Ecommerce Evolved: The Essential Playbook To Build, Grow Scale A Successful Ecommerce Business

"In 1944, twenty-year-old Leslie Vertes escapes from a forced labour detail in Budapest and miraculously survives by assuming a false identity. About to taste freedom as the end of the war nears, his liberation is short-lived when he is caught by the new Soviet regime and sent for two years of back-breaking labour and captivity. Rebuilding his life and finding love, Leslie's security is once again threatened during the 1956 Hungarian uprising. It is not until he flees

to Canada that he finally finds true freedom"--back cover. This four-part overview of electronic commerce offers a more thorough and technical view of the subject than many recent books on the subject. The book provides a balance of theories, applications, and hands-on material. Electronic Commerce is divided into four parts: Electronic Commerce Basics, Electronic Commerce Supporting Activities, Implementation and Management Issues in Electronic Commerce, and Appendix and Glossary. The book's chapters begin with introductions of leading companies with significant e-commerce expertise and at least two small case studies. They include 10 or more hands-on exercises, encouraging readers to explore and analyze

An insightful, practical guide to e-commerce in emerging markets--and how to profit from their explosive boom. From China to India to Nigeria, e-commerce is entering a golden era in countries that were long left out of the e-commerce gold rush experienced in the West. If the story of the first twenty years of e-commerce's growth was set in developed markets, the story of the next twenty years will be set in emerging ones. The rise of e-commerce in emerging markets is being driven by three major trends: widespread internet adoption, a rising middle class, and, most importantly, innovative new business models that serve the needs of local customers better

Think about it; you (or someone you know) have probably purchased something online. By so doing, you are probably among the over 40% of internet users (over 1 billion people) who have purchased something online via mobile, desktop, tablet or other devices. If you think about it from a business perspective, this means there is a huge potential to make money if you are a seller (1 billion potential customers!) But how can you go about it? How can you get a share of the over a share of over US\$1.2 trillion that's transacted online every single year? Well, this book will show you exactly how to go about it. Whether you want to set up a C2C (customer

the design? If it's time to upgrade your website's user experience then *Designing Ecommerce Websites* is the only book to tell you exactly how to do it. It provides you with 66 guidelines on how to best use every element on each page of an ecommerce website. This book contains the results of a decade's worth of UX design experience, and several years spent consulting with a wide range of different ecommerce startups. It is based on knowledge learned from user behaviour data and running many different usability tests. It tells you what works in reality, not in theory. The book itself was born from teaching the principles in workshops for over four years. These are
