What is that lyric in that one song? “The lure of easy money has a very strong appeal”. Maybe you decided to get into the day trading business of investing and/or investing and trading because you saw some late-night TV commercial about day trading with Flashy offers. Perhaps you received a spam e-mail touting some day trading method or system that said you could make easy money in the markets; I suggest you reconsider if that’s the case. Death by Day Trading is for all beginning aspiring investors and traders who are just getting their head around doing the day trading business who go online and do a search to find information on how to do financial market trading and it should be the first book a brand new beginner reads before any other books on trading as far as I’m concerned and will be the most harsh and brutal day trading book they have ever read. Everyone has their own ideas of what they think day trading is and what it can do for them; you need to look at it from a realistic perspective from the start and Death by Day Trading is absolutely going to help you to do that. This book is for beginners and will detail many of the things that a brand new trader must learn not to do before they can become consistently profitable in the live markets. You’re heard the saying “just say no to drugs”, just say no to day trading and you and your account will be waaaaay ahead of the game to start off. Don’t say I didn’t warn you, OK, continue with your insanity and read the entire book to give yourself a fighting chance. Death by Day Trading can help you keep it simple and filter the huge amount of information out there down to only what you need to know right away and then can work towards adding more information and studies as you go. My trading philosophy is to start small and build on success have limited exposure while you hone your skills, then progress as you become more competent. You can use Death by Day Trading and the references, suggestions and tips in it to go further into your educational studies of the markets and there dynamics. Knowing market dynamics is going to be critical for you to have the winning edge you will need to be a successful market participant. By studying what this book suggests you will not become one of the 97% of the sheeple of the herd, don’t become one of them.

You can take that to the bank! Everyone has their own ideas of what they think day trading and swing trading are and what it can do for them. This book is for beginners and will detail many of the things that a brand new trader must learn to do before they can become consistently profitable in the live markets. A lot of trading books teach a top down or a bottom up approach, how about a right way approach, and the right way from day one. Mostly all of the trading books teach this business not only wrong but they teach it unrealistically. Nothing in the market is guaranteed. It's about putting all the probabilities of having a positive outcome in your favor and Introduction to Day Trading for Complete Beginners is the book that can help you do that if you are a brand new beginner.

**THE BOOK DAY TRADERS RELY ON TO CAPTURE PROFITS AND LOWER RISK** Since The Compleat Day Trader was first published, the tools available to day traders have become incomparably more efficient and effective, thereby dramatically increasing your chances of success. On the flip side, day trading is much riskier and faster paced than ever before. Staying current isn't an option for the serious day trader—it's an absolute necessity. Jake Bernstein has revamped his bestselling guide, The Compleat Day Trader, to bring you fully up to date on his trading model, methods, and indicators, all of which are designed to help you take advantage of dramatically increased volatility in the global stock, futures, and forex markets. In order to generate profits consistently, you need to define your intraday time frames, implement a specific trading model, and develop objective and operational procedures. The Compleat Day Trader walks you through these critical processes step by step to help you execute with focus, logic, and objectivity—no matter how volatile the markets may be. Bernstein's powerful and clear tools are designed to give you the advantage you'll need. Bernstein presents trading tools and methods that are clear and objective, unlike the mythical, magical, or subjective tools that are so common these days. This refreshed, updated edition of The Compleat Day Trader provides you with the knowledge you need to make handsome profits while lowering your exposure—so you can rise to the top echelon of day traders.

The Truth About Day Trading Stocks A realistic guide to day trading today's stock market In terms of the potential for heavy financial losses, day trading is a high-risk profession. No one should contemplate day trading without giving thought to the ways he can lose, and all the ways to lessen or avoid them. Yet many people enter the game with unrealistic expectations, unaware of what it takes to succeed. Seminars and software alone do not make a successful day trader, cautions author Josh DiPietro. Instead, a trader must learn hard lessons of self-discipline, consistency, and staying in the game for the long haul to have a real chance of success. In The Truth About Day Trading Stocks, DiPietro offers the amateur day trader a brutally honest look at the pitfalls of day trading—and how to hopefully avoid them. Written in an engaging and sometimes humorous tone, The Truth About Day Trading Stocks draws on the author's own experiences as a day trader to offer a clear-cut departure from typical "golden goose" strategies promising instant wealth. Instead, he attempts to slow down the dangerous fervor of the average amateur and demonstrate the ways you can become a professional and not lose your shirt in the process. The Truth About Day Trading Stocks shows how trading decisions are bent and shaped by emotions, and why it is critical to know yourself, understand risk, and remember that increasing your skill level is a gradual, ongoing process—there's always more to learn! After dispensing with popular illusions, DiPietro proceeds to offer realistic, practical trading advice—comparing pay-per-trade with pay-per-share brokers, determining which works best and when, offering suggestions on how to avoid the prospect of perfect trades turning ugly, and more. At the end of the book, he also includes a section called "Rules to Remember," a list of over eighty rules, simply stated and easy to grasp, to benefit amateurs' performance. Throughout the book, the author describes his development of acute self-awareness while figuring out how to succeed. Through that blunt self-portrayal, the goal of The Truth About Day Trading Stocks is to help you create a disciplined mind-set and apply it to your own successful trading style.

*How you can earn remarkable profits right now by trading in very brief time frames!* • **Forget 'buy and hold.'** *Look what it's done to the investors who believed in it!* • **Enter the market at very specific times, and structure trades that capitalize on proven pricing anomalies and distortions.** • **Master day trading strategies that work in any market conditions, because they don't rely on financial predictions, company results, or market direction.** *Stock prices have lost all relationship to the underlying performance of the companies they represent: investors who relied on traditional 'buy and hold' strategies have been savaged by the greatest destruction of wealth in the history of the world. But some options traders are earning immense profits right now, even in this generation's worst market and they'll keep profiting no matter how the market moves. How? They trade at very specific times and structure trades to capitalize on well-characterized pricing anomalies and distortions. By doing so, they can generate more profit in one day than most experienced investors realize in a month, sometimes even a year. What's more, they systematically minimize exposure to market risk, including potentially disastrous after-hour market moves. In Day Trading Options, top options trader Jeff Augen shows exactly how you can use these strategies, too. You'll learn why day trading options is more practical than ever, and understand trends in the options market that have leveled the playing field between large institutions and private traders. Augen reveals how to choose candidates for day trading; use new technical indicators that work; spot mispriced options; exploit rapid changes in implied volatility, and much more. Above all, you'll learn how to structure positions that close profitably before the end of trading, so end the day wealthier and more secure than you were in the morning. Jeff Augen, currently a private investor and writer, has spent over a decade building a unique intellectual property portfolio of algorithms and software for technical analysis of derivatives prices. His work includes over 1 million lines of computer code reflecting powerful new strategies for trading options. As founding executive of IBM's Life Sciences Computing business, he defined a growth strategy resulting in \$1.2B of new revenue, and managed \$200M in venture investments. His books include Trading Options at Expiration, The Options and The Volatility Edge in Options Trading . Trader Workbook Short-term traders have used intra-day tactics to build wealth for years. Now Greg Capra shares his secrets in this book/DVD coursepackage designed to energize your trading and arm you with theoretical elements you need to make more money. You'll see how Capra pulls an array of indicators, creating a single – profitable– trading protocol that will be used to make winning tradesover and over. See him guide you through this methodical approach, then study his method thoroughly point by point in this carefullycrafted set of instructional material. Watch and read as Capra drives home the following criticalpoints: The three foundational forms of intra-day trading The psychological demands you'll need to know to win big The need to define your financial plan; building wealth orgaining income The importance of mastering charts – 5 and 15 minutepatterns The all-critical "tick indicator" – how to master it as akey timing tool These are but a few of the points that Capra outlines in thiscomprehensive learning set. Use the book and the DVD to develop aworking, hands-on knowledge of moving averages, risk limits throughrelative strength analysis, and targets that will position you forhuge gains with minimum financial risk. This course will give youeverything you need to achieve intra-day trading mastery.*

Take a proven approach to short-term trading. Winning the Day Trading Game offers an insider's view of the trading life and provides proven strategies for profitable trading. Professional trader Tom Busby explains how the strategies that made him so much money early on in his career ultimately failed during the 1987 stock market crash and then reveals how he reinvented himself as a high-percentage day trader. He interweaves personal experiences with technical explanations to outline the cornerstones of his technique. In highlighting his own trading experiences, Busby clearly explains how to beat the market by balancing the impulses of greed and fear, managing risk at all times; and taking responsibility for your trading. Thomas L. Busby (Mobile, AL) has been a professional trader and broker for 25 years, working with Merrill Lynch and Smith Barney. He founded the Day Trading Institute in 1996 and it has grown into one of the most successful trading schools in the world.
