highlight how modern environments and (landscapes have been shaped by humans. Historical ecology is based on the recognition that humans are not only capable of modifying their environments, but that all environments on earth have already been directly or

Download Ebook Archaeology, History And Science

indirectly modified.

This includes

(anthropogenic climate

change, widespread

deforestations, and

species extinctions,

but also very local

alterations, the effects

of which may last a

few years, or may

have legacies lasting

centuries or more.

With contributions

from anthropologists,

Download Ebook Archaeology,

History And
Science
(University
College London
Institute Of
Archaeology

archaeologists,
human geographers,
(and historians, this
volume focuses not
just on defining
human impacts in the
past, but on the ways
that understanding
these changes can
help inform
contemporary
practices and
development policies.

Some chapters

Download Ebook Archaeology,

History And
Science
(University
College London
Institute Of
Archaeology
