In this New York Times bestselling "imperative how-to for creativity" (Nick Offerman), Adam Savage—star of Discovery Channel's Mythbusters—shares his golden rules of creativity, from finding inspiration to following through and successfully making your idea a reality. Every Tool's a Hammer is a chronicle of my life as a maker. It's an exploration of making, but it's also a permission slip of sorts from me to you. Permission to grab hold of the things you're interested in, that fascinate you, and to dive deeper into them to see where they lead you. Through stories from forty-

plus years of making and molding, building and breaking, along with the lessons I learned along the way, this book is meant to be a toolbox of problem solving, complete with a shop's worth of notes on the tools, techniques, and materials that I use most often. Things like: In Every Tool There Is a Hammer—don't wait until everything is perfect to begin a project, and if you don't have the exact right tool for a task, just use whatever's handy; Increase Your Loose Tolerance—making is messy and filled with screwups, but that's okay, as creativity is a path with twists and turns and not a straight line to be found; Use More Cooling Fluid—it prolongs the life of blades and bits, and it prevents tool failure, but beyond that it's a reminder to slow down and reduce the friction

Take a candid look at a dynamic, faith-walking Woman of God who shares her life in terms of building family lives and ultimately building communities. Connie Johnson's no holds barred perspective will touch many lives as she walks in her truth. Her story will move and shake the very foundation of our enemy, Satan, and make all who understand "the struggles" agree life without Christ is impossible, with Him, ALL THINGS ARE POSSIBLE! Join me in this story that can break generational curses, moments of defeats and place the seed of history making in your hearts for your now and your next moves in your life.

Nietzsche: A Very Short

Introduction

(the hammer song) ; S.A.T.B.

You Have a Hammer

The Group Singing Songbook

The philosophy of Friedrich Nietzsche (1844-1900) was almost wholly neglected during his sane life, which came to an abrupt end in 1889. Since then he has been appropriated as an icon by an astonishingly diverse spectrum of people, whose interpretations of his thought range from the highly irrational to the firmly analytical. Thus Spoke Zarathustra introduced the 'superman' and The Twilight of the Idols developed the 'Will to Power' concept; these term, together with 'Sklavenmoral' and 'Herrenmoral', became confused

with the rise of nationalism in Germany. Idiosyncratic and aphoristic, Nietzsche is always bracing and provocative, and temptingly easy to dip into. Michael Tanner's readable introduction to the philosopher's life and work examines the numerous ambiguities inherent in his writings. It also explodes the many misconceptions fostered in the hundred years since Nietzsche wrote, prophetically: 'Do not, above all, confound me with what I am not!' ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts,

Josh Becker has been making movies since he was a teenager. His first film was made at age thirteen, and by 9th grade he was tackling Oedipus Rex with future cult-icon Bruce Campbell. Since then he has written and directed numerous short films, four feature films, several television movies and worked on successful tv shows. RUSHES is at heart a passionate, honest and opinionated look behind the scenes of writing, producing and directing low-budget movies. From Josh's early days working with future Spider-Man director Sam Raimi on his original Evil Dead to his days writing and directing Xena:

Warrior Princess in New Zealand and beyond, RUSHES is filled with stories. Whether you're a budding thespian, scriptwriter, director or you simply just love movies, you'll find insights, frustrations and answers to your questions in the experiences Josh has enjoyed and endured in his three and a half decades of filmmaking trenches. His supporting cast in these adventures include aforementioned Sam Raimi and frequent collaborator Bruce Campbell, as well as stars small and great like Anthony Quinn, Lucy Lawless, Rob Tapert, Renee O'Connor, Gary Jones, Scott Spiegel, Joe LoDuca, Rick Sandford, Mariah Carey, Stephen Baldwin, John Cassavetes and many, many others. justice still resonates today. Each of us is called to take up the tools at our disposal and use them to build a better, more just society. Building grant proposals from a perspective of this kind of activism transforms the work from the mundane pursuit of dollars to the life-altering pursuit of change. You Have a Hammer: Building Grant Proposals for Social Change advises you to build proposals that will produce lasting impact. It's not about how to write grant proposals; it's about how to use grant-seeking as a tool for building a better world. Beloved picture book creator David Shannon introduces a new character in a satisfyingly silly and subversive take on a familiar parable. If all you have is a hammer, everything looks like a nail. After snagging his toe, Mr. Nogginbody makes a visit to his local hardware store in search of solutions. Armed with a shiny new hammer, he successfully fixes the

nail protruding from his floor. But the satisfaction of his first repair carries him away, and he figures that anything resembling a nail—from a lamp switch to a fire hydrant—can be fixed with a good whack. The results are predictably and theatrically disastrous, until Mr. Nogginbody arrives at a gentle awakening and recognizes that not everything is a nail.

"If I Had a Hammer unearths the
roots of the counter-culture and
political radicalism of the 60s, and

shatters the myth of the 50s as a decade of deadening conformity. For the 'Old Left,' the 50s were indeed a decade of defeat and disillusionment, as Maurice Isserman demonstrates through incisive and poignant portraits of aging radicals, including Irving Howe, Norman Thomas, and A. J. Muste. But defeat also compelled a reexamination of cherished beliefs, like the myth of the revolutionary proletariat, and facing up to new political realities, like the domestic consequences of the Cold War. Old dogmas were discarded along with old dreams. Professor Isserman challenges the current notion that the radicalism of the 60s was mere psychological aberration. He also dispels a favorite illusion of the 'New Left' itself--that it was borne

by immaculate conception without ties to a 'Old Left' it pointedly repudiated. Ironically, the 'New Left' drew lessons from its predecessor never intended by the 'Old Left,' while it repeated mistakes it found unforgivable in the parent it disowned. If I Had a Hammer calls into question our favored assumptions about this pregnant moment in American history." --

This book is about poor women, many of them single mothers, Aboriginal, or both, who have defied the odds to become apprenticing carpenters. To do so they have juggled child-care schedules, left abusive partners, and kicked drug habits to participate in a unique intensive retraining program. Through the voices of the women participants and their instructors, Margaret

Little analyzes the program to reveal the struggles and triumphs of low-income women. She demonstrates that there is a desperate need for retraining programs that provide real opportunities for economic independence. She also argues that, in an era of workfare and time-limited welfare, such programs are an effective strategy for welfare reform.
