

Hardwired: (The Hacker Series Book 1): (The Hacker Series, Book 1)

Software mogul Blake Landon has met his match in headstrong Erica Hathaway. While his controlling nature and her independent spirit continue to battle, Blake has no intention of letting her out of his life again. Erica has given Blake her trust and her love, determined that they will conquer any challenges together. But when he demands more and tests the boundaries of her commitment, she is forced to face the dark desires he's kept hidden. As their bonds grow tighter, their enemies close in. With Erica's start-up in danger, Blake's frustration grows as he tries to protect her from those who would ruin her only to get to him. Can their relationship survive when Blake's enemies cross the line and threaten more than her livelihood?

"Im not going to be able to do this alone." Lisbeth Salander had hoped the defeat of her father, the leader of a sex abuse ring that wracked the country, would bring about a new peace for Sweden and her life. But political tensions are high across the country, and Lisbeth and Mikael Blomkvist soon find themselves thrown together against the world. From Runberg and Ortega comes an all-new original story based on the bestselling novel series by Stieg Larsson. Collects Millennium: The Girl Who Danced With Death #1-3.

Want Red Team offensive advice from the biggest cybersecurity names in the industry? Join our tribe. The Tribe of Hackers team is back with a new guide packed with insights from dozens of the world's leading Red Team security specialists. With their deep knowledge of system vulnerabilities and innovative solutions for correcting security flaws, Red Team hackers are in high demand. Tribe of Hackers Red Team: Tribal Knowledge from the Best in Offensive Cybersecurity takes the valuable lessons and popular interview format from the original Tribe of Hackers and dives deeper into the world of Red Team security with expert perspectives on issues like penetration testing and ethical hacking. This unique guide includes inspiring interviews from influential security specialists, including David Kennedy, Rob Fuller, Jaysen E. Street, and Georgia Weidman, who share their real-world learnings on everything from Red Team tools and tactics to careers and communication, presentation strategies, legal concerns, and more Learn what it takes to secure a Red Team job and to stand out from other candidates Discover how to hone your hacking skills while staying on the right side of the law Get tips for collaborating on documentation and reporting Explore ways to garner support from leadership on your security proposals Identify the most important control to prevent compromising your network Uncover the latest tools for Red Team offensive security Whether you're new to Red Team security, an experienced practitioner, or ready to lead your own team, Tribe of Hackers Red Team has the real-world advice and practical guidance you need to advance your information security career and ready yourself for the Red Team offensive.

Have you ever wished you could reprogram your brain, just as a hacker would a computer? In this 3-step guide to improving your mental habits, learn to take charge of your mind and banish negative thoughts, habits, and anxiety in just twenty-one days. A seasoned author, comedian, and entrepreneur, Sir John Hargrave once suffered from unhealthy addictions, anxiety, and poor mental health. After cracking the code to unlocking his mind's full and balanced potential, his entire life changed for the better. In Mind Hacking, Hargrave reveals the formula that allowed him to overcome negativity and eliminate mental problems at their core. Through a 21-day, 3-step training program, this book lays out a simple yet comprehensive approach to help you rewire your brain and achieve healthier thought patterns for a better quality of life.

The second he spared Isabel's life, everything changed. The instinct to protect her charts the course, because every time he turns away from her, something turns him back. Doesn't change the fact that she doesn't belong in his world. Isabel's learning to hold her own, but nothing can prepare her for the life he is being called back into. Isabel can barely accept the dark deeds of Tristan's past-- a bloody history spelled out in a ledger she's more preoccupied with than he'd like. When an old associate sets a dangerous plan in motion, there's no turning back. -- adapted from jacket

“[An] insightful, unsettling look at how technology impacts our lives. . .Kavenna has skillfully made our present feel like dystopian fiction.” USA TODAY Named a Best Book of 2020 by USA TODAY From the winner of the Orange Award for New Writing comes a blistering, satirical novel about life under a global media and tech corporation that knows exactly what we think, what we want, and what we do—before we do. One corporation has made a perfect world based on a perfect algorithm . . . now what to do with all these messy people? Lionel Bigman is dead. Murdered by a robot. Guy Matthias, the philandering founder and CEO of the mega-corporation Beetle, insists it was human error. But was it? Either the predictive algorithms of Beetle's supposedly omniscient 'lifechain' don't work, or, they've been hacked. Both scenarios are impossible to imagine and signal the end of Beetle's technotopia and life as we know it. Dazzlingly original and darkly comic, Zed asks profound questions about who we are, what we owe to one another, and what makes us human. It describes our moment—the ugliness and the beauty—perfectly. Kavenna is a prophet who has seen deeply into the present—and thrown back her head and laughed.

Editorial Reviews “The third book in Wild’s Bridge series is a fantastic read, certain to woo new readers and satiate her returning fans. Over the Edge checks off all the boxes: it’s emotional, intense and extremely sexy. Wild taps into an often thought of as taboo fantasy – one woman sharing two men – and makes it a possibility, allowing the reader to live vicariously through the main character. While this is part of the Bridge series, it’s also effective as a standalone novel.” –RT Book Reviews "Sinful, emotional, explosive, profound...this is all the best we know and love from Meredith Wild, cranked to an epic Level 11. You will not be able to put it down." –USA Today Bestselling Author Angel Payne "Scorching hot ménage? Check. A romance that will pull at your heartstrings? Check. A story that will stay with you long after you've finished it? Check. What more can I say? I simply loved it." –NYT Bestselling Author Sawyer Bennett "Just when you thought Meredith Wild had delivered the hottest, steamiest scenes in the romance world, she turns it up. Over the Edge will leave you wondering how you ever lived without men like Ian and Will in your bed. At the same time. Man. I wished I was Olivia." –USA Today Bestselling Author CD Reiss "An intriguing, sexy story about unexpected love and balancing others' expectations against your heart" –NYT Bestselling Author Shayla Black "Emotionally charged. Sexy. Forbidden. You won't be able to put Over the Edge down." –Heidi McLaughlin, NYT Bestselling Author "Intensely sexy and deeply romantic, Over The Edge is more than just a scorching hot menage story -- it's about a captivating love that you can't help but root for." –Lauren Blakely, NYT Bestselling Author "Meredith Wild delivers yet again with another sizzling romance where sharing takes on a whole new meaning. . ." –Sarah Robinson, bestselling author of the Kavanagh Legends series "Meredith Wild creates the perfect ménage for her fans: scorching sex, unexpected love, and a happily ever after sure to please romance fans long after they've closed the cover on Ian, Olivia, and Will." –Madhuri Pavamani "Meredith Wild has totally turned up the heat... An all out 5-star read full of hotness, sex appeal, emotional gut-wrenching feels, and moral dilemmas throughout!" –Two Girls Who Love Books "#1 New York Times bestselling author Meredith Wild, turns up the heat to scorching with the third book in the Bridge series. Sinfully sexy with a ménage romance, everyone will love Liv, Will and Ian's story." –Vilma's Book Blog "The heat is on! Meredith Wild really turns it up with this sizzling, beautifully written menage story. Two sexy, captivating men and one strong, determined heroine. I loved Meredith's Hacker Series and this is just as good and at times even hotter. All I can say is WOW!" –Nelle L'Amour, NYT Bestselling Author of the THAT MAN TRILOGY. "Meredith Wild ends the series with such a gem." –Heroes & Heartbreakers "One of the hottest books I've ever read." –Book Boyfriend Addict "Erotic and unexpectedly tender..." –Kirkus Reviews "I was hooked from the start! Over The Edge was sexy as hell with a love story I never saw coming." –Nina Levine, USA Today Bestselling Author "My fingers are still virtually scorched from scrolling the pages of this smoking hot book." –Smut Book Junkie Book Reviews Synopsis Olivia Bridge has always been a good girl–good grades, good friends, and a good job that her wealthy parents handed her. Desperate to carve out a life that is truly hers, Liv walks away from it all and takes on the challenge of helping her brothers open a chain of fitness centers in New York City. Just as she's beginning to find her footing in a new place, she's caught between two men who couldn't be more determined to turn all her goodness inside out. Will Donovan has the capital to make the Bridge brothers' entrepreneurial dreams a reality. Taking their uptight sister to bed seems a reasonable perk for the risk. Liv is the smartest, sexiest prude Will's ever met, and he can't wait to break her down. Life is too short for Ian Savo to play by anyone's rules. Sharing women with his friend isn't anything new, so when Will introduces him to Liv, he can't wait to get a taste. But falling for the same girl, or falling at all, was never in the plans...

Hacker extraordinaire Kevin Mitnick delivers the explosive encore to his bestselling The Art of Deception Kevin Mitnick, the world's most celebrated hacker, now devotes his life to helping businesses and governments combat data thieves, cybervandals, and other malicious computer intruders. In his bestselling The Art of Deception, Mitnick presented fictionalized case studies that illustrated how savvy computer crackers use "social engineering" to compromise even the most technically secure computer systems. Now, in his new book, Mitnick goes one step further, offering hair-raising stories of real-life computer break-ins—and showing how the victims could have prevented them. Mitnick's reputation within the hacker community gave him unique credibility with the perpetrators of these crimes, who freely shared their stories with him—and whose exploits Mitnick now reveals in detail for the first time, including: A group of friends who won nearly a million dollars in Las Vegas by reverse-engineering slot machines Two teenagers who were persuaded by terrorists to hack into the Lockheed Martin computer systems Two convicts who joined forces to become hackers inside a Texas prison A "Robin Hood" hacker who penetrated the computer systems of many prominent companies—andthen told them how he gained access With riveting "you are there" descriptions of real computer break-ins, indispensable tips on countermeasures security professionals need to implement now, and Mitnick's own acerbic commentary on the crimes he describes, this book is sure to reach a wide audience—and attract the attention of both law enforcement agencies and the media.

An ancient grudge. A forbidden love. The only thing worse than being a demon is being a Valari. As an undergraduate at Los Angeles's Alameda University, Kara Valari can sometimes succeed at forgetting she's both. Lost between the pages of the classics and tucked into the shadows of lecture halls, she can dodge the paparazzi's lenses as well as her family's publicized dramas—not to mention their private expectations. She has one more year to feed her true passions. Then she'll be expected to fulfill a much darker destiny. Cursed with inexplicable strength and godlike stature, literature professor Maximus Kane knows all about darkness. Every day he's reminded of the missteps of his childhood and the devastating consequences they've had on those dearest to him. To atone, Maximus spends his nights alone and his days submerged in the quiet life of academia. His existence has become a study in control, and he's become a master at it—until Kara Valari walks into his toughest course. Viscerally, Kara's everything he craves. Logically, she's everything he rejects. She's a starlet of privilege. She's also a student. And after one touch, he can't deny that she's awakened something in him that may never go dormant. Nothing about her makes sense, but everything about her feels right. Especially in the deepest strands of his DNA, which are still shadows of mystery to him—a mystery Kara seems determined to uncover. She's Hollywood royalty. She's forbidden fruit. And he's pretty sure she could be the answer to everything.

Determined to overcome a difficult past, Erica Hathaway learns early on to make it on her own. Days after her college graduation, she finds herself face to face with a panel of investors who will make or break her fledgling start-up website. The only thing she didn't prepare for was going weak in the knees over an arrogant and gorgeous investor who seems determined to derail her plans. Billionaire and rumoured hacker Blake Landon has already made his fortune in software, and he's used to getting what he wants. Captivated by Erica's drive and unassuming beauty, he's wanted nothing more than to possess her since she stepped into his boardroom. Determined to win her over, he breaks down her defences and fights for her trust, even if it means sacrificing a level of control he's grown accustomed to. But when Blake uncovers a dark secret from Erica's past, he threatens not just her trust, but the life she's fought so hard to create. The perfect new addiction for fans of Fifty Shades of Grey and Sylvia Day's Bared To You series.

This heartbreaking story—perfect for fans of If I Stay and Five Feet Apart—follows a girl swept up in the magic of her first love, until it all comes to a tragic end that might lead her into the afterlife itself. Soon to be a motion picture on Paramount+ starring Joey King! After bouncing around in foster homes for most of her childhood, seventeen-year-old Tessa Jacobs doesn't believe she deserves love—not from her adoptive parents, and certainly not from anyone at school. But everything changes when she has a chance encounter with Skylar, a senior from a neighboring town who's a true romantic. Their budding relationship quickly leads to the kind of passion you only see in the movies. As her heart begins to open, Tessa starts to believe she might be deserving of love after all. When tragedy strikes, Tessa wakes up alone in a hospital room with no memory of how she got there. And then she learns the horrifying news: Skylar is dead. As Tessa searches for answers, Skylar's spirit reaches out to her from the other side. Desperate to see him one last time, Tessa must race against the clock to uncover the shocking truth of their relationship—a truth that might just lead to the afterlife itself. "This story and Marc had such a big impact on me. Somehow my heart breaks and swells all at the same time while reading this. A powerful telling of love and loss." —Joey King, star and producer of The In Between

The #1 New York Times-bestselling master of international intrigue takes readers into the bleeding-edge world of technological espionage in a propulsive thriller that feels chillingly real. Former chief of the British Secret Intelligence Service Adrian Weston is awoken in the middle of the night by a phone call from the Prime Minister. Her news is shocking: the Pentagon, the NSA, and the CIA have been hacked simultaneously, their seemingly impenetrable firewalls breached by an unknown enemy known only as "The Fox." Even more surprisingly, the culprit is revealed to be a young British teenager, Luke Jennings. He has no agenda, no secrets, just a blisteringly brilliant mind. Extradition to the U.S. seems likely--until Weston has another idea: If Luke can do this to us, what can he do to our enemies? After conferring with both the American President and the Prime Minister, Weston is determined to use "The Fox" and his talents to the advantage of the two nations. But doing so places the boy on a geopolitical minefield. Adrian must stay one step ahead of multiple invisible enemies, all while finding a way to utilize the most powerful--and most unpredictable--weapon of all. With his trademark research and deep knowledge of the rules and practices of international intrigue, Forsyth takes on tomorrow's threats in this race-against-the-clock thriller.

Ever the obedient daughter, Daisy Patel always follows the rules, but the one thing she can't give her family is the marriage they expect. With few options left to her, and desperate to escape a parade of unwanted suitors, she asks her childhood crush to be her decoy fiance. When Liam learns that his inheritance is contingent on being married, he realises Daisy has the perfect solution to his problem. Sparks fly when Daisy and Liam go on a series of dates to legitimise their fake relationship. Too late, they realise that very little is convenient about their arrangement. History and chemistry aren't about to follow the rules of this engagement.

Hitmen for hire, drugs for sale. Inside the dangerous world that lurks beneath the bright, friendly light of your internet screen. Eileen Ormsby has spent the past five years exploring every corner of the Dark Web. She has shopped on darknet markets, contributed to forums, waited in red rooms and been threatened by hitmen on murder-for-hire sites. On occasions, her dark web activities have poured out into the real world and she has attended trials, met with criminals and the law enforcement who tracked them down, interviewed dark web identities and visited them in prison. This book will take you into the murkiest depths of the web's dark underbelly: a place of hitmen for hire, red rooms, hurtcore sites and markets that will sell anything a person is willing to pay for - including another person. The Darkest Web.

ears ago, the last desperate hopes of Earth were crushed as corporate Orbital blocs ruling from on high devastated the planet's face. Today, the autocratic Orbitals indulge in decadent luxury far above the mudboys, dirtgirls, zonedancers, and buttonheads who live out violent lives of electronic distraction and dependence amid the flooded, ruined cities and teeming slums of a balkanized America. But there are heroes; those who would stand against the Orbital powers and keep freedom's cause alive. Two such heroes are the metal-eyed ex-fighter pilot turned panzer-driver Cowboy, and Sarah, the cybernetic assassin desperate to find a better life for her drug-addicted brother. Together, Cowboy and Sarah embark on a high-octane odyssey across the shattered face of the American west. From Walter Jon Williams comes Hardwired, the hard-hitting, seminal classic that feels as prescient today as when it was first published. Like a steel-guitar fueled Damnation Alley, as directed by Sam Peckinpah, Hardwired demonstrates how Williams's singular vision helped defined the cyberpunk genre. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

From #1 New York Times bestselling author Meredith Wild... Days after their wedding, Blake and Erica Landon embark on their honeymoon—a journey that deepens their bond and promises to fade the scars of their past. Just when their troubles seem safely behind them, scandal surrounding would-be Governor Daniel Fitzgerald's election threatens their newfound peace. Back home, Blake finds himself at the center of the controversy, haunted by the transgressions of his hacker past that he has no wish to relive. With Blake's freedom at stake and their future in peril, Erica will stop at nothing to clear his name. But when Blake defies the authorities and refuses to seek the truth, their world gradually begins to crumble. Will he let his past win? Or can Erica convince him that their life together is worth fighting for—now more than ever... More in the Hacker series: HARDWIRED HARDPRESSED HARDLINE HARD LIMIT

He was the most dangerous fugitive alive, but he didn't exist! Nickie Haflinger had lived a score of lifetimes . . . but technically he didn't exist. He was a fugitive from Tarnover, the high-powered government think tank that had educated him. First he had broken his identity code - then he escaped. Now he had to find a way to restore sanity and personal freedom to the computerised masses and to save a world tottering on the brink of disaster. He didn't care how he did it . . . but the government did. That's when his Tarnover teachers got him back in their labs . . . and Nickie Haflinger was set up for a whole new education! First published in 1975.

Blake Landon is a man who has everything—wealth, good looks, and the love of Erica Hathaway. The power couple has been through hell and back, and when life has torn them apart, somehow they have always found their way back to each other, more in love and stronger than ever. Erica has never been more ready to say I do. On the verge of making the ultimate commitment, she uncovers an unsettling chapter of Blake's history. As she makes peace with her own past and the family who left her behind, she presses Blake to tear down the last walls between them. Determined to know the man he once was, she opens a door to a world beyond her wildest imagination—a world that has her questioning the limits of her own desires. As danger lurks and dark secrets come to light, will the past destroy their promise of forever?

A Novel

Hardwired

Calm Clarity

The In Between

In HARDPRESSED, the highly anticipated second book of the Hacker Series that began with Hardwired, Blake and Erica face threats that put both their love and their lives on the line. Despite Blake Landon's controlling ways, the young and wealthy hacker finally won the trust of the woman he

loves. Internet entrepreneur Erica Hathaway broke down the walls that kept her from opening her heart and her business to Blake. Ready to start this new chapter in her life, Erica is determined not to let anything come between them, even if that means giving Blake back some of the control he craves in and out of the bedroom. But when demons from her past threaten their future, Erica makes a decision that could change their lives forever.

Author of the viral Medium piece, "Poor and Traumatized at Harvard," Due Quach shares her Calm Clarity program to show readers how to deal with toxic stress and adversity. We often don't realize how much control we have over our thoughts, feelings, and actions--on some days, the most minor irritation can upset us, but on others, we are in our best form and can rise to challenges with grace. These fluctuations depend on the neural networks firing in our brains, and we have the power to consciously break hardwired thought patterns. Due Quach developed an intimate understanding of the brain during her personal journey of healing from post-traumatic stress disorder. According to Quach, people function in three primary emotional states: Brain 1.0, Brain 2.0, and Brain 3.0. In Brain 1.0, people act out of fear and self-preservation. Brain 2.0 involves instant gratification and chasing short-term rewards at the expense of long-term well-being. Brain 3.0 is a state of mind that Quach calls "Calm Clarity," in which people's actions are aligned with their core values. As Quach confronted PTSD and successfully weaned herself off medication, she learned how to activate, exercise, and strengthen Brain 3.0 like a muscle. In Calm Clarity, she draws on the latest scientific research and ancient spiritual traditions alike to show us how we too can take ownership of our thoughts, feelings, and actions in order to be our best selves.

Determined to overcome a difficult past, Erica Hathaway learns early on how to make it on her own. Days after her college graduation she finds herself face to face with a panel of investors who will make or break her fledgling startup. The only thing she didn't prepare for was going weak in the knees over an arrogant and gorgeous investor who's seemingly determined to derail her presentation. Billionaire and rumored hacker Blake Landon has already made his fortune in software, and he's used to getting what he wants with very little resistance. Captivated by Erica's drive and unassuming beauty, he's wanted nothing more since she stepped into his boardroom. Determined to win her over, he breaks down her defenses and fights for her trust, even if that means sacrificing a level of control he's grown accustomed to. But when Blake uncovers a dark secret from Erica's past, he threatens not just her trust, but the life she's fought so hard to create.

The Basics of Hacking and Penetration Testing, Second Edition, serves as an introduction to the steps required to complete a penetration test or perform an ethical hack from beginning to end. The book teaches students how to properly utilize and interpret the results of the modern-day hacking tools required to complete a penetration test. It provides a simple and clean explanation of how to effectively utilize these tools, along with a four-step methodology for conducting a penetration test or hack, thus equipping students with the know-how required to jump start their careers and gain a better understanding of offensive security. Each chapter contains hands-on examples and exercises that are designed to teach learners how to interpret results and utilize those results in later phases. Tool coverage includes: Backtrack Linux, Google reconnaissance, MetaGooFil, dig, Nmap, Nessus, Metasploit, Fast Track Autopwn, Netcat, and Hacker Defender rootkit. This is complemented by PowerPoint slides for use in class. This book is an ideal resource for security consultants, beginning InfoSec professionals, and students. Each chapter contains hands-on examples and exercises that are designed to teach you how to interpret the results and utilize those results in later phases. Written by an author who works in the field as a Penetration Tester and who teaches Offensive Security, Penetration Testing, and Ethical Hacking, and Exploitation classes at Dakota State University. Utilizes the Kali Linux distribution and focuses on the seminal tools required to complete a penetration test.

This document is a collection of slang terms used by various subcultures of computer hackers. Though some technical material is included for background and flavor, it is not a technical dictionary; what we describe here is the language hackers use among themselves for fun, social communication, and technical debate.

Hacker Series Box Set

A debut collection of erotic romances features three passionate novellas about Kit Townsend, a spirited woman involved in a no-strings triangle with two men, Ryder and Mac, until love unexpectedly enters the equation, and Mia Malone, framed for drug possession and forced to work undercover in a strip joint, who finds danger and passion in the arms of Texas Ranger Logan Kincaid. Original. 25,000 first printing.

Is ignoring the heat a recipe for disaster? Grant Twombly has it all—a successful career, a contacts list full of gorgeous and willing bedmates, and the ear of Los Angeles’s most prominent captain of industry. But being Sebastian Shark’s right-hand man isn’t without its challenges. Messy ones. Unknown forces still work to take down Shark Enterprises, and Grant’s full focus is needed to protect their empire. But he’s sitting on a scandalous secret. A truth he can’t even share with his best friend. Until disaster strikes. Rio Gibson carries dark secrets of her own. She hides them well...until her world is shattered. She holds Shark responsible, but the only person she shares her suspicions with is also the man closest to him—the giving, gorgeous man who makes her feel so many new and surprising things.

Dangerous things. But Rio’s used to handling the heat in the kitchen, and she can handle this challenge too. Getting out simply isn't an option—no matter how bad it’ll burn in the end.

NEW YORK TIMES BESTSELLER • The beloved author of The Handmaid’s Tale reimagines Shakespeare’s final, great play, The Tempest, in a gripping and emotionally rich novel of passion and revenge. “A marvel of gorgeous yet economical prose, in the service of a story that’s utterly heartbreaking yet pierced by humor, with a plot that retains considerable subtlety even as the original’s back story falls neatly into place.”—The New York Times Book Review Felix is at the top of his game as artistic director of the Makeshiweg Theatre Festival.

Now he’s staging aTemptest like no other: not only will it boost his reputation, but it will also heal emotional wounds. Or that was the plan. Instead, after an act of unforeseen treachery, Felix is living in exile in a backwoods hovel, haunted by memories of his beloved lost daughter, Miranda. And also brewing revenge, which, after twelve years, arrives in the shape of a theatre course at a nearby prison. Margaret Atwood’s novel take on Shakespeare’s play of enchantment, retribution, and second chances leads us on an interactive, illusion-ridden journey filled with new surprises and wonders of its own. Praise for Hag-Seed “What makes the book thrilling, and hugely pleasurable, is how closely Atwood hews to Shakespeare even as she casts her own potent charms, rap-composition included. . . . Part Shakespeare, part Atwood, Hag-Seed is a most delicate monster—and that’s ‘delicate’ in the 17th-century sense. It’s delightful.”—Boston Globe “Atwood has designed an ingenious doubling of the plot of The Tempest: Felix, the usurped director, finds himself cast by circumstances as a real-life version of Prospero, the usurped Duke. If you know the play well, these echoes grow stronger when Felix decides to exact his revenge by conjuring up a new version of The Tempest designed to overwhelm his enemies.”—Washington Post “A funny and heartwarming tale of revenge and redemption . . . Hag-Seed is a remarkable contribution to the canon.”—Bustle

Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven’t kept pace with today’s more hostile security environment, leaving millions vulnerable to attack. The Car Hacker’s Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle’s communication network, you’ll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, The Car Hacker’s Handbook will show you how to: -Build an accurate threat model for your vehicle -Reverse engineer the CAN bus to fake engine signals -Exploit vulnerabilities in diagnostic and data-logging systems -Hack the ECU and other firmware and embedded systems -Feed exploits through infotainment and vehicle-to-vehicle communication systems -Override factory settings with performance-tuning techniques -Build physical and virtual test benches to try out exploits safely If you’re curious about automotive security and have the urge to hack a two-ton computer, make The Car Hacker’s Handbook your first stop.

The book that started the Techlash A stinging polemic that traces the destructive monopolization of the Internet by Google, Facebook and Amazon, and that proposes a new future for musicians, journalists, authors and filmmakers in the digital age. Featured in New York Times' Paperback Row A New York Times Book Review Editors' ChoiceAn Amazon Best Business & Leadership Book of 2017 Longlisted for Financial Times/McKinsey Business Book of the Year 2017A strategy+business Best Business Book of 2017 Move Fast and Break Things is the riveting account of a small group of libertarian entrepreneurs who in the 1990s began to hijack the original decentralized vision of the Internet, in the process creating three monopoly firms--Facebook, Amazon, and Google--that now determine the future of the music, film, television, publishing and news industries. Jonathan Taplin offers a succinct and powerful history of how online life began to be shaped around the values of the men who founded these companies, including Peter Thiel and Larry Page: overlooking piracy of books, music, and film while hiding behind opaque business practices and subordinating the privacy of individual users in order to create the surveillance-marketing monoculture in which we now live. The enormous profits that have come with this concentration of power tell their own story. Since 2001, newspaper and music revenues have fallen by 70 percent; book publishing, film, and television profits have also fallen dramatically. Revenues at Google in this same period grew from \$400 million to \$74.5 billion. Today, Google's YouTube controls 60 percent of all streaming-audio business but pay for only 11 percent of the total streaming-audio revenues artists receive. More creative content is being consumed than ever before, but less revenue is flowing to the creators and owners of that content. The stakes here go far beyond the livelihood of any one musician or journalist. As Taplin observes, the fact that more and more Americans receive their news, as well as music and other forms of entertainment, from a small group of companies poses a real threat to democracy. Move Fast and Break Things offers a vital, forward-thinking prescription for how artists can reclaim their audiences using knowledge of the past and a determination to work together. Using his own half-century career as a music and film producer and early pioneer of streaming video online, Taplin offers new ways to think about the design of the World Wide Web and specifically the way we live with the firms that dominate it.

Editorial Reviews "The ultra-sexy second book in Meredith Wild's Bridge series will hook both fans of the series and newcomers...This steamy modern romance had us fanning ourselves." -iBooks Editors' Notes "An emotionally charged and wickedly heated story..." -Never Ending Book Basket "With twists and turns demanding my attention, it was no surprise I finished this story in one-sitting. Leave it to Meredith to keep the pace fast and the chemistry sweltering." -Heroes and Heartbreakers "I wish I could give this more than FIVE STARS!" -Reading is Our Satisfaction Blog "Amazing, awesome, stunning and beautiful, this book will have you on your knees and consume you." -Book-Lover Book Blog "With her heartfelt and steamy prose, Ms. Wild will have her readers feeling the heat as Darren and Vanessa's love will be ringing the alarm." -Four Chicks Flipping Books "Holy hot damn! Lock up your daughters because Darren Bridge is on the prowl." -A Book Lover's Emporium Book Blog "Into the Fire is a must read for 2016!" -Momma Knows Books "As always Meredith takes you on an emotional rollercoaster ride and makes you fall deeply in love with these characters." -Badass Betties Book Blog "A fun and sexy read that will breathe some fresh life into your summer reading lineup..." -The Romance Reviews "This book was so so so worth the wait." -AC Book Blog Synopsis Darren Bridge is living a bachelor's dream. When he's not running into burning buildings with his crew, he's training the flavor of the week at his brother's gym. Few women have ever been off limits...until Vanessa. Smart, beautiful, and legs for days, she's unlike anyone he's ever met. Too bad he's sworn to leave her alone. Overworked with no end in sight, Vanessa Hawkins hasn't had a vacation in nearly two years. When Cameron and Maya's destination wedding takes her out of the office for a much-needed break, she finds herself struggling to resist her attraction to the best man. Darren is dangerously good-looking with enough charm to make any hot-blooded woman want to drop her panties and enjoy the ride, no matter how long it lasts. When they return to the city, Darren realizes the single life has lost its glimmer. But with everything else on her plate, Vanessa doesn't have room in her life for a man, let alone a player. Can Darren find his way into her heart and convince her that he's worth the risk?

This stunning futuristic love story from New York Times bestselling author Megan Miranda asks the question: How far would you go to escape the past? Seventeen-year-old Alina Chase has spent her entire life imprisoned on a secluded island--not for a crime she committed in this lifetime, but one done by her past self. Her very soul is like a fingerprint, carried from one life to the next--and Alina is sick of being guilty. Aided by three teens with their own ulterior motives, Alina manages to escape. Although she's not sure she can trust any of them, she soon finds herself drawn to Cameron, the most enigmatic and alluring of the trio. But when she uncovers clues from her past life, secrets begin to unravel and Alina must figure out whether she's more than the soul she inherited, or if she's fated to repeat history.

Haunted by the responsibility of caring for her troubled family, Maya Jacobs gave the only answer she could when Cameron asked her to marry him. Years later, entrenched in a soulless professional routine, she distracts herself from the lingering regret of her decision with a "work hard, play hard" lifestyle that guarantees no man will ever find his way into her heart again. Cameron Bridge has spent the past five years married to the military, trying to escape the painful memory of losing Maya. After fighting his own war in the desert, he starts a new life in New York City, with his siblings, Olivia and Darren, by his side. When fate brings Maya back to him in the heart of a city filled with its own hopes and shadows, can Cameron find the girl he once loved in the woman she's become?

"A gifted and thoughtful writer, Metzl brings us to the frontiers of biology and technology, and reveals a world full of promise and peril." — Siddhartha Mukherjee MD, New York Times bestselling author of The Emperor of All Maladies and The Gene Passionate, provocative, and highly illuminating, Hacking Darwin is the must read book about the future of our species for fans of Homo Deus and The Gene. After 3.8 billion years humankind is about to start evolving by new rules... From leading geopolitical expert and technology futurist Jamie Metzl comes a groundbreaking exploration of the many ways genetic-engineering is shaking the core foundations of our lives — sex, war, love, and death. At the dawn of the genetics revolution, our DNA is becoming as readable, writable, and hackable as our information technology. But as humanity starts retooling our own genetic code, the choices we make today will be the difference between realizing breathtaking advances in human well-being and descending into a dangerous and potentially deadly genetic arms race. Enter the laboratories where scientists are turning science fiction into reality. Look towards a future where our deepest beliefs, morals, religions, and politics are challenged like never before and the very essence of what it means to be human is at play. When we can engineer our future children, massively

extend our lifespans, build life from scratch, and recreate the plant and animal world, should we?

This timely textbook presents a comprehensive guide to the core topics in cybersecurity, covering issues of security that extend beyond traditional computer networks to the ubiquitous mobile communications and online social networks that have become part of our daily lives. In the context of our growing dependence on an ever-changing digital ecosystem, this book stresses the importance of security awareness, whether in our homes, our businesses, or our public spaces. This fully updated new edition features new material on the security issues raised by blockchain technology, and its use in logistics, digital ledgers, payments systems, and digital contracts. Topics and features: Explores the full range of security risks and vulnerabilities in all connected digital systems Inspires debate over future developments and improvements necessary to enhance the security of personal, public, and private enterprise systems Raises thought-provoking questions regarding legislative, legal, social, technical, and ethical challenges, such as the tension between privacy and security Describes the fundamentals of traditional computer network security, and common threats to security Reviews the current landscape of tools, algorithms, and professional best practices in use to maintain security of digital systems Discusses the security issues introduced by the latest generation of network technologies, including mobile systems, cloud computing, and blockchain Presents exercises of varying levels of difficulty at the end of each chapter, and concludes with a diverse selection of practical projects Offers supplementary material for students and instructors at an associated website, including slides, additional projects, and syllabus suggestions This important textbook/reference is an invaluable resource for students of computer science, engineering, and information management, as well as for practitioners working in data- and information-intensive industries.

A stolen destiny. An impossible quest. Kara Valari has broken one of the underworld’s highest laws and is serving the ultimate sentence. But nothing—not even the impossible quest of breaching the boundaries of hell and facing off with Hades himself—will keep Maximus Kane from rescuing her. The journey will demand all of Maximus’s courage...and help from an unlikely guide. Driven by love, he sets off into a dark realm he only knows from the tattered pages of Dante’s Comedy. In hell’s bleak world, every part of Kara’s soul is subjected to Hades’s morbid fascination and merciless assault. Giving in to his demands means sharing the intimate details of why she dared to disobey him—a love for Maximus that, even now, burns on in her heart. Just when Kara resolves herself to an eternity of her nightmare, she discovers a glimmer of hope...a way to glimpse her beloved. Could her visions of Maximus unite them once more, or are they just another twisted punishment for her in a kingdom designed for agony? In those fleeting moments of light and passion, Kara rekindles her fight to survive. Darkness may still separate her from Maximus, but they’re connected by fate. But can their love survive this storm?
