

Ghost In The Ashes (The Ghosts Book 7)

At the close of the nineteenth century, Chicago offered the world a glimpse of humanity's most breathtaking possibilities and its most jaw-dropping horrors. Even as the White City emerged from the ashes of the Great Fire, serial killers like H.H. Holmes stalked the sparking new boulevards and tragic accidents plagued the factories, slums and railroads that powered the churn of industrial innovation. Demons, mesmerists and birds of ill omen preyed on the unwary from the shadows. Ship captains spoke to the dead, while undertakers discovered reanimated corpses no longer requiring services. From posh mansions built on massacre grounds to the drowned quarries of a forest preserve, Ursula Bielski follows the dark undercurrents beneath the electric lights of the World's Fair.

Have you ever heard weird, unexplainable sounds in the night in your house, while everyone else is asleep? Do you believe those sounds were made by ghosts? Or maybe you don't believe in ghosts. If not, how do you explain those strange noises—or were they just a figment of your imagination? Deedra Pope, a quiet, sensitive, bespectacled twelve-year-old, wanted to be taken more seriously about what she saw and heard in and around the house her family had moved into three years ago. It was hard to convince them that a ghost crept into the house every night while they were all asleep. Mrs. Pope felt these ghost stories were just a figment of her daughter's vivid imagination, especially since she had a special gift for creating stories and writing poetry. Her father was always too tired to care, and her siblings didn't want to hear about such spooky things. After three years of a series of frightful events, Deedra was finally able to persuade her family to become believers. In fact, they waited until it was almost too late. Only Deedra can tell the story the way it really unfolded. . .

Welcome to the Prospero Keys (or as the locals call them: the Ghost Keys), the beautiful chain of tropical islands on the edge of the Bermuda Triangle where Rain Cacique lives. When Rain's maternal grandfather passed away, he left her his special armband: two gold snakes intertwined, clasping each other's tails in their mouths. Rain soon discovers that the armband is actually a zemi - a very powerful talisman created by the island's native Arawak Taino Indians - and that it allows Rain to see ghosts, including her own grandfather who is determined to help her uncover the Ghost Keys' hidden world of mystery and mysticism, intrigue and adventure. Now, Rain Cacique's looking for a few answers - and the second zemi, a Taino relic that allows her to see dead people. But it's the first week of school, so she's pretty busy juggling teachers, homework, baby-sitting duties, new friends, missing tourist kids... and a vampire with a tribal twist. Spirits of Ash and Foam is the second installment in Greg Weisman's Rain of the Ghosts series.

It is not possible to read Heidegger's text without the image of his arm raised in the Nazi salute haunting him. The image compels us to examine Heidegger's philosophy in terms of its susceptibility to Nazi ideology; Heidegger's philosophy was inscribed at the end of the history of philosophy, a time when Nazism was on the rise and on its way to the renewal of German destiny. In paragraph six of Being and Time Heidegger outlined his agenda for the renewal of philosophy. The renewal necessitated the destruction of the errant history of ontology in order to retrieve the pure primordial experiences. The parallels between the forms of two agendas are coincidental. However, my work shows where they overlapped. I explore the consequence of this overlap by soliciting the "first" text of philosophy, The Anaximander Fragment, that speaks about justice and injustice. Justice is also at issue in the text of Jacques Derrida. Derrida's primary resource is paragraph six of Heidegger's Being and Time, a fact that caused some of his readers to assimilate him to Heidegger. Derrida had tried to distance himself from Heidegger and in a late text he has offered us the prescriptive phrase, "Deconstruction is justice," to guide our reading of his text. The phrase invites us to examine Derrida's work in light of its saying. This is what I try to do. I show that a separation cannot be accomplished without a price, because whether an author intends it or not, justice is something ghostly and it keeps its own account. Heidegger's arm and Derrida's hand caught in the trap of paragraph six tell another story, different from the stories the authors tell. The limbs tell the story about the ghosts of justice.

trailerable sailboat is the ideal way to explore the country ? wherever there is water. To make the most of this exciting lifestyle, owners of trailerable sailboats need three things ? an understanding of the boat and how to use it; knowledge about the tow vehicle and trailer used to transport the boat; and a spirited sense of adventure to live the dream. #13;#13; This book will help you get started. #13;#13; #13; An unsentimental vision of the west, new and old, comes to life in a gritty new collection of stories by the author of Snow, Ashes In Ghosts of Wyoming, Alyson Hagy explores the hardscrabble lives and terrain of America's least-populous state. Beyond the tourist destinations of Jackson Hole and Yellowstone lies a less familiar and wilder frontier defined by the tension wrought by abundance and scarcity. A young runaway with a big secret slips across the state border and steals a collie pup from the Meeker County fairgrounds. A chorus of trainmen details a day spent laying rail across the Wyoming Territory, while contemporary voices describe life in the oil and gas fields near Gillette. A traveling preacher is caught up in a deadly skirmish between cattle rustlers and ranchers on his way from Rawlins to the Indian reservation on the Popo Agie River. Locals and activists clash when a tourist makes an archaeological discovery near Hoodoo Mountain. With spirited, lyrical prose, Hagy expertly weaves together Wyoming's colorful pioneer and speculator history with the notoften- heard voices of petroleum workers, thrill-seeking rock climbers, and those left behind by the latest boom and bust.

Ghosts and Goosebumps is a rich collection of folktales and superstitions that capture the oral traditions of central and southeastern Alabama. In its pages one can glimpse the long-lost horse-and-buggy times, when people sat up all night with the dead and dying, hoed and handpicked cotton, drew water from wells, and met the Devil rather regularly. The book is divided into three parts--tales, superstitions, and slave narratives. The spirits of treasure-keepers, poltergeists, murderers and the murdered, wicked men and good-men-and-true float through the book's first section. Sue Peacock, for example, recalls seeing the ghost of her brother, and E.C. Nevin describes a mysterious light in a swamp. In other tales, reports of supernatural experiences are proved to be rationally explicable--Lee Wilson's devil in the cemetery turns out to be a cow and chains rattling near New Tabernacle Church in Coffee County belong not to specters but to hogs. The superstitions are arranged according to subject and include such topics as love and marriage, weather and the seasons, wish making, bad luck, signs, and portents. Anonymous tellers confide that it is bad luck to carry ashes out after dark, to let a locust holler in your hand, to rock an empty rocking chair, to let your fishing pole cross someone else's, or to have a two-dollar bill (unless one corner has been removed). The slave narratives, selected from the Works Progress Administration Folklore Collection, are substantial and yield a fascinating view of nineteenth century African-American folk life, replete with sillies and lazy men, preachers and witches, brave little boys, and reluctant bridegrooms. Although the times and places have changed, the spirit of the folk is unaltered. Taken together, these folktales are marvelously diverse--by turns fearsome, fantastical, witty, ribald, charmingly innocent--showing people from all backgrounds, their endless vices and occasional virtues, their hopes, fears, and loves.
