

## **BTEC First In Health And Social Care Revision Workbook: BTEC First In Health And Social Care Revision Workbook Revision Workbook (BTEC First Health Social Care)**

This student book covers the full diploma including in-depth coverage of the four mandatory units and 11 most popular optional units, giving you the breadth to tailor the course to your learners' needs and interests. Assessment activities give practice for all grading criteria for the units covered.

All the mandatory units of the 2010 BTEC Level 3 Engineering specification, plus selected popular optional units. Clear, full colour layout and numerous activities, worked examples and questions with answers, make it easy for students to learn and revise for their exams. Content you can trust - written by two lecturers with over 50 years combined experience of designing and delivering engineering qualifications. Free student website with interactive quizzes, downloads and additional material to support learning. The third edition of this bestselling textbook ensures that all the mandatory units of 2010 BTEC Level 3 Engineering specification are fully covered in a way that encourages students to explore engineering for themselves, developing the expertise and knowledge required at this level. Key points and definitions highlight the most important concepts and hundreds of activities and worked examples help put theory in context. Questions throughout the text, with answers provided, allow students to test their knowledge as they go, while end of unit review questions are ideal for exam revision and set course work. For lecturers a Tutor Support DVD-ROM is available to help with the delivery of the programme: BTEC National Engineering Tutor Support Material, ISBN 978-0-08-096683-0. Units covered: Unit 1 - Health and Safety in the Workplace, Unit 2 - Communications for Engineering Technicians, Unit 3 - Engineering Project, Unit 4 - Mathematics for Engineering technicians, Unit 5 - Mechanical Principles and Applications, Unit 6 - Electrical and Electronic Principles, Unit 7 - Business Operations in Engineering, Unit 8 - Engineering Design. A free student website, including answers to all activities, is available at <http://www.key2study.com/btecnat> and features: Interactive quizzes with automatic marking and feedback. A free comprehensive 2D CAD package for downloading. A variety of spreadsheet tools for solving common engineering problems. Useful engineering data summaries. Extensive Visio symbol libraries for engineering drawing/CAD. Drawing templates and sample drawings in industry-standard format. Additional material to support learning activities and assignments. Book chapter: Arithmetic and Trigonometric Fundamentals. 'Test your Knowledge' and 'End of Unit Review' questions.

Everything students need to make the grade in BTEC Level 2 First Health and Social Care. This lively and comprehensive textbook covers all the core and optional units, making it suitable whether you are studying for the Certificate, Extended Certificate or Diploma. Each chapter covers a unit packed with: - Activities to help with assignments - Advice on gathering evidence - Explanations of the BTEC pass, merit and distinction criteria - Further reading - Pointers to additional resources. Written by authors with a wealth of experience in delivering, verifying and writing for BTECs, this textbook is packed with knowledge of the Health and Social Care sector and how to get the most of your course. This textbook is supported by a separately available Dynamic Learning package for tutors.

**Btec First Health and Social Care Revised Student Book**

If you're still teaching the 2005 BTEC First standards, then this Student Book and accompanying Tutor's Resource File with CD-ROM provide all the support you and your students need. Keep a look out for revised editions of our BTEC First resources for the 2006 standards - coming soon! Takes a colourful, easy to use approach, to make it as attractive as possible to your students. The content is organised to match the BTEC specification, so it's easy for you and your students to find your way through the material. Practice activities match the assessment requirements of the course, so students will be thoroughly prepared by the time they are assessed. Contains specific guidance for students on preparing for the Integrated Vocational Assessment for Unit 1. Lots of interesting case studies show students how their theory relates to real life business.

Take the guesswork out of BTEC assessment with sample student work and assessor feedback for all pass, merit and distinction criteria. By focusing on assessment this compact guide leads students through each pass, merit and distinction criterion by clearly showing them what they are required to do. - Helps your students tackle the new exam with confidence, with mock examination questions together with answers and feedback provided. - Provides a sample student answer for every single pass, merit and distinction criterion, together with detailed assessor's comments on how work can be improved, so that students know exactly what their work needs to show to hit their grade target - Saves you time - realistic model assignments are included and provide an opportunity to generate all evidence, with each criterion and grade clearly indicated, so there is no need to rewrite yet more assignment briefs - Use instead of a textbook - detailed revision-style summaries of all the learning aims from the unit support students, allowing them to quickly find the facts and ideas they will need for their assessment - Enables you to customise your course - combine this guide with others in the series so you only pay for the units you deliver

Our Full edition Student Book covers all the core and mandatory units required for the Award, Certificate and Extended Certificate, and a wide selection of optional units.

BTEC First Award Health and Social Care Student Book

Health & Social Care

***This Revision Workbook delivers hassle-free hands-on practice for the externally assessed units.***

***Workshop Processes, Practices and Materials is an ideal introduction to workshop processes, practices and materials for entry-level engineers and workshop technicians. With detailed illustrations throughout and simple, clear language, this is a practical introduction to what can be a very complex subject. It has been significantly updated and revised to include new material on adhesives, protective coatings, plastics and current Health and Safety legislation. It covers all the standard topics, including safe practices, measuring equipment, hand and machine tools, materials and joining methods, making it an indispensable handbook for use both in class and the workshop. Its broad coverage makes it a useful reference book for many different courses worldwide.***

***BTEC Level 2 Firsts in Sport Student Book: Second Edition has been fully revised to match the new BTEC specification for first teaching September 2013. It uses the same active, accessible approach that you know and love, but with updated content to support all the units in the specification and the new external assessment.***

*This must-have textbook provides wider reading and broad, underpinning knowledge for Level 3 students on a range of courses.*

*Automotive technicians and students need a firm grasp of science and technology in order to fully appreciate and understand how mechanisms and systems of modern vehicles work. Automotive Science and Mathematics presents the necessary principles and applications with all the examples and exercises relating directly to motor vehicle technology and repair, making it easy for automotive students and apprentices to relate the theory back to their working practice. The coverage of this book is based on the syllabus requirements of the BTEC First in Vehicle Technology, BTEC National in Vehicle Repair and Technology, and the IMI Certificate and Diploma in Vehicle Maintenance and Repair, but will help all automotive students and apprentices at levels 2 and 3 and up to and including HNC/HND, foundation and first degree with their studies and in achieving the Key Skill 'Application of Number' at levels 2 and 3. The book is designed to cater for both light and heavy vehicle courses. Full worked solutions of most exercises are available as a free download for lecturers only from <http://textbooks.elsevier.com>. Allan Bonnick is a motor vehicle education and training consultant and was formerly Head of Motor Vehicle Engineering, Eastbourne College. He is the author of several established automotive engineering textbooks.*

*Updated legislation and references to regulations where appropriate ensure that candidates and assessors have the most current information on frameworks related to the health and social care sector. Activities and case studies develop student understanding of care work in the real world.*
