#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • NATIONAL BOOK AWARD LONGLIST • “An instant American classic and almost certainly the keynote nonfiction book of the American century thus far.”—Dwight Garner, The New York Times The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns*

examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions.

NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People • The Washington Post • Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • NPR • Bloomberg • Christian Science Monitor • New York Post • The New York Public Library • Fortune • Smithsonian Magazine • Marie Claire • Town & Country • Slate • Library Journal • Kirkus Reviews • LibraryReads • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist “As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by

a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

Kill Song

Open Case File Memo Honor my father. There are four types of serial killers. Hedonistic. Power/control. Mission-oriented. Visionary. Not all serial killers are caught. At any given point, there could be as many as fifty serial killers active at a time. Fifty. I'm looking for one. He's male, likely in his forties or fifties now. He's been killing successfully for more than three decades. I suspect even longer, though our timeline is based only on the earliest victim we've identified with his signature mark. Seventy-nine kills that we are certain of. A year ago, the unsub's methods changed. It was a subtle shift. Instead of one or two bodies a year, five have been dropped. Forensic evidence remains inconclusive, but in my gut, I know something's changed. Either the unsub has a partner or he's about to become a spree killer. It's only a matter of time before someone puts the coin into the right slot and the kill song begins. Finding the unsub is my obsession. It was my father's. He died without solving the mystery. I won't. KILL SONG is a full length dark adult romance and psychological thriller with suspenseful themes. Any trigger warnings will be included in the foreword. Some situations may be uncomfortable for readers. This is a reverse harem novel, meaning the main character has more than one love interest. This is book one in the series. When it comes down to acclaim in the yearbook, my class rank would probably earn me my only entry, but probably very little else. I don't wear cosmetics, do my hair or really

give a damn about my appearance in general. I don't need to be cool, and I've managed my high school career navigating all the different groups from the nerds to the jocks to the theatre kids and the band geeks. Kicking off senior year, my only focus is to make every AP class count and keep my grades up. Shouldn't be hard, particularly with my so-called untouchable status. Oh yeah, imagine that-I had a reputation. Hadn't been a blip on my radar until the end of junior year when one of the girls' dropped that little nugget on me. Apparently, the guys at school considered me the best girl to hang out with for fun or homework, but nothing else. While I'm not looking for a date, it's a little hard to swallow that I ranked as the best bud and tutor, but would definitely never fall into the Girl Most Likely To Get Asked Out. Pfft. What did I care? One more year and I was off to college, so what if the numbers of female friends I used to have drifted off and I'd scored a permanent seat in the friend zone. I had subjects to study, grades to maintain, and colleges to get into. Fine, I didn't care about the rules or status before, and I wouldn't now. 181 class days to go, and I'll graduate. No problem, right?*

Please note this is a reverse harem and the author suggests you always read the forward in her books. This is the first in a series and the story will continue through future books.

Quinton Zane is back. Jack Lancaster, consultant to the FBI, has always been drawn to the coldest of cold cases, the kind that law enforcement either considers unsolvable or else has chalked up to accidents or suicides. As a

survivor of a fire, he finds himself uniquely compelled by arson cases. His almost preternatural ability to get inside the killer's head has garnered him a reputation in some circles--and complicated his personal life. The more cases Jack solves, the closer he slips into the darkness. His only solace is Winter Meadows, a meditation therapist. After particularly grisly cases, Winter can lead Jack back to peace. But as long as Quinton Zane is alive, Jack will not be at peace for long.

National Book Award Finalist: “ This man ’ s ideas may be the most influential, not to say controversial, of the second half of the twentieth century. ” —Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. “ Don ’ t be put off by the academic title of Julian Jaynes ’ s *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor. ” —The New York Times “ When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis. ” —John Updike, *The New Yorker*
