On average, each American throws away a staggering one ton of trash every year. Most of that trash will reach a dead end in a landfill, taking up space and polluting the earth. We can all make an effort to live a life less trashy by recycling, reusing, and being smart about what we buy. But what can we do with the trash we do make? Cities all over the world are making their trash work for them by turning it into energy. In waste-to-energy power plants,

trash is burned in a controlled way to generate electricity while keeping it out of the landfill. Even landfilled trash can be used to generate energy, if we harness the gas released when garbage breaks down. Turning trash into energy is a practical way to help our landfills last longer and reduce our need for polluting energy from coal and oil. Tell your parents!

dramatic improvements in student learning and success, Sandra McGuire here presents these “secrets” direct to students. Her message is that “Any student can use simple straightforward strategies to start making A’s in their courses and enjoy a lifetime of deep, effective learning.” Beginning with explaining how expectations about learning, and the study efforts required, differ between college and secondary school, the author introduces her readers, through the concept of metacognition, to the importance and powerful consequences of understanding themselves as learners. This framework and the recommended strategies that support it are useful for anyone moving on to a more advanced stage of education,

so this book also has an intended audience of students preparing to go to high school, graduate school, or professional school. In a conversational tone, and liberally illustrated by anecdotes of past students, the author combines introducing readers to concepts like Bloom's Taxonomy (to illuminate the difference between studying and learning), fixed and growth mindsets, as well as to what brain science has to tell us about rest, nutrition and exercise, together with such highly specific learning strategies as how to read a textbook, manage their time and take tests. With engaging exercises and thought-provoking reflections, this book is an ideal motivational and practical text for study skills and first year experience
