Everyone has an opportunity to grow their money and get out of debt, but you must start to make this a reality. Be warned, though, when your income starts to grow, it is easy to fall into temptation and start spending more than you are earning again. Refrain and continue saving and investing your money. Every small step counts. Every coin kept and invested counts. If you use the profit you make, you will be unable to grow your wealth. Instead, allow your investment to grow by using the profits as part of the next years principal. With time, you will have a venture that can not only buy you whatever you want but one that will continue to grow over the years. Taking advice from experts in the field you wish to invest is critical to your investment. Would you go to a farmer when you are sick, or would you seek out a doctor? The same way, take your investment knowledge from those who understand the market dynamics and can offer you advice to help grow your investment. Manage your credit cards with responsibility, or they will sink you into a hole. The easiest way to get into debt is to spend more than you earn. You need to keep your expenses lower than your income at all times. Watch your credit card spending because that's how we often find ourselves overspending. To get out of debt is to pay. The longer it takes you to pay, the higher the interest rate you will be required to pay. Either consolidate your debt or tackle one debt at a time. You might want to reduce your expenses, so you have more money to spread around. Always start by saving 10% of your income. A safety net is essential for your peace of mind. Budgeting does not have to be complicated. The more you simplify it, the better. As long as you track your expenses and stick to your budget, it will work for you. Ensure that you don't view it as a task but as a necessary tool to help you stay ahead, get a real financial picture, and manage your money correctly. Each chapter in this book holds

nuggets that will be valuable to you and those around you. Read this book and re-read it. Practice the tips outlined and stay focused and disciplined. Write your financial goal and stick it where you can see it every day, and it will motivate you to keep working on your plan and to achieve your goal.

How to Manage Your Finances to Get the Life You Want

How To Manage Your Money Money, the want for money, and money-related issues are universal. Trying to develop a budget that suits one's individual needs and is workable enough to actually stick to is a very common problem. All of us, at some point in our lives, face money-related issues. Sometimes, it is not enough to fulfill our financial goals. At other times, we don't know how to save ourselves from going bankrupt. Having a smoothly working budget is the best answer to all money-related issues. My husband and I just went through a really tough financial patch. With a new baby and all related expenses, we were really living hand to mouth. Rather than adding money to our savings, we were spending our savings quickly. We were very close to having a zero balance in our

savings account when we realized that it was time for a lifestyle change, which is really what most budgets require. We had to make several different major steps to get on a budget. We never realized what difference not picking up that party pack of chips from the store aisle could make. No one ever does until they try it. Shifting to a low-rent apartment, letting go of our Toyota Camry and resorting to public transport, quitting trips to fast food outlets, leaving the six-pack of beer back at the store counter, choosing a cheaper diaper brand, and shopping for our clothes at the wholesale store are some of the many changes that we had to make. We also developed a habit to note each and every expense, down to the last penny. I downloaded budgeting software and logged each and every detail of income and expense into it. We started doing things for fun that didn't require money. For date night, we would go for a walk around the park. By the way, we didn't hire a babysitter; my husband's mom took the baby for a few hours. Long story short, within a few months, we were finally able to actually see our savings reading a comfortable figure. We plan to go on until we are completely free of financial anxiety. That is, we want to save enough so that we can have mental and financial freedom to do things that we want and to fulfill our long-term financial goals. Then, savings can take care of the bills. While I was planning our budget, I did a lot of research. This book is based on that research and some personal experiences that I gained while going

through the process. The first chapter is purely theoretical. Chapter 2 contains several budgeting methods and psychological tactics that can help you stay on the budget. Chapter 3 contains a practical, step-wise plan that you can follow to develop your personalized budget. I can assure you that if you follow the methods and techniques that I have provided in this book, you will be able to save yourself from a financial disaster, and you will be able to have a savings account statement that you are proud of. Money Tip #1: Identify and Assess Your Financial Situation Take inventory of your assets: What do you own? What is the approximate value of the things you own (car, house, property, insurance policy—large items)? Identify your income: How much money do you make? Detail your debts: What/who do you owe? When is it due? What interest rates are you paying on each debt? Approximate your monthly bills: What do you pay for rent/mortgage, utilities, gasoline/transportation, phone, food,

clothing, insurance, entertainment? Helpful Hint: Keep a log throughout each month of everything you spend. Money Tip #2: Consider Your Lifestyle and Spending Habits Be introspective: Why do you live the way you do? For career advancement, to please family, to entertain friends, or to live comfortably? Consider what you could honestly do without: Do you pay others to do something that you could do yourself? Do you eat out when you could eat less expensively at home? Money Tip #3: Establish Financial Goals List future expenditures: What future expenses do you anticipate? (such as schooling, purchasing a home, replacing a car, etc). Consider future career and family changes: Are you considering starting your own business, serving in a ministry, getting married, or starting a family? How will these plans change your financial situation? State your future financial goals: Financially, where do you want to be 5 years from now...10 years? What are realistic expectations money saving goals? Money Tip #4: Take Action with Your Finances Pay extra on your debts and stop feeding your debt through unnecessary habits. Establish a savings plan: How much money are you setting aside for the future? How are you preparing for major emergencies and for retirement so that you don't find yourself in debt again? To help you chart your path to financial freedom, grab a copy of June Hunt's Financial Freedom: How to Handle Your Money Wisely. This tool offers practical help to find financial freedom, including: "Five Principles of Managing Money" and "How to

Cancel Debt." What perspective should I have of money? Myth: "If you live a godly, Christian life, you will experience financial gain and prosperity." Truth: According to God's Word, godliness is not a means to financial gain. The Bible calls this "a different doctrine" taught by false teachers. Myth: "Money is the root of all evil." Truth: No, according to the Bible, it is the "love of money" that is a root of evil. (1 Timothy 6:10). Money can be used for great good. Myth: "If I ever have enough money and earthly possessions, I will be happy." Truth: Happiness does not spring from your financial situation nor does it come from possessions. "His master replied, 'Well done, good and faithful servant! You have been faithful with a few things; I will put you in charge of many things. Come and share your master's happiness!'" (Matthew 25:23). Finding true financial freedom involves more than having enough money to bask in the comfort of a prosperous lifestyle. It's more than learning to budget expenses, to save regularly, to invest wisely. True financial freedom is being content with what God gives you. And contentment is a matter of the heart! know where your money is going and also it helps you plan your budget wisely. It's a fundamental process that determines what you can do and what you can't. If you are behind, as many are, when it comes how much you are saving for retirement, get in high gear and catch up. Adding a little extra per month than you normally would to your retirement plan, can catch you up faster than you think it will. Especially, if it concerns your 401k, because your employer will match a certain percentage of your contribution. You must figure out how much revenue versus expenses you have. This requires following a strict budget and adhering to it always. If you're working on improving your personal budget, one easy way to get yourself in the mindset is to get your paycheck put directly into an investment account rather than checking or cash. This way you pay yourself first, think of this as a tax but you get it for retirement. This will help get you in the habit of saving money and not thinking of it all as disposable income. In order to be economically wise, all of your

disposable income must now be considered as investment funds, only to be spent on assets that return you funds at a good rate. If you know that a budget is probably the difference between you keeping money on the side during the good times and having nothing when the bad times come knocking, then you'd do everything possible to make sure that you prepare a SMART budget. When you're honest with yourself, you'll agree that to a great extent, money is key to having peace of mind. It's easy to say God provides when you're not in need. But when you're neck-deep in debt and you don't have money to pay for this month's rent, you'll probably be singing a different tune. No matter how much you want to finance the great work your church or your favorite charitable organization is doing, you can't do that without extra money.
