In a rich and engaging book that illuminates the lives and attitudes of peasants in preindustrial Europe, Piero Camporesi makes the unexpected and fascinating claim that these people lived in a state of almost permanent hallucination, drugged by their very hunger or by bread adulterated with hallucinogenic herbs. The use of opiate products, administered even to infants and children, was widespread and was linked to a popular mythology in which herbalists and exorcists were important cultural figures. Through a careful reconstruction of the everyday lives of peasants, beggars, and the poor, Camporesi presents a vivid and disconcerting image of early modern Europe as a vast laboratory of dreams. "Camporesi is as much a poet as a historian. . . . His appeal is to the senses as well as to the mind. . . . Fascinating in its details and compelling in its overall message."—Vivian Nutton, Times Literary Supplement "It is not often that an academic monograph in history is also a book to fascinate the discriminating general reader. Bread of Dreams is just that."—Kenneth McNaught, Toronto Star "Not religion but bread was the opiate of the poor, Mr. Camporesi argues. . . . Food has always been a social and mythological construct that conditions what we vainly imagine to be matters of personal taste. Our hunger for such works should tell us that food is not only good but essential to think and to read as if our lives depended on it, which they do."—Betty Fussell, New York Times Book Review

Técnicas rompedoras utilizadas por los mejores chefs del mundo "El libro más importante en las artes culinarias desde Escoffier." --Tim Zagat Una revolución está en marcha en el arte de la cocina. Al igual que el impresionismo francés rompió con siglos de tradición artística, en los últimos años la cocina modernista ha franqueado los límites de las artes culinarias. Tomando prestadas técnicas de laboratorio, los chefs de santuarios gastronómicos mundialmente reconocidos, como elBulli, The Fat Duck, Alinea y wd~50, han abierto sus cocinas a la ciencia y a la innovación tecnológica incorporando estos campos de conocimiento al genio creativo de la elaboración de alimentos. En Modernist Cuisine: El arte y la ciencia de la cocina, Nathan Myhrvold, Chris Young y Maxime Bilet --científicos, creadores y reconocidos cocineros-- revelan a lo largo de estos seis volúmenes, de 2.440 páginas en total, unas técnicas culinarias que se inspiran en la ciencia y van de lo insospechado a lo sublime. Las 20 personas que componen el equipo de The Cooking Lab han conseguido nuevos y asombrosos sabores y texturas con utensilios como el baño María, los homogeneizadores y las centrifugas e ingredientes como los hidrocoloides, los emulsionantes y las enzimas. Modernist Cuisine es una obra destinada a reinventar la cocina. ¿Cómo se hace una tortilla ligera y tierna por fuera pero sabrosa y cremosa por dentro? ¿O patatas fritas esponjosas por dentro y crujientes por fuera? Imagínese poder envolver un mejillón con una esfera de gelatina de su propio jugo, dulce y salado a la vez. O preparar una mantequilla solo a base de pistachos, fina y homogénea. Modernist Cuisine explica todas estas técnicas y le guía paso a paso con ilustraciones. La ciencia y la tecnología de la gastronomía cobran vida en miles de fotografías y diagramas originales. Las técnicas fotográficas más novedosas e impresionantes permiten al lector introducirse en los alimentos para ver toda la cocina en acción, desde las fibras microscópicas de un trozo de carne hasta la sección transversal de una barbacoa Weber. La experiencia de comer y cocinar bajo una perspectiva completamente nueva. Una muestra de lo que va a descubrir: Por qué sumergir los alimentos en agua helada no detiene el proceso de cocción Cuándo cocer en agua es más rápido que al vapor Por qué subir la parrilla no reduce el calor Por qué el horneado es principalmente un proceso de secado Por qué los alimentos fritos se doran mejor y saben más si el aceite se ha utilizado previamente Cómo pueden las modernas técnicas de cocina conseguir resultados perfectos sin el tiempo exacto o la buena suerte que requieren los métodos tradicionales Incluye aspectos cruciales como: Los sorprendentes principios científicos que encierran los métodos tradicionales de preparación de los alimentos, como asar, ahumar y saltear La guía más completa publicada hasta la fecha sobre la cocina al vacío, con las mejores opciones para baños María, materiales de envasado y equipos de sellado, estrategias de cocción y consejos para solucionar problemas Más de 250 páginas sobre carnes, pescados y marisco y 130 páginas sobre frutas, verduras y cereales, incluidas cientos de recetas paramétricas y técnicas paso a paso Extensos capítulos que explican cómo obtener conseguir resultados increíbles utilizando modernos espesantes, geles, emulsiones y espumas, incluidas recetas de muestra y muchas fórmulas Más de 300 páginas de nuevas recetas con presentaciones listas para servirse en restaurantes de alta cocina, además de recetas adaptadas de grandes chefs como Grant Achatz, Ferran Adrià, Heston Blumenthal, David Chang, Wylie Dufresne y David Kinch, entre otros Volumen 1: Historia y fundamentos Volumen 2: Técnicas y equipamiento Volumen 3: Animales y plantas Volumen 4: Ingredientes y preparaciones Volumen 5: Recetas listas para servir Volumen 6: Manual de cocina, impreso en papel resistente al agua, con recetas de ejemplo y exhaustivas tablas de referencia

The Tartine Way — Not all bread is created equal The Bread Book "...the most beautiful bread book yet published..." -- The New York Times, December 7, 2010 Tartine — A bread bible for the home or professional bread-maker, this is the book! It comes from Chad Robertson, a man many consider to be the best bread baker in the United States, and co-owner of San Francisco’s Tartine Bakery. At 5 P.M., Chad Robertson’s rugged, magnificent Tartine loaves are drawn from the oven. The bread at San Francisco’s legendary Tartine Bakery sells out within an hour almost every day. Only a handful of bakers have learned the techniques Chad Robertson has developed: To Chad Robertson, bread is the foundation of a meal, the center of daily life, and each loaf tells the story of the baker who shaped it. Chad Robertson developed his unique bread over two decades of apprenticeship with the finest artisan bakers in France and the United States, as well as experimentation in his own ovens. Readers will be astonished at how elemental it is. Bread making the Tartine Way: Now it’s your turn to make this bread with your own hands. Clear instructions and hundreds of step-by-step photos put you by Chad’s side as he shows you how to make exceptional and elemental bread using just flour, water, and salt. If you liked Tartine All Day by Elisabeth Prueitt and Flour Water Salt Yeast by Ken Forkish, you’ll love Tartine Bread!

A groundbreaking handbook—the “method” companion to its critically acclaimed predecessor, The Flavor Thesaurus--with a foreword by Yotam Ottolenghi. Niki Segnit used to follow recipes to the letter, even when she’d made a dish a dozen times. But as she tested the combinations that informed The Flavor Thesaurus, she detected the basic rubrics that underpinned most recipes. Lateral Cooking offers these formulas, which, once readers are familiar with them, will prove infinitely adaptable. The book is divided into twelve chapters, each covering a basic culinary category, such as "Bread," "Stock, Soup & Stew," or "Sauce." The recipes in each chapter are arranged on a continuum, passing from one to another with just a tweak or two to the method or ingredients. Once you've got the hang of flatbreads, for instance, then its neighboring dishes (crackers, soda bread, scones) will involve the easiest and most intuitive adjustments. The result is greater creativity in the kitchen: Lateral Cooking encourages improvisation, resourcefulness, and, ultimately, the knowledge and confidence to cook by heart. Lateral Cooking is a practical book, but, like The Flavor Thesaurus, it's also a highly enjoyable read, drawing widely on culinary science, history, ideas from professional kitchens, observations by renowned food writers, and Segnit's personal recollections. Entertaining, opinionated, and inspirational, with a handsome three-color design, Lateral Cooking will have you torn between donning your apron and settling back in a comfortable chair.

From the authors of the Artisan Bread in Five Minutes a Day series comes a holiday and celebration cookbook that uses the same groundbreaking quick and easy baking method. Zoë François and Jeff Hertzberg shocked the baking world when they proved that homemade yeast dough could be stored in the refrigerator to use whenever you need it. Now, they ’ ve done it again with Holiday and Celebration Bread in Five Minutes a Day, a cookbook with savory, sweet, healthy, and decadent recipes for every occasion. Every culture has its great bread traditions for holidays and celebrations—traditional Christmas loaves from Ukraine, Greece, Germany, Italy and Scandinavia; celebration breads from France and Israel; Easter breads from the United Kingdom, Sweden, and Austria to name a few. The book is chock-full of fragrant, yeasted treats made for celebrations and special occasions. All the old standbys are here, plus delicious examples from around the world. All were too time-consuming and painstaking to make at home—until now. In 100 clear and concise recipes that build on the successful formula of their bestselling series, Holiday and Celebration Bread will adapt their ingenious approach for high-moisture stored dough to a collection of breads from the four corners of the globe. This beautiful cookbook has color photos of every bread and includes step-by-step collages. With Zoë and Jeff ’ s help, you ’ ll be creating breads that rival those of the finest bakeries in the world—with just five minutes a day of active preparation time.

To build a good house, it must first have a solid foundation! The same principles apply when making laminated pastry products. My book The Art of Lamination is built on a solid knowledge of understanding the recipes, methods, processes and ingredients required to make the finest laminated viennoiserie possible. This book is the culmination of seven years of research, in particular, it was my chosen subject during my masters degree studies. As an international competitor, lecturer, businessman and international jury member, I have witnessed the work of exceptional craftsmen and carefully documented procedures and practices. In my business, I was able to try the latest cutting edge techniques and sell beautiful products to my customers. In my role as a lecturer at TU Dublin, I generated much new class content and took note of the most common problems encountered by students in pastry making and also the questions asked by my students. I identified and documented all the stages of production of laminated pastry and engaged in problem solving for students and bakers during my masterclasses in foreign countries. The result is a clearly explained road map, how to plan and execute perfect pastry. I explain some of the basic lamination systems used in industry with a modern twist, and take the reader through a step by step approach on how to become proficient at making laminated viennoiserie. In my capacity as a jury member at the world championships I have witnessed as close to perfection as is possible to make beautiful products. Many of the more advanced products in the book have been inspired directly by my observations over the past 25 years of competitive baking at the cutting edge of creativity. This book will serve as an essential guide for students, bakers, pastry chefs, home bakers and hobbyists. I include detailed process notes for both commercial bakers using mechanical sheeters and home bakers and students, who want to make laminated pastry at home. I have stripped down the procedures of laminated pastry production to the very basics, building on that knowledge and adding more advanced levels throughout the book. I hope my book will both educate and inspire you, the readers now, and in your future baking.

Massimo Bottura, the world’s best chef, prepares extraordinary meals from ordinary and sometimes 'wasted' ingredients inspiring home chefs to eat well while living well. 'These dishes could change the way we feed the world, because they can be cooked by anyone, anywhere, on any budget. To feed the planet, first you have to fight the waste', Massimo Bottura Bread is Gold is the first book to take a holistic look at the subject of food waste, presenting recipes for three-course meals from 45 of the world’s top chefs, including Daniel Humm, Mario Batali, René Redzepi, Alain Ducasse, Joan Roca, Enrique Olvera, Ferran & Albert Adrià and Virgilio Martínez. These recipes, which number more than 150, turn everyday ingredients into inspiring dishes that are delicious, economical, and easy to make.

Sourdough is a traditional style of bread that is both healthy and delicious, making it a favourite with artisan bakers. The unique tastes and texture of sourdough takes patience, forethought and love to create, and its rise in popularity is indicative of a greater shift towards a more mindful, considered way of living. Sourdough brings you all you need to know about baking the bread at home and includes 15 extensive and clear step-by-step recipes using a variety of grains. From making your own starter yeast to how to use different flours, Norwegian bakers Casper and Martin’s approach is basic and rustic, just like sourdough itself.

Renowned for recipes that make food look gorgeous and taste great yet require minimal effort, Donna Hay’s cookbooks have become international successes. "Modern Classics" is no different. Chapters, including soups, salads, pastas, and pies, begin with a "basic" recipe. Step-by-step photos allow cooks to create increasingly sophisticated variations from this starter recipe.

'Master the art of sourdough with Vanessa and you will learn how to look after your own gut microbes and health.' - Tim Spector, author of The Diet Myth At her renowned Sourdough School, Vanessa has taught countless students the secrets of this healthy, more easily digestible bread, and now she has compiled her teachings for the home baker. From creating your own starter from scratch, you'll then move on to basic breadmaking techniques, before progressing to using sprouted grains and experimenting with flavours to produce Fig and Earl Grey and Cherry Plum loaves. With step-by-step photography, detailed instructions, specialist advice and Vanessa’s indispensable encouragement, The Sourdough School celebrates the timeless craft of artisan baking.

Le fregature peggiori nel mondo della ristorazione derivano da una manipolazione del cliente che avviene ancor prima che questo entri in un locale: marketing di bassa lega, giornalismo d'acatto, luoghi comuni e frasi fatte ti portano fuori strada senza che te ne accorgi. Se vuoi liberarti dalle false credenze dell'ambiente, proviamo a smontare assieme, pezzo per pezzo, le sette grandi bugie del settore più diffuse con cui ci manipolano a tavola. Il marketing si occupa di studiare la psicologia della vendita, e non c'è niente di male in questo, ma c'è tanta differenza fra persuadere e manipolare, e qui ne parleremo diffusamente. "Se gestisci una pizzeria o una attività nel food o se, semplicemente, sei un amante di uno dei prodotti culinari italiani più famoso al mondo, allora questo libro si trova nelle mani giuste". Holiday and Celebration Bread in Five Minutes a Day

- Ninety-four delicious recipes for Italy’s answer to fast food - Chef Alessandro Frassica emphasizes the use of fresh ingredients in imaginative combinations What could be more simple than a pan'ino? Take some bread and butter, slice it through the middle and fill it. Seen in this way, the sandwich is almost an "anti-cuisine", a nomadic shortcut that allows for speed and little thought. But when Alessandro Frassica thinks about his pan'ino, he considers it in a different way, not as a shortcut, but as an instrument for telling stories, creating layers of tales right there between the bread and its butter. Because even if the sandwich is simple, it is not necessarily so easy to create. Alessandro searches for ingredients, and in the raw foods he finds people: producers of pecorino cheese from Benevento, anchovies from Cetara, 'nduja spicy salami from Calabria. Then he studies the combinations, the consistencies and the temperature, because a pan'ino is not just a random object; savoury must be complemented by sweet; tapenade softens and provides moisture; bread should be warmed but not dried; thus the sandwich becomes a simple way of saying many excellent things, including finding a complexity of flavours that can thrill in just one bite.

One day you find out you have to adopt a gluten-free diet – or someone in your life does. So, you wonder: What’s gluten? Where is it found and how do I avoid it? How do I make gluten-free bread, rolls, pizza, cakes, crepes, muffins and pastries at home? What ingredients can I use? Is gluten-free bread just as nutritious as normal bread? Should I use commercial bread mixes, or is it better to make my own? Why? The authors of Gluten-Free Bread had these same questions on their minds. This book is their answer. The book has two parts. In part one, they address gluten in the diet, where it’s found, how to avoid it and above all, some alternative products and their properties. They identify and analyze nutritional facts of ingredients (types of flours, additives, yeasts and rising agents) that make gluten-free bread and pastries. They also look at how these ingredients affect the final product, how they can be combined and in what proportions. The second part focuses on the kitchen: they present techniques and tricks for gluten-free cooking, and 15 recipes for gluten-free breads, pizzas, crepes, savory tarts, cakes, muffins (cupcakes) and pastries. They offer alternatives for each recipe, including processes, tools (bread maker, mixer, kneading by hand) and types of flour that you can use to create your own variations.

Sourdough Panettone and Viennoiserie**

When Bread was first published in 2004, it received the Julia Child Award for best First Book from the International Association of Culinary Professionals and became an instant classic. Hailed as a "masterwork of bread baking literature," Jeffrey Hamelman's Bread features over 130 detailed, step-by-step formulas for dozens of versatile rye- and wheat-based sourdough breads, numerous breads made with yeasted pre-ferments, simple straight dough loaves, and dozens of variations. In addition, an International Contributors section is included, which highlights unique specialties by esteemed bakers from five continents. In this third edition of Bread, professional bakers, home bakers, and baking students will discover a diverse collection of flavors, tastes, and textures, hundreds of drawings that vividly illustrate techniques, and evocative photographs of finished and decorative breads.

In questo libro non troverai una ricetta infallibile od un trucco segreto per rimanere incinta, semplicemente perché non esistono. Scoprirai invece tutto quello che è necessario ed utile conoscere per aumentare il più possibile la probabilità di concepimento, fino all'80% già nel primo mese: individuare i giorni più fertili, ogni quanto avere rapporti, aumentare la tua fecondità con la dieta ed affrontare le difficoltà dovute alla sindrome dell'ovaio policistico. Senza la pretesa o la presunzione di voler sostituire ginecologi e ostetriche, ma solo con il sincero desiderio di fare quello che ai farmacisti riesce meglio: ascoltare con pazienza, consigliare con umanità ed empatia, gioire dei successi e consolare nelle difficoltà. Roberto Gindro, laureato in Farmacia con lode e Dottore di Ricerca, si occupa dal 2007 di fertilità sul portale FarmacoeCura.it, oggi healthy.thewom.it. Questa seconda edizione non sarebbe stata possibile senza il fondamentale contributo della Dr.ssa Sonja Bellomi (Laurea in CTF, PhD), Dr.ssa Valentina Bruno (Psicologa) e Dr.ssa Mariangela Caporusso (Medico Chirurgo).

Terrine presents a selection of recipes that bring together St é phane Reynaud's passion for rural French cooking and his enthusiasm for modern cuisine. the book offers some well-loved favourites as well as some more surprising dishes that reflect contemporary tastes. Illustrated with beautiful photographs and providing a broad range of recipes, from meat to fish and vegetables, and even desserts.

Named one of the Best Cookbooks of the Year by Food & Wine, The Boston Globe, The Los Angeles Times, The New York Times, The San Francisco Chronicle, USA Today, The Washington Post, and more Israeli baking encompasses the influences of so many regions—Morocco, Yemen, Germany, and Georgia, to name a few—and master baker Uri Scheft seamlessly marries all of these in his incredible baked goods at his Breads Bakery in New York City and Lehamim Bakery in Tel Aviv. Nutella-filled babkas, potato and shakshuka focaccia, and chocolate rugelach are pulled out of the ovens several times an hour for waiting crowds. In Breaking Breads, Scheft takes the combined influences of his Scandinavian heritage, his European pastry training, and his Israeli and New York City homes to provide sweet and savory baking recipes that cover European, Israeli, and Middle Eastern favorites. Scheft sheds new light on classics like challah, babka, and ciabatta—and provides his creative twists on them as well, showing how bakers can do the same at home—and introduces his take on Middle Eastern daily breads like kubaneh and jachnun. The instructions are detailed and the photos explanatory so that anyone can make Scheft ' s Poppy Seed Hamantaschen, Cheese Bourekas, and Jerusalem Bagels, among other recipes. With several key dough recipes and hundreds of Israeli-, Middle Eastern-, Eastern European-, Scandinavian-, and Mediterranean-influenced recipes, this is truly a global baking bible.
