

## Great Debates In Land Law (Palgrave Great Debates In Law)

Land Law: Text, Cases, and Materials offers a comprehensive, critical, and case-focused approach to the subject, combining insightful author commentary with carefully selected extracts to fully support students.

Chronicles the 1850s appeals of Western territories to join the Union as slave or free states, profiling period balances in the Senate, Henry Clay's attempts at compromise, and the border crisis between New Mexico and Texas.

This textbook is an engaging introduction to the more advanced writings on contract law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. This edition has been extensively rewritten to include new cases and scholarship throughout. New sections include 'no oral modification' clauses, substantive fairness, regulation of standard-form contracts, and remoteness of damage in contract. An excellent book for students of contract law who wish to know more, the aim of the book is not to present a complete

overview of theoretical issues in contract law, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. New to this Edition: - Extensively rewritten to include new cases and scholarship throughout. - New sections and debates include 'no oral modification' clauses, substantive fairness, regulation of standard-form contracts, and remoteness of damage in contract.

The Great Debate

Great Debates in Contract Law

Great Debates in Family Law

Great Debates in Land Law

This textbook is an ambitious and engaging introduction to the more advanced writings on employment law, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in employment law, but rather to

illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. This textbook is an ambitious and engaging introduction to the more advanced writings on equity and trusts, primarily designed to allow students to 'get under the skin' of the topic and begin to build their critical thinking and analysis skills. Each chapter is structured around key questions and debates that provoke deeper thought and, ultimately, a

clearer understanding. The aim of the book is therefore not to present a complete overview of theoretical issues in equity and trusts, but rather to illustrate the current debates which are currently going on among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading.

The Land We Share

America's Great Debate

Great Debates in American History: Colonial rights; the revolution; the Constitution

Squatting and the State

Great Debates in Employment Law

The core principles of land law are articulated clearly in this new textbook, providing a framework through which students can gain a sophisticated understanding of the modern land law system. Emma Lees' expertise in research and teaching ensures all topics are thoroughly explained in a friendly and accessible style. The textbook uses a unique structure: "Chapter Goals" outline the key learning objectives while the core "Principles" are summarised to conclude each chapter with a comprehensive overview of the topic at hand. Key cases are explained while examples illustrate problems and

possible solutions. Students understand how to accurately apply the core principles to land law scenarios, while also conducting their own critical analysis of the subject area. The author's enthusiasm is imbued in the writing style; students actively engage with the key debates and at the same time develop an appreciation of the subject as a whole. A comprehensive interpretation of this subject, *The Principles of Land Law* is the ideal companion to a course in land law. Online resources  
Bimonthly updates on recent law changes.

Academically rigorous yet welcoming and fully attuned to the needs of the student reader, Chris Bevan's *Land Law* represents a new breed of textbook, blending traditional and contemporary teaching approaches to guide readers to a confident understanding of the subject. With its lively, engaging writing style - in which the author's enthusiasm is always apparent - and distinctive way of speaking directly to students, anticipating their questions and areas of confusion, Bevan's book does not simply set out the law but actively teaches it. Clear explanations are complemented by carefully-crafted visual aids, conveying key concepts in ways that all students can understand, and topics are broken down into sections that are easy to digest. This book maintains a critical emphasis and encourages students to consider and understand the law in context (both within society and their degree). 'Key case' boxes offer concise insights on leading cases that pique students' interest, spurring them to conduct their own reading of primary material, and although the book reflects on historical

background in order to make sense of today's law, its overriding perspective is forward looking, epitomized in the 'Future directions' conclusions for each chapter which consider future implications and likely reforms. Balancing brevity with detail and rigour with accessibility, Land Law is a truly modern textbook that supports and motivates its readers, allowing them to reap the rewards an understanding of this complex but fascinating subject will bring. Digital formats and resources The third edition is available for students and institutions to purchase in a variety of formats, and is supported by online resources. The e-book offers a mobile experience and convenient access along with self-assessment activities, videos, podcasts, animated flowcharts, example legal documentation and links that offer extra learning support:

[www.oxfordtextbooks.co.uk/ebooks](http://www.oxfordtextbooks.co.uk/ebooks) A comprehensive suite of additional resources to support the book are available online for all readers at [www.oup.com/uk/ebooks/9780191009094/](http://www.oup.com/uk/ebooks/9780191009094/), including:

- Self-test and scenario questions with feedback
- Videos from the author
- Animated flowcharts explaining cases and legislation
- Podcasts from the author
- Annotated examples of legal documents
- Visual land law scenarios with prompts and guidance
- Exclusive interviews between the author and lawyers on real-life cases
- Downloadable figures from the book
- Flashcard glossary

Explores the limits of law in changing unequal land relations in Kenya.

Great Debates in American History: The civil war; with an introduction by H. Watterson  
The Principles of Land Law

Legal and Policy Issues for the Property Tax in the United States

*Text of the speeches from "Political debates between Lincoln and Douglas," Columbus, Ohio, 1860, with connecting narrative by the editor, and much illustrative material from contemporary newspapers, etc.*

*Is private ownership an inviolate right that individuals can wield as they see fit? Or is it better understood in more collective terms, as an institution that communities reshape over time to promote evolving goals? What should it mean to be a private landowner in an age of sprawling growth and declining biological diversity? These provocative questions lie at the heart of this perceptive and wide-ranging new book by legal scholar and conservationist Eric Freyfogle. Bringing together insights from history, law, philosophy, and ecology, Freyfogle undertakes a fascinating inquiry into the ownership of nature, leading us behind publicized and contentious disputes over open-space regulation, wetlands protection, and wildlife habitat to reveal the foundations of and changing ideas about private*

*ownership in America. Drawing upon ideas from Thomas Jefferson, Henry George, and Aldo Leopold and interweaving engaging accounts of actual disputes over land-use issues, Freyfogle develops a powerful vision of what private ownership in America could mean—an ownership system, fair to owners and taxpayers alike, that fosters healthy land and healthy economies.*

*In A Good Tax, tax expert Joan Youngman skillfully considers how to improve the operation of the property tax and supply the information that is often missing in public debate. She analyzes the legal, administrative, and political challenges to the property tax in the United States and offers recommendations for its improvement. The book is accessibly written for policy analysts and public officials who are dealing with specific property tax issues and for those concerned with property tax issues in general.*

*Great Debates on the European Convention on Human Rights*

*The Lincoln–Douglas Debates of 1858*

*Resilient Property in an Age of Crisis*

*Great Debates in Property Law*

*Great Debates in Medical Law and Ethics*

***This textbook is an introduction to more advanced writings on criminal law, primarily designed to allow students to think critically and analyse specific topics. Each chapter is structured around key questions and debates that provoke deeper thought. It asks questions such as: Why do we have the laws that we have? Could the criminal law look differently? How should the law be applied to novel situations? Does the law in fact reflect prejudices? The aim of the book is not to present a complete overview of theoretical issues in criminal law, but rather to illustrate the current debates among those working in shaping the area. The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading. New to this Edition: - A new debate on the law on body modification - Fresh discussion of the law on dishonesty - Important new case law on causation - Detailed discussion of developments on the law on accessory - Significant developments on the law on sexual offences***

***This engaging textbook provides a critical analysis of the legitimacy and effectiveness of the European Convention on Human Rights and its practical operation. In a succinct way, the book investigates questions around the legitimacy of how the European Court of Human Rights develops its law, the obligations of states to comply with its judgments, the adequacy of the Convention in securing basic goods, and the effectiveness of the system in protecting rights 'in the real world'. It assesses some under-explored areas of the Convention that are often overlooked. Presenting a number of debates about the legitimacy and effectiveness of the system in a provocative and critical style, this book encourages debate, discussion, and self-reflection on how, when***

***and why the Convention protects human rights in Europe. An ideal text for Law students at English and Welsh universities and higher education institutions taking a module in The European Convention on Human Rights (LLB or LLM level), and for GDL/CPE students and those taking the postgraduate LPC training course. For more than two centuries, our political life has been divided between a party of progress and a party of conservation. In The Great Debate, Yuval Levin explores the origins of the left/right divide in America by examining the views of the men who best represent each side of that debate: Edmund Burke and Thomas Paine. In a groundbreaking exploration of the roots of our political order, Levin shows that American partisanship originated in the debates over the French Revolution, fueled by the fiery rhetoric of these ideological titans. Levin masterfully shows how Burke and Paine's differing views continue to shape our current political discourse—on issues ranging from gun control and abortion to welfare and economic reform. Essential reading for anyone seeking to understand Washington's often acrimonious rifts, The Great Debate offers a profound examination of what conservatism, liberalism, and the debate between them truly amount to.***

An exciting new textbook which presents critical perspectives on corporate and commercial law. Focussing on the key areas of trade and transactions, intellectual property, corporations and finance, it covers each of the areas of commercial and company law that would typically be offered to undergraduate and postgraduate law students. The chapters are written by acknowledged experts in the field and are aimed at undergraduates, post graduates and lecturers who wish to further their understanding of this area. Each of the authors focuses on an area within their subject and draws out the political, the controversial and the discursive, providing essential reading for undergraduate dissertation topics and postgraduate analysis.

This textbook is an ambitious and engaging introduction to the more advanced writings on Jurisprudence, primarily designed to allow students to

Great Debates in EU Law

**This book introduces students to the great debates in EU law. Rather than simply presenting traditional approaches that provide descriptions (often in historical order) of substantive and constitutional elements of Union law, this book clusters material around these debates in an engaging and lively way. By offering concise analyses of core dilemmas and tensions in EU law, the book provides a different kind of introduction, one that helps students place the discussions within a boarder context and narrative. The authors have found in their teaching that students often struggle with individual aspects and materials without understanding broader narratives, which are traditionally developed in**

**monographs or journal articles that are beyond the reach of undergraduate readers. The first textbook to consider gender perspectives in relation to the whole undergraduate law curriculum in England and Wales. Gender is of central importance in every area of law and every area of people's lives but is rarely mentioned in the formal LLB syllabus; this book is designed to fill some of those gaps. 18 chapters, written by experts in the field, cover all the core modules on the English LLB together with 11 of the most popular options. Aimed at students and lecturers on undergraduate and postgraduate Gender and Law modules, the book will also be useful for all LLB and LLM students studying English law, who may use it to accompany their studies from their first to their final year, and also for prospective law students, legal scholars from outside England and Wales, and scholars in other disciplines.**
