Suffolk County, New York. As the county hustled to bring the case to a dubious resolution, a wayward local teenager emerged with a convenient story to tell. In his cooperation, Jimmy Burke was rewarded with a job as a cop. Thus began Burke's unlikely ascent to the top of one of the country's largest law enforcement jurisdictions. He and a crew of likeminded allies utilized vengeance, gangster tactics, and political leverage to become the most powerful and feared figures in their suburban empire. Until a pilfered bag of sex toys brought it all crashing down. Jimmy the King is the story of the rise, reign, and paranoid fall of a cop and his regime—a crime family with badges and guaranteed pensions. Novelistic in detail and piercing in its political insight, this book will leave you questioning who modern policing serves, who it protects, and who it preys upon and abandons.
