Accounting for churches is not the same as accounting for businesses. A church bookkeeper must be aware of the special tax codes that govern the church's unique tax standing. But it is often hard for overworked or volunteer administrators to know every aspect of tax code that affects their church's ability to accept donations, oversee a benevolence fund, and offer a compensation package for their minister. management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: $\text{Sales} - \text{Expenses} = \text{Profit}$. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: $\text{Sales} - \text{Profit} = \text{Expenses}$. Just as the most effective weight loss strategy is to limit portions by using smaller
