## **A History**

Since 1866 the Ku Klux Klan has been a significant force in Mississippi, enduring repeated cycles of expansion and decline. Klansmen have rallied, marched, elected civic leaders, infiltrated law enforcement, and committed crimes ranging from petty vandalism to assassination and mass murder. This is the definitive history of the KKK in Mississippi, long recognized as one of the group's most militant and violent realms. The campaigns of terrorism by the Klan, its involvement in politics and religion, and its role as a social movement for marginalized poor whites are fully explored. From humble beginnings in Middlesex, where money was scarce but dreams were encouraged, to the award-winning godfather of electronica, Gary Numan has seen it all. His incredible story can be charted in two distinct parts . . . The first: a stratospheric rise to success quickly followed by a painful decline into near obscurity. At school, Gary fell through the cracks of the system and was expelled. An unlikely but determined popstar, he earned his first record deal aged nineteen and, two years later, had released four bestselling albums and had twice toured the world. But, aged just twenty-five, it felt like it was all over. Gary's early success began to hold him back and he battled to reconcile the transient nature of fame with his Asperger's syndrome. The second: a twenty-plus year renaissance catalysed by a date with a super-fan. Gary catalogues his fifteen-year struggle with crippling debts, his slow, obstacle-laden journey back to the top (and the insecurity that comes with that) and why Savage reaching #2 in 2017 meant more than the heady heights of 1979. Gary also candidly discusses the importance of his fans; why having Asperger's is a gift at times; the inspiration behind the lyrics; flying around the world in 1981; IVF struggles and the joy of fatherhood and his battle with depression and anxiety. (R)evolution is the rollercoaster rise and fall (and rise) of one man, several dozen synthesisers, multiple issues and two desperately different lives. By turns hilarious and deeply moving, this is Gary Numan in his own words - a brutally honest reflection on the man behind the music.

It has been used to inspire two hit films and an internationally successful ballet. To this day, they were, their fans believe, the best band in the world. Critics and sales figures told a similar story. Yet for all brilliance and adoration – their famously energetic live shows routinely interrupted by stage invasions – The Smiths were con- plagued by their reticence to play the game, and by the time of 1987's *Strangeways Here We Come*, they had split. Tony Flet- Light That Never Goes Out – part celebration, part paeon – moves from Manchester in the nineteenth-century to the present the complete story of The Smiths. The product of extensive research and unprecedented access, it will serve to confirm The one of the most important and influential rock groups of all time.

As we approach the fiftieth anniversary of *Brown v. Board of Education* (1954), it is important to consider the historical stru- led to this groundbreaking decision. Four years earlier in Texas, the *Sweatt v. Painter* decision allowed blacks access to the U- of Texas's law school for the first time. Amilcar Shabazz shows that the development of black higher education in Texas--whi- historically had one of the largest state college and university systems in the South--played a pivotal role in the challenge to education. Shabazz begins with the creation of the Texas University Movement in the 1880s to lobby for equal access to the graduate and professional education through a first-class university for African Americans. He traces the philosophical, legal, grassroots components of the later campaign to open all Texas colleges and universities to black students, showing the com- strategies and the diversity of ideology and methodology on the part of black activists and intellectuals working to promote equality. Shabazz credits the efforts of blacks who fought for change by demanding better resources for segregated black co- years before *Brown*, showing how crucial groundwork for nationwide desegregation was laid in the state of Texas.

"UDC members aspired to transform military defeat into a political and cultural victory, in which states' rights and white supremacy remained intact. To the extent they were successful, the Daughters helped to preserve and perpetuate an agenda for the New South that included maintaining the social status quo. Placing the organization's activities in the context of the postwar and Progressive eras, Cox describes in detail the UDC's origins and early development, its efforts to collect and preserve manuscripts and artifacts, monuments, and its later role in the peace movement and World War I."--BOOK JACKET.

\*\*\* 'Lots of great stories... A fascinating insight.' -JOHN MAHER, Buzzcocks 'Perfectly executed, highly detailed, incredibly interesting.' -HENRY ROLLINS, Black Flag 'Pete and Buzzcocks were there right from the beginning.' -BERNARD SUMNER, Joy Division, New Order When Pete Shelley, lead singer of legendary punk band Buzzcocks, passed away in 2018 we lost the chance to hear one of our brightest stars tell his story. Or so it seemed. Now, recordings have surfaced of a series of remarkable interviews in which Pete tells of his life, his band and his place at the beating heart of the punk explosion in fascinating detail. Recorded over a series of late nights with a close friend, the tapes hear Pete talk song-by-song through Buzzcocks releases to reveal the personal memories behind the inspiration for masterpieces such as 'Ever Fallen in Love (With Someone You Shouldn't've)' and 'What Do I Get?'. *Preeminent psychologist Lisa Barrett lays out how the brain constructs emotions in a way that could revolutionize*

psychology, health care, the legal system, and our understanding of the human mind. "Fascinating . . . A thought-provoking journey into emotion science."—*The Wall Street Journal* "A singular book, remarkable for the freshness of its ideas and the boldness and clarity with which they are presented."—*Scientific American* "A brilliant and original book on the science of emotion, by the deepest thinker about this topic since Darwin."—Daniel Gilbert, best-selling author of *Stumbling on Happiness* The science of emotion is in the midst of a revolution on par with the discovery of relativity in physics and natural selection in biology. Leading the charge is psychologist and neuroscientist Lisa Feldman Barrett, whose research overturns the long-standing belief that emotions are automatic, universal, and hardwired in different brain regions. Instead, Barrett shows, we construct each instance of emotion through a unique interplay of brain, body, and culture. A lucid report from the cutting edge of emotion science, *How Emotions Are Made* reveals the profound real-world consequences of this breakthrough for everything from neuroscience and medicine to the legal system and even national security, laying bare the immense implications of our latest and most intimate scientific revolution.

By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize Selected by *Time* as One of the Ten Best Books of the Year | A New York Times Notable Book | Named One of the Best Books of the Year by *The Washington Post Book World*, *The Christian Science Monitor*, *Rocky Mountain News*, and *Kirkus Reviews* | A Los Angeles Times Book Prize Finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. *Black Swan Green* tracks a single year in what is, for thirteen-year-old Jason Taylor, the sleepest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of "nightcreeping" through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigré who is both more and less than she appears; of Jason's search to replace his dead grandfather's irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher's recession; of Gypsies camping in the woods and the hysteria they inspire; and, even closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, *Black Swan Green* is David Mitchell's subtlest and most effective achievement to date. Praise for *Black Swan Green* "[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages of a novel. . . . The always fresh and brilliant writing will carry readers back to their own childhoods. . . . This enchanting novel makes us remember exactly what it was like."—*The Boston Globe* "[David Mitchell is a] prodigiously daring and imaginative young writer. . . . As in the works of Thomas Pynchon and Herman Melville, one feels the roof of the narrative lifted off and oneself in thrall."—*Time*

Sex, God, politics and other trivia, like science and business, get skewered in this selection of Gary Suttons published rants. But somehow this curmudgeon dotes on relatives. One column helped a judge decide to overturn a jury verdict. Another caused a CIA operative to show up on his doorstep. Death threats and nasty letters to editors followed several pieces. Whether in the NY Times or Math World, The Wall Street Journal or the La Jolla Light, Suttons thoughts always seem to provoke. Funny, Outrageous. Never even close to conventional. In today's tumultuous business environment, managers want guidance in the form of a timely theme, a unique and memorable metaphor, and outside-the-box thinking. That's precisely what Corporate Canaries delivers. The book features five core chapters revealing five common business hazards, and each lesson is accompanied by a story based on the author's grandfather's work in the coal industry, as well as an applicable "canary warning" for each theme.

*Ducktown Smoke*

From the author of the critically acclaimed Elvis Presley biography: Last Train to Memphis brings us the life of Sam Phillips, the visionary genius who singlehandedly steered the revolutionary path of Sun Records. The music that he shaped in his tiny Memphis studio with artists as diverse as Elvis Presley, Ike Turner, Howlin' Wolf, Jerry Lee Lewis, and Johnny Cash, introduced a sound that had never been heard before. He brought forth a singular mix of black and white voices passionately proclaiming the vitality of the American vernacular tradition while at the same time declaring, once and for all, a new, integrated musical day. With extensive interviews and firsthand personal observations extending over a 25-year period with Phillips, along with wide-ranging interviews with nearly all the legendary Sun Records artists, Guralnick gives us an ardent, unrestrained portrait of an American original as compelling in his own right as Mark Twain, Walt Whitman, or Thomas Edison.

The evangelical embrace of conservatism is a familiar feature of the contemporary political landscape. What's less well known, however, is that the connection predates the Reagan revolution, going all the way back to the Depression and World War II. Evangelical businessmen at the time were quite active in opposing the New Deal—on both theological and economic grounds. Doing so claimed a place alongside other conservatives in the public sphere. Like previous generations of devout laymen, they consciously merged their religious and business lives, financing and organizing evangelical causes with the kind of pragmatism that they practiced in the boardroom. In *God's Businessmen*, Sarah Ruth Hammond explores not only the personal trajectories but also those of the service clubs and other institutions that, like them, believed that business was an instrument for the Christianization of the world. Hammond presents a capacious portrait of the relationship between the business community and the New Deal—and in doing so makes important contributions to American religious history, business history, and the history of the American state.
