Recounts of the election of PRESIDENT BARACK OBAMA.

Kamari Grade was a well-known troubleshooter for the most discerning clients. But when called to investigate one of the most powerful men in financing, she's thrown into the world of Huron Base. Financiers were usually polished in word and deed, but there was a sexy arrogance to Huron that blared former thug and it wasn't an image he wanted to forget. When the lovely troubleshooter crossed his path she was everything he loved about his life-challenge, drive, determination, strength, success, beauty ... For a man who could acquire anything, the allure of such a conquest was irresistible.

Ever wondered how Bradley Cooper rose to stardom? Bradley Cooper was born on January 5th, 1975 in the heart of Philadelphia, PA. The only son of an NBC affiliate and a stockbroker at Merrill Lynch, Bradley and his older sister Holly were raised in an old fashioned Irish-Italian household just outside of the city limits. On the surface, the tight knit family seemed average in many ways; however, as time would soon tell, the youngest member was always anything but. For more interesting facts You must read his biography. Grab Your Biography book NOW!

How do you survive your best friend's suicide? Alyessa jumps to her death two days after her 16th birthday. Her best friend Lee-Ann blames the tragedy on her failure to answer Aly's last phone call. Haunted by what-ifs, stressed out by the looming 'O' Levels, and troubled by fraught relationships with her parents and on-off boyfriend Nate, Lee-Ann begins to contemplate suicide too. In Lee-Ann's searingly honest diary entries, she exposes the wound of having a loved one gone too soon. This true account of a teenager's journey reveals anger and despair at its most raw, and eventually hope as she begins the slow and painful recovery to live again. This book is based on a deep understanding of the Chronological Order of the Sabbatical and Jubilee Years and why terrorism, severe weather, and now Pestilence dominate the nightly news-all promised events that were told to us thousands of years ago. There is more to come, like famines, earthquakes, war and slavery. Most people have no idea about any of this. Sadly many do not even want to know. The Prophecies of Abraham will show you a pattern that the Creator has used since creation. Once you see it, you can no longer deny it. You will then know exactly when these events are to come. The loss of a child is every parent's worst nightmare. For Randah Ribhi Hamadeh this nightmare became a reality. The poems in Summer Rays offer consolation to any parent on a grief journey. It is a poetic diary of loss and communication with the eternal soul. Through her poems, all bereaved parents will identify with the heartfelt pleadings of a grieving parent and the connection with her lost child. Readers will find her poetry profound as she describes the familiar, excruciating pain of a grieving parent, in particular on the special occasions when the lost child is missed; birthdays, anniversaries, Mother's Day and New Year's Day. They will also relate to her feelings of gratitude towards those who were supportive and frustration with those less understanding. Writings from the soul are cathartic not only for the author but for all who share their unthinkable sorrow. As with any writing, when the writer takes up the pen, the muse will appear. In this case, the muse is Samar Ahmed Al Ansari, the author's deceased daughter.

'What do you want to be, dear?' 'A doctor and only a doctor, nothing else!' Replies a bespectacled, nerdy, double plaited, enthusiastic Shwetha, as her parents ask her about her career plans. Little does this girl from a traditional Tamil Brahmin family know however, that her innocent words were going to change her life completely. The day she steps into medical school, so many new and exciting things happen in her life one after the other – long lasting friendship, first crush, first love, and an eventual heartbreak. Just when she thinks her life could be more perfect, fate casts a sarcastic smile on her. As her hands heal many, she wonders whether or not her heart will truly heal and love will find its way to her. If you are ready to ride a light-hearted roller coaster of romance, friendship, heartbreak, the becoming and the doctor, well what are you waiting for? Pick this book up and hop on!

Our schools now face a demand for productivity and accountability that is greater than ever before. Many school leaders are ill prepared to implement a system that will use real time data to monitor, manage and make the teaching/learning activity in the school more effective. This book introduces school leaders to such a system and provides the concepts and "hand on tools" that will guide them in their efforts to draw people together in pursuit of a common goal and to bring out the best performance from the people with whom they work.

Now in its fourth edition, this highly regarded book is ideal for those who wish to solve a variety of practical and recreational problems in astronomy using a scientific calculator or spreadsheet. Updated and extended, this new edition shows you how to use spreadsheets to predict, with greater accuracy, solar and lunar eclipses, the positions of the planets, and the times of sunrise and sunset. Suitable for worldwide use, this handbook covers orbits, transformations and general celestial phenomena, and is essential for anyone wanting to make astronomical calculations for themselves. With clear, easy-to-follow instructions for use with a pocket calculator, shown alongside worked examples, it can be enjoyed by anyone interested in astronomy, and will be a useful tool for software writers and students studying introductory astronomy. High-precision spreadsheet methods for greater accuracy are available at www.cambridge.org/practicalastronomy.
