the same cold precision. The assailant: a nineteen-year-old boy, odd and taciturn, who gave the impression of being completely sane. But the crimes themselves were not: four murders, as exact as they were senseless. More than thirty years later, Argentine author Carlos Busqued began visiting Ricardo Melogno, the serial killer, in prison. Their conversations return to the nebulous era of the crimes and a story full of missing pieces. The result is a book at once hypnotic and unnerving, constructed from forensic documents, newspaper clippings, and

interviews with Melogno himself. Without imposing judgment, *Busqued* allows for the killer to describe his way of retreating from the world and to explain his crimes as best he can. In his own words, Melogno recalls a visit from Pope Francis, grim depictions of daily life in prison, and childhood remembrances of an unloving mother who drove her son to Brazil to study witchcraft. As these conversations progress, the focus slowly shifts from the crimes themselves, to Melogno's mistreatment and mis-diagnosis while in prison, to his current fate: incarcerated in perpetuity

The Unstoppable Power of Letting

Writing the Killer Treatment

From New York Times bestselling author Pete Earley—the strange but true story of how a young man's devastating brain injury gave him the unique ability to connect with the world's most terrifying criminals. Fifteen-year-old Tony Ciaglia had everything a teenager could want until he suffered a horrific head injury at summer camp. When he emerged from a coma, his right side was paralyzed,

he had to relearn how to walk and talk, and he needed countless pills to control his emotions. Abandoned and shunned by his friends, he began writing to serial killers on a whim and discovered that the same traumatic brain injury that made him an outcast to his peers now enabled him to connect emotionally with notorious murderers. Soon many of America's most dangerous psychopaths were revealing to him heinous details about their crimes—even those they'd never been convicted of. Tony despaired as he found himself inescapably drawn into their violent worlds of murder, rape, and torture—until he found a way to use his gift. Asked by investigators from the National Center for Missing and Exploited Children to aid in solving a murder,

The haunting true story of the elusive serial rapist turned murderer who terrorized California during the 70s and 80s, and of the gifted journalist who died tragically while investigating the case—which was solved in April 2018. Introduction by Gillian Flynn • Afterword by Patton Oswalt “A brilliant genre-buster.... Propulsive, can’t-stop-now reading.” —Stephen King For more than ten years, a mysterious and violent predator committed fifty sexual assaults in Northern California before moving south, where he perpetrated ten sadistic murders. Then he disappeared, eluding capture by multiple police forces and some of the best detectives in the area. Three decades later, Michelle

McNamara, a true crime journalist who created the popular website TrueCrimeDiary.com, was determined to find the violent psychopath she called "the Golden State Killer." Michelle pored over police reports, interviewed victims, and embedded herself in the online communities that were as obsessed with the case as she was. I'll Be Gone in the Dark—the masterpiece McNamara was writing at the time of her sudden death—offers an atmospheric snapshot of a moment in American history and a chilling account of a criminal mastermind and the wreckage he left behind. It is also a portrait of a woman's obsession and her unflagging pursuit of the truth. Utterly original and compelling, it has been hailed as a modern true crime classic—one

A real-life thriller in the vein of *The Devil in the White City*, Kate Winkler Dawson's debut *Death in the Air* is a gripping, historical narrative of a serial killer, an environmental disaster, and an iconic city struggling to regain its footing. London was still recovering from the devastation of World War II when another disaster hit: for five long days in December 1952, a killer smog held the city firmly in its grip and

refused to let go. Day became night, mass transit ground to a halt, criminals roamed the streets, and some 12,000 people died from the poisonous air. But in the chaotic aftermath, another killer was stalking the streets, using the fog as a cloak for his crimes. All across London, women were going missing--poor women, forgotten women. Their disappearances caused little alarm, but each of them had one thing in common: they had the misfortune of meeting a quiet, unassuming man, John Reginald Christie, who invited them back to his decrepit Notting Hill flat during that dark winter. They never left. The eventual arrest of the "Beast of Rillington Place" caused a media frenzy: were there more bodies buried in the walls, under the floorboards, in the back garden of this house of

horrors? Was it the fog that had caused Christie to suddenly snap? And what role had he played in the notorious double murder that had happened in that same apartment building not three years before--a murder for which another, possibly innocent, man was sent to the gallows? The Great Smog of 1952 remains the deadliest air pollution disaster in world history, and John Reginald Christie is still one of the most unfathomable serial killers of modern times. Journalist Kate Winkler Dawson braids these strands together into a taut, compulsively readable true crime thriller about a man who changed the fate of the death penalty in the UK, and an environmental catastrophe with implications that still echo today.
