

Cockatoos (Red Fox Picture Books)

This collection of essays examines English language learning in formal education contexts from pre-school to lower secondary level. Focused on an in-service teacher education project that aimed to enhance the teaching of English in a group of schools, it takes into account the perspectives of multiple stakeholders – heads of school, teachers, parents and children. Its novelty lies in the variety of themes it covers, such as the account of a vertical implementation of a Content and Language Integrated Learning (CLIL) project at three school levels, teachers' attitudes to using picturebooks in L2 settings, cultural differences in the presentation of content in textbooks, and the role of the native language assistant. "English for Young Learners" makes a valid contribution to research on a matter of crucial importance in Italian education in the 21st century, the improvement of the teaching and learning of English. It will be of interest to student teachers, educators, practitioners and researchers.

This funny and exciting Elmer adventure is sure to please children over and over again. Elmer is playing hide and seek with Bird, but it's not as easy as it looks. Children will have great fun playing along with everyone's favourite patchwork elephant in this inventive hole-in-the-page adventure.

This is not a handbook for farmers. Farmers look after chickens, cows, and pigs. Anyone can do that. This is not a handbook for zookeepers. Zookeepers look after monkeys, elephants, and lions. That's easy. This is a handbook for zoomers. Zoomers look after very special beasts.... Discover the secret of the shiger's stripy wool, the challenges of owning a loyal but gigantic dogephant, and the special skills of the super-fast horsodile in this mind-bending, creature-blending book. What wacky mixed-up animals can you imagine?

Jack and Nancy love to hear the sailors tell of adventures far away. But one day, they are walking on the cliffs and it starts to rain, so Jack puts up his umbrella. But the wind picks up and WHOOOOSH they are blown away to an exotic island! They explore for a bit, and even meet a parrot, but there are no sign of any ships to get them home. How will they get back?

Effective Intervention in the Early Years

How is academia portrayed in children's literature? This Element ambitiously surveys fictional professors in texts marketed towards children, who are overwhelmingly white and male, tending to be elderly scientists. Professors fall

into three stereotypes: the vehicle to explain scientific facts, the baffled genius, and the evil madman. By the late twentieth century, the stereotype of the male, mad, muddlehead, called Professor SomethingDumb, is formed in humorous yet pejorative fashion. This Element provides a publishing history of the role of academics in children's literature, questioning the book culture which promotes the enforcement of stereotypes regarding intellectual expertise in children's media. This title is also available, with additional material, as Open Access. Developing Language and Literacy: Effective Intervention in the Early Years describes successful intervention programmes to improve the phonological skills, vocabulary, and grammar of young children at risk of reading difficulties. Presents two structured intervention programmes to provide support for young children with language and literacy difficulties Describes clearly how to improve the language and foundation literacy skills of young children in the classroom Includes information about how to assess research, and how to monitor and design intervention strategies for use with individual children Helps teachers to develop an understanding of the intervention and research process as a whole Additional journal content to support this title is available [click here](#) Tortuga in Trouble Picture Book Index Picture-Book Professors
