Here are cats and kittens of many different breeds in a charming collection of 25 peel-and-apply stickers delightfully illustrated in full color. Among them are Persians, Angoras, Siamese, striped, calico, and other cats in a variety of characteristic poses: sitting, lying, yawning, stalking, crouching, and playing — ready to add a touch of feline charm to a note, a letter, a lunch box, or any of your favorite things!

Follow these full-color, step-by-step photos and clear directions to create more than 40 whimsical jewelry projects plus 10 types of beads. Includes food charms, critter earrings, and fun fashion charms and beads.

The magic of Paint by Sticker Kids continues, combining the fun of coloring and stickers with the creativity of paint by number. The series just keeps growing, with another much-loved nature-themed topic: Bugs! Paint by Sticker Kids: Beautiful Bugs

Includes everything kids need to create 10 full-color illustrations of their favorite creepy-crawlies: a firefly, a praying mantis, a ladybug, butterflies, ants, a painted grasshopper, a dragonfly, beetles, a bumblebee, and a weevil. Simply find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and watch a dazzling image come to life with color and spirit in the modern “low-poly” style (using geometric polygon shapes). The card-stock pages are perforated so artwork can be

easily removed for framing or the fridge. Creating sticker art is as fun and meditative as coloring, and it's a refreshing shake-up from the usual crayons and markers. Plus, the peel-and-place system allows kids to practice recognizing and learning numbers

in an interactive, stress-free way. And it's a great rainy day or travel activity (no cleanup!) that delivers hands-on fun for less than \$10.

**How to Build a Sustainable Brand**

**Messaging With Makeup**

Bronze winner of the AXIOM Business Book Award in the category of Philanthropy, Non-Profit, Sustainability. Please see: http://www.axiomawards.com/77/award-winners/2017-winners This easy-to-read and engaging book is the perfect introduction to how to build a sustainable brand for your organization. Intended as a roadmap that can be readily applied by busy managers and practitioners, the book includes interviews with business leaders, including Paul Polman of Unilever, Adam Elman of Marks & Spencer, and Jonas Prising of ManpowerGroup to provide insight into best practice and clear guidance for implementation. Throughout, the book avoids jargon and theorizing to ensure readability. Business on a Mission is based on more than a decade working with some of the first businesses to develop social missions and shows the foundations behind their success. It looks at how businesses can profit from working hand in hand with society and identifies a model for success. The book demonstrates how businesses can go from hiding behind “social shields” to picking up “social swords” and presents the six criteria to look for in assessing a social mission. It also focuses on how good communications can build trust and bring about positive change; and it provides clear ways to engage employees and improve productivity as well as “rules” for communicating social missions externally. This optimistic book explains the benefits of partnerships in the sustainable development agenda, particularly between businesses and NGOs. The book features guidelines for avoiding dysfunctional partnerships, and presents interviews with Marc Van Ameringen, Executive Director of GAIN (Global Alliance for Improved Nutrition) 2005 to 2016, and Myriam Sidibe, Social Mission Director for Africa, Unilever, on how things can be managed to the benefit of both partners. .

This summer was supposed to be spent lounging on the beach, madly in love with my boyfriend. Until he decided to move to Singapore, and break up with me an hour before his plane left. Now I'm stuck in a Hamptons house share with six of his closest pals, including his best friend ... who despises me. Since the moment Smith Redfield laid eyes on me, he's hated my guts. I'm serious, I think the raven-haired restaurateur gets physically sick just being in my presence. And he's never been shy about hiding that fact. There was the time he cackled when I landed face first in a pile of Manhattan trash bags. Or the night I tried to throw my ex-boyfriend a surprise party, and Smith had strippers crash the bash. Or maybe it was New Year's Eve, when he got in my face and called me a sheltered goody two-shoes who wouldn't know passion if it smacked me in the lips. He's rooming right next door for the summer months, and I don't think more animosity could exist than in the hallway of our vacation rental. As if I wasn't already sporting a bruised ego and broken heart from the way his best friend left me. But the more midnight run-ins we have, the more I can't help but think about the way his mouth would feel against mine. With each heavy-eyed glance over the dinner table, I'm starting to wonder if the damaged alpha male doesn't harbor more than just loathing towards me. After all, they say hate is the closest emotion to love. And with the way we're skating that thin line, it's bound to burn this whole house down.

The essays in Object-Oriented Feminism explore OOF: a feminist intervention into recent philosophical discourses—like speculative realism, object-oriented ontology (OOO), and new materialism—that take objects, things, stuff, and matter as primary. Object-oriented feminism approaches all objects from the inside-out position of being an object too, with all of its accompanying political and ethical potentials. This volume places OOF thought in a long history of ongoing feminist work in multiple disciplines. In particular, object-oriented feminism foregrounds three significant aspects of feminist thinking in the philosophy of things: politics, engaging with histories of treating certain humans (women, people of color, and the poor) as objects; erotics, employing humor to foment unseemly entanglements between things; and ethics, refusing to make grand philosophical truth claims, instead staking a modest ethical position that arrives at being “in the right” by being “wrong.” Seeking not to define object-oriented feminism but rather to enact it, the volume is interdisciplinary in approach, with contributors from a variety of fields, including sociology, anthropology, English, art, and philosophy. Topics are frequently provocative, engaging a wide range of theorists from Heidegger and Levinas to Irigaray and Haraway, and an intriguing diverse array of objects, including the female body as fetish object in Lolita subculture; birds made queer by endocrine disruptors; and truth claims arising in material relations in indigenous fiction and film. Intentionally, each essay can be seen as an “object” in relation to others in this collection. Contributors: Irina Aristarkhova, University of Michigan; Karen Gregory, University of Edinburgh; Marina Gržinić, Slovenian Academy of Science and Arts; Frenchy Lunning, Minneapolis College of Art and Design; Timothy Morton, Rice University; Anne Pollock, Georgia Tech; Elizabeth A. Povinelli, Columbia University; R. Joshua Scannell, CUNY Graduate Center; Adam Zaretsky, VASTAL.

*Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, lololololol, mode of critique, mode of production, means of politicisation, even of subjectivation - memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of conveyance for the alt-right, the irony left, and the apolitticos alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. POST MEMES: SEIZING THE MEMES OF PRODUCTION takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens, Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon. **World life be better without alcohol? It's the nagging question more and more of us are finding harder to ignore, whether we have a “problem” with alcohol or not. After all, we yoga. We green juice. We meditate. We self-care. And yet, come the end of a long work day, the start of a weekend, an awkward social situation, we drink. One glass of wine turns into two turns into a bottle. In the face of how we care for ourselves otherwise, it’s hard to avoid how alcohol really makes us feel... terrible. How different would our lives be if we stopped drinking on autopilot? If we stopped drinking altogether? Really different, it turns out. Really better. Frank, funny, and always judgment free, Sober Curious is a bold guide to choosing to live hangover-free, from Ruby Warrington, one of the leading voices of the new sobriety movement. Drawing on research, expert interviews, and personal narrative, Sober Curious is a radical take down of the myths that keep so many of us drinking. Inspiring, timely, and blame free, Sober Curious is both conversation starter and handbook—essential reading that empowers readers to transform their relationship with alcohol, so we can lead our most fulfilling lives.**
