

## Dinosaurologia Alla Scoperta Di Un Mondo Perduto Ediz Illustrata

When *The Dinosauria* was first published more than a decade ago, it was hailed as "the best scholarly reference work available on dinosaurs" and "an historically unparalleled compendium of information." This second, fully revised edition continues in the same vein as the first but encompasses the recent spectacular discoveries that have continued to revolutionize the field. A state-of-the-science view of current world research, the volume includes comprehensive coverage of dinosaur systematics, reproduction, and life history strategies, biogeography, taphonomy, paleoecology, thermoregulation, and extinction. Its internationally renowned authors—forty-four specialists on the various members of the Dinosauria—contribute definitive descriptions and illustrations of these magnificent Mesozoic beasts. The first section of *The Dinosauria* begins with the origin of the great clade of these fascinating reptiles, followed by separate coverage of each major dinosaur taxon, including the Mesozoic radiation of birds. The second part of the volume navigates through broad areas of interest. Here we find comprehensive documentation of dinosaur distribution through time and space, discussion of the interface between geology and biology, and the paleoecological inferences that can be made through this link. This new edition will be the benchmark reference for everyone who needs authoritative information on dinosaurs.

Children can colour their way around the world with this big and bold, poster-size colouring book.

Based on the latest scientific data and findings from Asia, South America, and the South Pole, a gripping foray into the world of the dinosaurs reveals the many types of dinosaurs that existed, from ones with feathers to ones that had claws over three feet long. 15,000 first printing.

A vibrantly illustrated official guide to everything unicorn-related, from the Magical Unicorn Society. *Dinosaur Tracks from Brazil* is the first full-length study of dinosaurs in Brazil. Some 500 dinosaur trackways from the Cretaceous period still remain in the Rio do Peixe basins of Brazil, making it one of the largest trackways in the world. Veteran paleontologists Giuseppe Leonardi and Ismar de Souza Carvalho painstakingly document and analyze each track found at 37 individual sites and at approximately 96 stratigraphic levels. Richly illustrated and containing a wealth of data, Leonardi and de Souza Carvalho brilliantly reconstruct the taxonomic groups of the dinosaurs from the area and show how they moved across the alluvial fans, meandering rivers, and shallow lakes of ancient Gondwana. *Dinosaur Tracks from Brazil* is essential reading for paleontologists.

A brilliantly funny book about what happens when you say yes, from award-winning author Simon Philip and exciting illustrator Annabel Tempest. Sometimes saying yes is a brilliant thing. You can meet new people, discover amazing things, and go on exciting adventures . . . but not always. When a gorilla named Gideon shows up at your house with lots of questions and some preeeeeetty bonkers requests, perhaps "yes" will lead to trouble, trouble, and maybe just a touch more trouble. One thing's for sure - it definitely won't be boring! From the author of *You Must Bring a Hat* (winner of the Sainsbury's CHILDREN'S BOOK OF THE YEAR AWARD 2016) and *I Don't Know What to Call My Cat*, comes a story which will have both parents and children laughing out loud! Praise for *You Must Bring a Hat*: 'This glorious cumulative story sees the requirements for entry growing ever more stringent - and the list of party-goers ever longer. It builds to a superb and wholly unexpected ending which will delight young readers. Wonderful!' *Parents in Touch*

"An all-Italian "Jurassic Park.""

A mysterious island; a terrifying weapon; an ancient prophecy brought to light... When the annual frost-dragon migration fails to happen, Dr Drake and his apprentices Daniel and Beatrice sense that something sinister is afoot – could dark dragonologist Alexandra Gorynychka be up to no good again? The trio are whisked off to the Lost Isle of Dragons, where they must face grave danger to prevent their enemy from finding the Hammer of the Dragons: a legendary weapon deadly to all dragonkind. Age-old rivalries are laid bare in this thrilling climax to the *Dragonology Chronicles*.

Just in time for Halloween! Find sundry novelties, flaps, facsimiles, and more in a haunting--or is it haunted?--volume that gives new meaning to the term ghost writer. Have you been hearing strange footsteps and knocks, whispers and rattling chains? Perhaps the early-twentieth-century author of this

newly discovered tome has some secrets to share. Within the book's weathered pages you'll hear of a headless French pirate in search of his missing noggin, a vanishing pair of young trickster twins, a ghostly woman who screams for attention, and other communications from the "fun side." Readers who wish to plumb the mysteries of the paranormal will find some hands-on challenges to lift their spirits, along with tips on a range of spectral subjects, such as what to pack in a ghostologist's field kit, how to distinguish the types of ghosts, the best ways to hunt them, and spotting the unfortunate fakes and frauds. Too bad the late author never got to see her guide find its way into the world! But wait--what are those strange and scratchy asides that appear in odd places throughout the book?

*The Secret History of Tom Trueheart*

A fictitious explorer recounts his adventures with Percy Fawcett as they traveled to South America, where they encountered dinosaurs in the rain forest.

From renowned pop-up masters Robert Sabuda and Matthew Reinhart comes an awe-inspiring tribute to the world's most beloved extinct animals and their 180-million-year reign on our planet. Open this book and a massive T. REX springs out, flashing a startling jawful of jagged teeth. Turn the next spread and a ravishing raptor unfurls and appears to fly off the edge of the page. Inside the amazing ENCYCLOPEDIA PREHISTORICA: DINOSAURS are "shield bearers" in full-body armor, creatures with frilly headgear, and weighty, long-necked giants. There are even amusing tidbits on the history of paleontology itself — like a pop-up version of a Victorian New Year's dinner in the belly of a dinosaur model, or a pair of scientists locked in a literal tug-of-war over bones. Full of fascinating facts and lighthearted good humor, this breathtaking book includes fascinating, up-to-the-minute information about popular dinosaurs as well as many lesser-known varieties. With each of six spreads featuring one spectacular, large pop-up as well as booklets of smaller pop-ups and text, ENCYCLOPEDIA PREHISTORICA: DINOSAURS is a magnificent display of paper engineering and creativity — an astonishing book that will be read, admired, and treasured forever.

Gideon Mantell — the hard-working doctor of humble birth who devotes his life to unearthing fossils around his home town of Lewes. His most famous find is a skeleton which he names Iguanodon. Facing bankruptcy and the debtors prison, he is forced to sell his 25-year-old fossil collection. After an accident leaves him in severe pain, he dies of opium overdose, not credited in his lifetime for his achievements. Richard Owen — an anatomist with ambition. Climbs to the top of the scientific establishment by claiming the work of Mantell and others as his own. Names 'dinosaurs' in a fossil report based on Mantell's findings and is asked to provide models for the Crystal Palace, which are still there. Links his findings to the Biblical story of evolution and is eventually discredited following the publication of Darwin's Origin of the Species.

YA. Adventure fiction. Fantasy fiction. Listen then, and I'll tell you again of the Battle of the Rock. But none of your usual wriggling, or I'll stop

before I've begun . . .Halli loves the old stories from when the valley was a wild and dangerous place - when the twelve legendary heroes stood together to defeat the ancient enemy, the bloodthirsty Trows. Halli longs for adventure but these days the most dangerous thing in the valley is boredom. He tries to liven things up by playing practical jokes. But when one of his jokes goes too far, he reawakens an old blood feud and finds himself on a hero's quest after all. Along the way he meets a ruthless thief, a murderous rival, and a girl who may just be as fearless as he is . Jonathan Stroud has created an epic saga with a funny, unique spin, and an unforgettable anti-hero.
