A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

From the cup of coffee that jumpstarts the day to dangerously addictive drugs, the recreational use of plants with psychoactive properties has a long history among humans. But, as with many things, it turns out that other animals got there first. From parrots to primates, consuming medicinal chemicals is an instinctive behavior that helps countless organisms fight infection and treat disease. But the similarities

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

don't end there: Like us, many creatures also consume substances that have no apparent benefit . . . except for inducing intoxication. In fact, animals have been using drugs for recreational purposes since prehistoric times. We may even have animals to thank for the idea—legend says that coffee was discovered by observing the behavior of goats that had eaten it. In his previous book, *Strange Survivors*, author and biologist Oné R. Pagán introduced readers to some of the truly bizarre strategies animals use to survive in the cutthroat world of natural selection. Now, in *Drunk Flies and Stoned Dolphins*, he sheds light on the surprising cravings they indulge when it's time to unwind. In this book, you'll get an eye-opening

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

glimpse into the mind-altering behavior of the non-human members of the animal kingdom, spanning insects to elephants—including the dolphin species that apparently likes to pass around an intoxicating pufferfish as if they were sharing a joint. Combining fascinating science with humor and enthusiasm, Pagán's latest is full of the kind of unforgettable stories and odd facts that you'll find yourself repeating to everyone you meet. From fruit fly happy hour to the evolutionary reasons behind nature's drugs, *Drunk Flies and Stoned Dolphins* takes you on a trip through the colorful world of animal intoxication—and along the way, explores what this science reveals about the surprising connections

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

between all the world's creatures.

This treasury of 52 stories collects together a rich resource of myths, fairy tales and legends from around the world, with a story for every week of the year. The book is broken into 12 chapters, for each of the 12 months of the year, and throughout, stories are matched to internationally celebrated dates, including Valentines Day and the International Day of Friendship, as well as seasonal events and festivals. Collected and retold by award-winning author Angela McAllister, and illustrated by internally recognised artist Christopher Corr, this is a book that will be treasured by families and appeal to teachers and librarians around the world.

What Does Kitten Hear?

Musician and naturalist Bernie Krause is one of the world's leading experts in natural sound, and he's spent his life discovering and recording nature's rich chorus. Searching far beyond our modern world's honking horns and buzzing machinery, he has sought out the truly wild places that remain, where natural soundscapes exist virtually unchanged from when the earliest humans first inhabited the earth. Krause shares fascinating insight into

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

how deeply animals rely on their aural habitat to survive and the damaging effects of extraneous noise on the delicate balance between predator and prey. But natural soundscapes aren't vital only to the animal kingdom; Krause explores how the myriad voices and rhythms of the natural world formed a basis from which our own musical expression emerged. From snapping shrimp, popping viruses, and the songs of humpback whales—whose voices, if unimpeded, could circle the earth in hours—to cracking glaciers, bubbling streams, and the roar of intense storms; from melody-singing birds to the organlike drone of

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

wind blowing over reeds, the sounds Krause has experienced and describes are like no others. And from recording jaguars at night in the Amazon rain forest to encountering mountain gorillas in Africa's Virunga Mountains, Krause offers an intense and intensely personal narrative of the planet's deep and connected natural sounds and rhythm. The Great Animal Orchestra is the story of one man's pursuit of natural music in its purest form, and an impassioned case for the conservation of one of our most overlooked natural resources-the music of the wild.

NEW YORK TIMES BESTSELLER • Every kind of

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

animal, including humans, is enclosed within its own unique sensory bubble, perceiving but a tiny sliver of our immense world. Pulitzer Prize-winning science journalist Ed Yong takes us on “a thrilling tour of nonhuman perception” (The New York Times), allowing us to experience the skeins of scent, waves of electromagnetism, and pulses of pressure that other animals perceive. “One of this year’s finest works of narrative nonfiction . . . Yong’s reporting is layered, seasoned with vivid scenes from laboratories and in the field, interviews with researchers across a spectrum of disciplines.”—Oprah Daily “A dazzling ride

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

through the sensory world of astoundingly sophisticated creatures.”—The Wall Street Journal The Earth teems with sights and textures, sounds and vibrations, smells and tastes, electric and magnetic fields. In An Immense World, Ed Yong coaxes us beyond the confines of our own senses to encounter beetles that are drawn to fires, turtles that can track the Earth’s magnetic fields, fish that fill rivers with electrical messages, and even humans who wield sonar like bats. We discover that a crocodile’s scaly face is as sensitive as a lover’s fingertips, that the eyes of a giant squid evolved to see sparkling whales, that plants

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

thrum with the inaudible songs of courting bugs, and that even simple scallops have complex vision. We learn what bees see in flowers, what songbirds hear in their tunes, and what dogs smell on the street. We listen to stories of pivotal discoveries in the field, while looking ahead at the many mysteries that remain unsolved. Funny, rigorous, and suffused with the joy of discovery, An Immense World takes us on what Marcel Proust called “the only true voyage . . . not to visit strange lands, but to possess other eyes.”

This collection of lively animal folktale retellings from five different indigenous

The animal kingdom is staggeringly diverse, but the animals that most easily spring to mind the tigers, elephants, eagles and crocodiles, or

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

perhaps amphibians, fish, insects and even humans account for only a tiny proportion of known species. Whats more, there are estimated to be many tens of millions still unknown to science. Animal Earth is an unbiased tour of this world, highlighting the bizarre appearances, hidden lives and mostly small scale of the creatures with whom we share our planet. The bewildering number of animal species are all offshoots from a relatively small number of lineages, all sharing a common body plan and evolutionary history. This book provides a broadly equal summary of each of these thirty-five lineages, and is

Get Free A World Full Of Animal Stories US: 50 Favourite Animal Folk Tales, Myths And Legends

structured according to the latest research on the evolutionary relationships of the animals. Every species is an integral component of the ecosystem we live in, and as intelligent beings it is our duty to protect and understand animal diversity not only for its own sake but also to maintain the natural systems that keep us and everything else alive.
