Animal Ark Celebrating Our Wild World in Poetry and Pictures National Geographic Books

A young, orphaned chimpanzee must start at a new school, where he will learn how to climb and build his confidence. Stunning photographs from award-winning photographer Gerry Ellis are sure to captivate young readers and raise awareness about chimps and the threats they face. Little Larry is an orphaned chimpanzee who doesn't know much about being a chimp. He has to go to his first day at the forest school to learn what chimp life is all about. Nestled in a primate sanctuary in Cameroon, Little Larry and his group of chimp friends go to the school each day to learn how to play, communicate, and climb like they would if they were chimps in the wild. The only trouble is, Little Larry doesn't want to learn how to climb. He's perfectly happy on the ground. Will the sanctuary keepers and other chimpanzees be able to teach Little Larry how to climb so he can graduate from forest school? This sweet story, with its beautiful photographs, explores the challenges of going to school, learning, and gaining confidence in yourself. This is a perfect read-aloud tale for children reluctant to try new things, preparing to enter kindergarten, or starting preschool for the very first time.

A treasury of poems invites youngsters to read entries that are positioned in untraditional directions and celebrates the ways in which the world can sway, crash, rise, and fall and still remain magical.

The conservationist whose work inspired Masterpiece production The Durrells in Corfu recounts the early years of the Durrell Wildlife Park. At the age of six, Gerald Durrell confidently told his mother he would one day have his own zoo.

She told him it was a lovely idea and promptly forgot all about it. But the young naturalist's passion wasn't about to fade away any time soon. Written for the Durrell Wildlife Park's twenty-fifth anniversary, The Ark's Anniversary is the unconventional story of how one man's dream was transformed into the esteemed organization known today as the Durrell Wildlife Conservation Trust, dedicated to saving endangered species from extinction. In the beginning, everyone thought Durrell was crazy to place a zoo on the island of Jersey in the English Channel. But that didn't stop people from coming to see him and his menagerie of rare and exotic animals, including celebrities like Richard Adams, Princess Grace, David Niven (who presided over the wedding of two apes), and Princess Anne (who wrote the foreword to this book). The Ark's Anniversary is a delightful journey and a celebration of success for anyone who loves the natural world. This ebook features an illustrated biography of Gerald Durrell including rare photos from the author's estate.

An extensive look at nature in verse. An essential introduction to the animal world with exquisitely modern illustrations. In this YA novel in verse from bestselling authors Kwame Alexander and Mary Rand Hess (*Solo*), which Kirkus called "lively, moving, and heartfelt" in a starred review, Noah and Walt just want to leave their geek days behind and find "cool," but in the process discover first loves, friendship, and embracing life ... as well as why Black Lives Matter is so important for all. Best friends Noah and Walt are popular, but Walt is convinced junior year is their year, and he has a plan that includes wooing the girls of their dreams and making the school athletes. Never mind he and Noah failed to make their baseball team yet again, and Noah's crush since third grade, Sam, has put him in the friend zone. While Walt focuses on his program of jazz, podcasts, batting cages, and a "Hug Life" mentality, Noah feels stuck until he stumbles on a stash of old love letters. Each one contains words Noah's always wanted to say to Sam, and he begins creating artwork using the lines that speak his heart. But when his art becomes public, Noah has a decision to make: continue his life and possibly lose the girl forever, or take a swing and finally speak out. At the same time, American flags are being left around town to think it's a harmless prank and others see it as a form of protest, Noah can't shake the feeling something bigger is happening in his community. Especially after he witnesses events that hint divides and prejudices run deeper than he realized. As the personal tensions increase around them, Noah and Walt must decide what is really important when it comes to love, friendship, sacrifice, and taking a swing. *Swing*: is written by New York Times bestselling author and Newbery Medal and Coretta Scott King Award-winner Kwame Alexander. A Collection of Pictures, Poems, and Stories from Nature's Nursery National Geographic Book of Animal Poetry National Geographic Book of Nature Poetry This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals-especially those that are endangered. His powerful message, conveyed with humor, compassion, and art- to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction.

He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits- from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet.

Nature documentaries often depict animal life as a grim struggle for survival, but this visually stunning book opens our eyes to a different, more scientifically up-to-date way of looking at the animal kingdom. In more than one hundred thirty striking images, The Exultant Ark celebrates the full range of animal experience with dramatic portraits of animal pleasure ranging from the charismatic and familiar to the obscure and bizarre. These photographs, windows onto the inner lives of pleasure seekers, show two polar bears engaged in a bout of wrestling, hoary marmots taking time for a friendly chase, Japanese macaques enjoying a soak in a hot spring, a young bull elk sticking out his tongue to catch snowflakes, and many other rewarding moments. Biologist and best-selling author Jonathan Balcombe is our guide, interpreting the images within the scientific context of what is known about animal behavior. In the end, old attitudes fall away as we gain a heightened sense of animal individuality and of the pleasures that make life worth living for all sentient beings.

Being a Beast

Like lightning/you strike/fast and free/legs zoom/down field/eyes fixed/on the checkered ball/on the goal/ten yards to go/can't nobody stop you/can't nobody cop you... Twelve-year-old Nick is a football-mad boy who absolutely hates books. In this follow-up to the Newbery-winning novel *The Crossover*, football, family, love, and friendship take centre stage as Nick tries to figure out how to navigate his parents' break-up, stand up to bullies, and impress the girl of his dreams. These challenges – which seem even harder than scoring a tie-breaking, game-winning goal – change his life, as well as his best friend's. This energetic novel-in-verse by the poet Kwame Alexander captures all the thrills and setbacks, the action and emotion of a World Cup match.

A passionate naturalist explores what it's really like to be an animal—by living like them How can we ever be sure that we really know the other? To test the limits of our ability to inhabit lives that are not our own, Charles Foster set out to know the ultimate other: the non-humans, the beasts. And to do that, he tried to be like them, choosing a badger, an otter, a fox, a deer, and a swift. He lived alongside badgers for weeks, sleeping in a sett in a Welsh hillside and eating earthworms, learning to sense the landscape through his nose rather than his eyes. He caught fish in his teeth while

swimming like an otter; rooted through London garbage cans as an urban fox; was hunted by bloodhounds as a red deer, nearly dying in the snow. And he followed the swifts on their migration route over the Strait of Gibraltar, discovering himself to be strangely connected to the birds. A lyrical, intimate, and completely radical look at the life of animals—human and other—Being a Beast mingles neuroscience and psychology, nature writing and memoir to cross the boundaries separating the species. It is an extraordinary journey full of thrills and surprises, humor and joy. And, ultimately, it is an inquiry into the human experience in our world, carried out by exploring the full range of the life around us.
