the worst economic crisis since the Great Depression, citizens across the country are searching for alternative investment vehicles. Many are finding solace in a precious metal that has been a universal measure of wealth since early civilization: gold. Investment brokers and novices alike are reaping the benefits that come with diversifying their investments. Gold's value is determined by a number of factors including the volume of the metal held by prosperous countries, the rarity of the metal as it is refined, and current market trends, such as inflation

and the movement of the investment market. In 1910, gold was worth \$20 an ounce; a century later, in 2010, the value of gold reached nearly \$1,120 an ounce. This book discusses where the value of these metals first originated and how they have evolved over the course of human history. You will learn how practical uses of precious metals have directly affected their value over time and how metals like gold and silver are direct indicators of the current state of the economy. Most importantly, you will learn to recognize market trends that pinpoint the risk of inflation and

the central banks of the world are printing more and more money and the United States government keeps spending more and more money. This debases the currency and your purchasing power is being diminished because there is too much money in circulation chasing too few goods. The end result of this madness? Inflation and rising prices. Then to add insult to injury taxes are being raised in all sectors of the economy which further steals your wealth. So if inflation (the stealth tax), the diminishing dollar and an increase in taxes are the enemies of your wealth. How do you defeat these treacherous enemies?

gold just for the rich? Is it irrelevant in this highly digital economy? Will it be of any use to your already diversified portfolio? With prices at thousands of dollars for a few grams, gold is an expensive element. You'd have good reason to believe that it's only something the wealthy would buy, and probably just as a part of their collection of expensive things. But gold is much more than a material for luxurious jewelry or for ornate decorations. Nowadays, gold is considered a safe haven for investors in an increasingly volatile market. Some investors

happen, there are just as many signs pointing to it as a serious possibility. If global currency collapse does occur, you will need to have some form of wealth protection in place that not only ensures you are protecting the value of your assets but can also be converted into everyday items you will need. That's why it's best to have something of value to trade and nothing is more valuable than investment gold and silver bullions. Once currency collapses, the majority of your paper investments, including stocks, futures and options and so on and so forth, become virtually useless. This is why you need to make sure that you have plenty of investment gold and silver in your portfolio. want to ensure that inflation does not eat away at everything that you have worked so hard for? Do you want to own wealth outside of the paper financial system? If your answer to these three questions is yes, then you need to own real money. Not rands, dollars or euros: these are merely fiat currencies. You want to own gold and silver, as without them, your wealth is only worth the value of the ink and the paper on which it is printed. For thousands of years, holders of gold and silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt, fiscal imprudence and ad infinitum money-printing. The proprietor of even a few ounces of gold is not only an investor but an individual with the assurance that their wealth and purchasing power remains preserved.

Going for Gold is not an attempt to coerce investors into allocating a portion of their total investment portfolio to precious metals. Rather, it speaks directly to the South African investor and declutters and contextualises the vast amounts of information available about precious metals, providing counsel that the mainstream financial industry has disregarded at best, and suppressed at worst.

Gold. Silver. Platinum. Palladium. Want more than a piece of paper with a stock number on it to show for your investment? Then learn about all the ways you can add precious metals to your portfolio. Gold and silver have been king and queen of metals for centuries. Today, they are joined by platinum and palladium in the precious metals arena. They are traded in the
