". . . the most comprehensive guide I have ever read for solving any conceivable trying scenario!" --Julie Jansen, bestselling author of You Want Me to Work with Who? and I Don't Know What I Want, but I Know It's Not This You can't stop office madness, but you can stop the madness from getting to you. Gossipy coworkers, unmanageable managers, and cranky clients have got you pulling your hair out and gnawing your nails down to nubs. From teammates who drop the ball on deadlines to corporate bullies who try to run your show, your work environment can be lethal to your health and your career. Change Your Reaction, Not Their Actions When things get crazy, you may not be able to control how others behave, but you can change how you respond. Al Bernstein shows you how understand the situation, how to keep the craziness from bothering you, how to keep things from getting worse, and how you can make them better. Problems/solutions discussed inside: Coworkers who don't like you? Feed them! Hidden agendas? Unleash the power of "cc:" mail! Unpleasant supervisors? Tell them only what they want to hear! Office gossip? Dish out positive gossip about other people! Lying coworkers? Buy into their lies and watch what happens! And ninety-five more!

In his international bestseller, Dinosaur Brains, psychologist Albert J. Bernstein told readers how to deal with difficult people at work. Now, in a groundbreaking new book, Bernstein tackles a more serious problem that profoundly affects the lives of millions of people: walking time bombs. How do you help a friend who explodes into panic attacks? What do you say when a depressed family member bursts into tears? How do you protect yourself when a stranger blows up in your face? Too

often, our choices make matters worse. But it isn't our fault. All that we feel, and much of what we hear directs us to defend the fearful, comfort the sad, and talk sense to the angry, regardless of the utter futility of these well-meaning actions. Moment to moment, people with mental disorders stand at the crossroads between getting better and getting worse. For disorders to heal, medicine, psychotherapy, the encouragement of friends, and the kindness of strangers must all point explosive people toward a single direction. People with anxiety disorders must turn and face their fear rather than running away Depressed people cannot wait to feel better to do the things that will make them feel better Angry people have to recognize that anger is something they do, not a reaction to what is done to them Reaching these goals sometimes requires stunning feats of mind over matter. In How to Deal with Emotionally Explosive People, Dr. Bernstein demonstrates, step by step, how to do them.

DO YOU WORK WITH VAMPIRES? LEARN HOW TO PROTECT YOURSELF! Banish the bloodsuckers from your professional life Whether it's a coworker, subordinate, or boss, there's at least one emotional vampire in every office. These people try your patience, sap your energy, and add an entirely unhealthy dynamic to workplace productivity. The bestselling author of Emotional Vampires and Dinosaur Brains shows you how to spot and deal effectively with these dysfunctional elements in the workplace: ANTISOCIALS, who crave excitement in all its forms, including aggression If your boss or a coworker is trying to push you around . . . Learn that the most important battle to fight with a bully is in your own mind. HISTRIONICS, who believe that what it looks like is more important than what it is If your boss thinks any problem can be solved with a motivational seminar . . . Learn how to get a manager wannabe to actually manage. NARCISSISTS, who believe that the universe revolves around them If your CEO makes Louis XVI look like Gandhi . . . Learn techniques that diplomats have used throughout history to teach infantile monarchs to act like grown-ups. OBSESSIVE-COMPULSIVES, who can't seem to see the forest for the trees If there is absolutely no task that your boss considers too small to micromanage . . . Learn to be a Control-Freak Whisperer by seeing your boss's fear rather than your own irritation. PARANOIDS, who think they've found the simple truths that explain everything If you work in a place where you can't get ahead unless you drink the Kool-Aid . . . Learn how to recognize a toxic belief system before it poisons you. VAMPIRE CULTURES: when vampires get promoted to positions of power, they remake organizations in their own image . . . Learn the 15 warning signs that tell you to get out before sunset. PRAISE FOR EMOTIONAL VAMPIRES: "We love so much about this book! A great complement to Dealing with People You Can't Stand, it goes beyond dealing with the merely difficult behavior to the truly pathological. Bernstein offers believable examples and useful descriptions. This is the book to recommend when the topic of truly horrible behavior comes up!" -- Dr. Rick Kirschner and Dr. Rick Brinkman, authors of the international bestseller Dealing with People You Can't Stand "This book equips individuals with the tools to identify and defend against a wide array of emotional vampires at work. It offers well-developed tactics for navigating the most difficult people in any organization." -- Katherine Crowley and Kathi Elster, bestselling authors of Working with You Is Killing Me and Mean Girls at Work "It's amazing how one manipulative, territorial, or otherwise self-serving boss or employee can make the lives of everyone around miserable. In Emotional Vampires at Work, Albert Bernstein offers concrete, step-by-step guidance to manage life around these misfits. From Silvia Moreno-Garcia, the New York Times bestselling author of *Mexican Gothic*, comes *Certain Dark Things*, a pulse-pounding neo-noir that reimagines vampire lore. Welcome to Mexico City, an oasis in a sea of vampires. Domingo, a lonely garbage-collecting street kid, is just trying to survive its heavily policed streets when a jaded vampire on the run swoops into his life. Atl, the descendant of Aztec blood drinkers, is smart, beautiful, and dangerous. Domingo is mesmerized. Atl needs to quickly escape the city, far from the rival narco-vampire clan relentlessly pursuing her. Her plan doesn't include Domingo, but little by little, Atl finds herself warming up to the scrappy young man and his undeniable charm. As the trail of corpses stretches behind her, local cops and crime bosses both start closing in. Vampires, humans, cops, and criminals collide in the dark streets of Mexico City. Do Atl and Domingo even stand a chance of making it out alive? Or will the city devour them all? Best-selling author Albert J. Bernstein helped thousands of people deal with the dangerously stupid at work in Dinosaur Brains. In Emotional Vampires he goes even further to protect unsuspecting mortals from more devious and harmful creatures vampires ready to bite, suck, and kill the emotional and psychological wellbeing of their victims. Like the fabled demons, these vampires come in many shapes: -The living dead who think their "talents" place them above the laws of nature -Lords of darkness with huge egos and tiny consciences -Scary monsters who use their tempers in the same way terrorists use bombs -Blood-suckers who think others were created for their convenience Emotional Vampires tells readers how to spot a vampire in their lives, which defense strategies to employ to prevent one from striking, and what to do if and when they find themselves under attack.

This book will help you deal with your employees and co-workers by giving you the keys to understanding the way their brains--and yours--work. Using the metaphor of the dinosaur brain, the authors detail a whole range of human responses dictated by a part of the human brain sometimes beyond our control. They then show you what to expect from that part of the brain and how to be prepared for it, including such problems as turf battles, reflexive competitiveness, and office courtship. Outlines the rules of "lizard logic," and how to use them to your advantage.

Who does not want to be healthier? Now in paperback: the book that Andrew Weil calls "offbeat, informative, and fun . . . a great read," and that has been praised as "a delightful dance through science" (New York Times bestselling author Mark Hyman, M.D.) and as a "remarkable and insightful book [that] offers you the chance to achieve the best health of your life" (Mark Liponis, M.D., Medical Director, Canyon Ranch). Written by bestselling author Gene Stone, The Secrets of People Who Never Get Sick arose from his desire to discover what might actually prevent him from getting sick himself. This book, the result of that exploration, tells the stories of twenty-five people who each possess a different secret of excellent health—a secret that makes sense and that Stone discovered has a true scientific underpinning. There are food secrets—why to take garlic and vitamin C, eat more probiotics, become a vegan, drink a tonic of brewer's yeast. Exercise secrets—the benefits of lifting weights, the power of stretching. Environmental secrets—living in a Blue Zone, understanding the value of germs. Emotional secrets—seek out and stay in touch with friends, cultivate your spirituality. Physical secrets—nap more, take cold showers in the morning. And the wisdom that goes back generations: Yes, chicken soup works. The stories make it personal, the research makes it real, and the do-it-yourself information shows how to integrate each secret into your own life, and become the next person who never gets sick.

How To Analyze People

Do you feel you lost your childhood because your parents weren't ready to emotionally take care of a child? Have you ever feel like you always have been the adult in your child-parent relationship? Did you have to deal with self centered parents who neglected your needs? All you ever wanted was parents who listen to your stories, welcome you with open arms and tell you how much they love you, no matter what you do. Instead you walked around on eggshells making sure none of your actions would upset or irritate your parents. No matter how much effort you put into getting your parents attention, you couldn't overcome the imaginary wall they built around themselves. Even if you experience anger, you suppressed this feeling or even worse, you turned the anger against yourself and blame yourself for your parents' behavior. The older you got, the more you started to suffer from the effects of your childhood. By now you are a grown-up, but you still live with the scars of your past. Some of the most common coping mechanisms are living a isolated life, suffering from anxieties or being stuck in dysfunctional and abusive relationships.
