

## Kill Them All: Cathars And Carnage In The Albigenian Crusade

*'Superb ... reveals the real history behind the myths'* *Saul David The legend of Robin Hood has gripped the popular imagination ever since his exploits were first told in the Middle Ages. Whether as thief, hero or violent bringer of justice, Robin Hood continues to assert himself over the centuries, still featuring heavily in mainstream culture in the 21st century. But what is the truth behind the legend? Historians and folklorists have been exploring the Robin Hood story for centuries, attempting to separate fact and myth. In this new book, Dr Sean McGlynn, a leading medievalist, offers a radically fresh approach, based on original research that has received global media attention. The author examines the first stories of Robin Hood as they appeared in the late Middle Ages and explains their appeal to contemporary audiences, against a background of violent disorder and troubled times. But a clearer understanding requires delving further back into the earlier medieval period to consider more fully the problems of name, time and place (and the questionable dominance of Sherwood Forest). Crime, brutal punishment, and the dramatic exploits of English medieval outlaws are discussed in vivid detail before the author assesses real-life figures who have been suggested as the inspiration behind the Robin Hood story and why these fail to hit the mark. The book then reveals a contender who has previously been completely overlooked but who is the most likely inspiration for the emergence of the Robin Hood legend in thirteenth-century England. By focusing on war in a time of national crisis, when a forgotten French invasion occupied half of the country, this book reveals a true-life hero and legend who has previously been lost to history, a soldier who resolves the hero-outlaw paradox and who fits perfectly into the timing of the legend's origins. And yes - he really was a woman living in the forest. Dr Sean McGlynn is the author of three critically acclaimed books: By Sword and Fire: Cruelty and Atrocity in Medieval Warfare; Blood Cries Afar: The Forgotten Invasion of England, 1216; and Kill Them All: Cathars and Carnage in the Albigenian Crusade. He is a regular contributor to BBC History, History Today and The Spectator. His research has previously received global media attention. In 2013 he was elected Fellow of the Royal Historical Society. Praise for Sean McGlynn "McGlynn tells a dashing story with gusto ... an entertaining military history." Dan Jones, The Spectator "Unlike many books on warfare, this volume dares to say what others won't.... Sean McGlynn's excellent book...paints a bleak but accurate picture of men at war.... McGlynn makes a convincing case as he analyses battles, sieges and campaigns" Andy McNab, Mail on Sunday "Excellent...vividly and wittily related, full of detail, and consistently fascinating" The Daily Telegraph*

*The Albigenian Crusade 1209-1229* by the Catholic Church against the Cathar heretics of southern France is infamous for its brutality. Marked by massacres and acts of appalling cruelty, these deeds are commonly ascribed to the role of religious fanaticism. This book is the first to offer a dedicated military history of the whole Crusade; in so doing it refutes this old view. By telling the story of the Crusade through its dramatic sieges, battles and campaigns and offering expert analysis of the warfare involved, the author reveals the Crusade in a new light - as a bloody territorial conquest in which acts of terror were perpetrated to secure military aims rather than religious ones. The result is an exciting and at times disturbing book that tells the dramatic military events of the Crusade and its leading characters - Simon de Montfort, Louis the Lion, Innocent III, Peter of Aragon, Count Raymond of Toulouse - through the voices of those contemporary writers who fought it and experienced it. The Book Your Church Doesn't Want You To Read presents a rare and honest look at one of the most controversial issues of all time: religion. Packed with essays from world-renowned theologians, historians, and researchers, this ground-breaking anthology exposes misrepresentations, challenges age-old beliefs, and seeks to reveal the whole truth to anyone who has ever been told what to believe. It discloses the shocking origins and true histories of the world's major religions and answers questions you've never even knew you had. But more than anything, The Book urges and inspires readers to think for themselves. Book jacket.

Exactly 150 years after the Norman Conquest of England in 1066, history came extremely close to repeating itself when another army set sail from the Continent with the intention of imposing foreign rule on England. This time the invasion force was under the command of Louis the Lion, son and heir of the powerful French king Philip Augustus. Taking advantage of the turmoil created in England by the civil war over Magna Carta and by King John's disastrous rule, Prince Louis and his army of French soldiers and mercenaries allied with the barons of the English rebel forces. The prize was England itself. The invasion was one of the most dramatic episodes of British history. This is the first ever book on the subject. **Blood Cries Afar** tells a dramatic and violent but overlooked story, with a broad appeal to those interested in the history of England and France, the Middle Ages and war in an age of kings, knights, battles and brutality.

Ranging from classical Greece and Rome to the Cold War era, the author takes readers on a lively tour of historical mishaps and miscalculations, from the Dutch prince who set up his own death to the Romanian dictator who made his dog a colonel in the army.

One woman's unforgettable quest for freedom, love, and god.

Genocide occurs in every time period and on every continent. Using the 1948 U.N. definition of genocide as its departure point, this book examines the main episodes in the history of genocide from the beginning of human history to the present. Norman M. Naimark lucidly shows that genocide both changes over time, depending on the character of major historical periods, and remains the same in many of its murderous dynamics.

He examines cases of genocide as distinct episodes of mass violence, but also in historical connection with earlier episodes. Unlike much of the literature in genocide studies, Naimark argues that genocide can also involve the elimination of targeted social and political groups, providing an insightful analysis of communist and anti-communist developments. He pays special attention to settler (sometimes colonial) genocide as a subject of major concern, illuminating how deeply the elimination of indigenous peoples, especially in Africa, South America, and North America, influenced recent historical developments. At the same time, the "classic" cases of genocide in the twentieth century - the Armenian Genocide, the Holocaust, Rwanda, and Bosnia -- are discussed, together with recent episodes in Darfur and Congo.

Historian Pegg has produced a swift-moving, gripping narrative of a horrific crusade, drawing in part on thousands of testimonies collected by inquisitors in the years 1235 to 1245. These accounts of ordinary men and women bring the story vividly to life.

The Dark Side of Christian History

A World History

*A bestselling history of the Third Crusade, when the Catholic Church waged war against heretics in its own ranks In 1208 Pope Innocent III called for a Crusade against a country of fellow-Christians. The new enemy was Raymond VI, Count of Toulouse, one of the greatest princes in Western Christendom, premier baron of all the territories in southern France where the langue d'oc was spoken. So began the Albigenian Crusade (named after the French town of Albi), which was to culminate in 1244 with the massacre of Cathars at the mountain fortress of Montségur. This Crusade was the Catholic Church's response to the rapid growth of a rival Christian religion in the very heart of Christendom - the religion of the Cathars (or 'pure ones'). These heretics drew their strength from the consciousness of belonging to a faith that had never seen eye to eye with Catholicism and was more ancient than the Church itself. From the beginning this religious war was to show all the characteristics of a national resistance movement, so that in the end it was not just the survival of the Cathar faith that was at stake but also that of the Languedoc itself as an autonomous and independent region of France.*

1) "Excuse for Sadism: How the Inquisition Beat the Devil Out of Cathar Women" - "Kill them all God will know his own". This well known saying was coined during the Albigenian Crusade in the early 1200s. This book takes place during that crusade's genocidal invasion of Beziers. This is a BDSM oriented account of how a comparatively very small group of people, specifically sexually attractive women, survived the Bezier genocide in the early 1200s which occurred largely in southern France. (Yes there were a number of crusades in Europe.) The knights of this historically accurate crusade were promised a large share of the plunder, that didn't work as planned so they decided that the more attractive women of this huge conquered city would fetch a fair profit as sex slaves, domestic servants, concubines or even wives. The knights accepted the religious requirement that the women be beaten in order to exorcise the demons that had supposedly taken over their bodies by living in the region dominated religiously by the blasphemous Christian Gnostic religion of Catharism. Author's note - The following is based on an actual incredibly tragic occurrence in western history that has conveniently been forgotten. Please feel free to look up "Cathars of Lanbuedoc" and "Béziers genocide". You won't believe what you'll read. All characters depicted in this work are 18 years of age or older. The words "slave" and "girl" are used in a BDSM manner. Thus they're used interchangeably with "women", "woman" and "lady." There is in fact historical evidence that at least some Béziers women were abducted by their conquerors and became sex slaves. A free bonus book is included in this publication for your reading pleasure. *The Cathars are one of the most famous heretical movements of the late twelfth and early thirteenth centuries. They infiltrated the highest ranks of society and posed a major threat not only to the Catholic Church but also to secular authorities as well. The movement was finally smashed by the crusade and the inquisitional proceedings that followed. This new study is the first comprehensive history of the Cathars. It addresses major topics in medieval history including heresy, orthodoxy and the Crusades as well as providing a history of the social and political history of Languedoc and the rise of the Capetian dynasty. A fascinating study of the development of radical religious belief and its violent suppression.*

A shattering chronicle of the life and death of the Cathar movement – one of Western civilization's great tragedies. At the beginning of the 13th century, the Cathars, a group of heretical Christians, thrived across what is now southern France, but was then a patchwork of city states and principalities beholden to neither king nor bishop. The Cathars held revolutionary beliefs that threatened the authority of the Catholic Church as well as the legitimacy of feudal law; they thought the idea of Hell, indeed the entire metaphysical constructed by the Church, to be a sham; they rejected all sacraments, including marriage; they thought private property an absurd notion and that all things worldly were corrupt; they gave women religious status equal to men. Though they lived peacefully, the Cathars growing influence enraged a Catholic Church that was flexing its muscle after decades of weakness, and its powerful Pope, Innocent III. The Church recruited the forces of France, eager to expand her territory to the south, and systematically attacked the Cathars in crusades between 1209 and 1229. By the time the wars were over, the map of Europe had been rearranged, and the Inquisition -- unleashed. Full of colourful and passionate personalities, The Perfect Heresy sheds new light on the 13th century and on the timelessness of religious intolerance.

Il have a story to tell so you must listen very carefully with your ears to hear, your soul to remember, your faith to inspire and your heart to judge, for I will never repeat these words again.!! - India Serras. 1290. 13th Century France, a time of intolerance and bloodshed as the inquisition ruthlessly hunts down heretics. Renier de Beynac the Papal Inquisitor will not stop until their villages are burned and the streets run scarlet with their blood. India Serras, the last surviving Cathar knows this better than most, for she protects a treasure so precious the Vatican would kill to destroy it. Renier is well aware of the legend of the treasure of Montségur and will stop at nothing to find India, steal the treasure and use its ultimate power for his own dangerous secrets. For the second time in her life, fate intervenes.

Charges of heresy and murder are complicated by the contents of a mysterious treasure chest In the summer of 1143, William of Lythwood arrives at the Benedictine Abbey of St. Peter and St. Paul, but it is not a joyous occasion—he's come back from his pilgrimage in a coffin. William's body is accompanied by his young wife, Elave, whom he believes to be a burial place for his master on the abbey grounds, despite William's having been imprisoned for heretical views. An already difficult task is complicated when Elave drunkenly expresses his own heretical opinions, and capital charges are filed. When a violent death follows, Sheriff Hugh Beringar taps his friend Brother Caddael for help. The mystery that unfolds grows deeper thanks to a mysterious and marvelous treasure chest in Elave's care.

In 1209, with the infamous words Kill them all, God will recognize his own, the papal crusade against his own Catholic faithful commenced. For two decades, this holy war to defeat the Cathar heresy decimated the troubadour culture of Southern France. But when it failed to destroy the heretical faith, the papacy gave special powers of inquisition to Dominican monks. Their mission was to root out heretics, confiscate property, and burn the unrepentant at the stake. Furged by Fire: Heresy of the Cathars tells the stories of three people ensnared in the fatal machinations of the Inquisition. Isarn believes he has survived the wars by accepting the will of the pope and the French rule until Marsal, a child he once rescued from Crusaders, arrives on his doorstep, forcing him to question every conciliation he has ever made. Marsal has lost everything to the Inquisition. Raised to always turn the other cheek, she is ready now to fight for what the Church has stolen. Chretien, a nobleman dispossessed by the French, can barely recall his life before Marsal. Condemned and hunted by the Church, they escape to the mountain fortress of Montségur. Here, as the forces of the Inquisition lay siege to their place of refuge, Chretien and Marsal must make one final choice—between life and love or death and faith.

Examines how the Inquisition's sentiments are thriving in today's world, tracing the history of its legacy through stories that lead to modern incanernations like Vatican edicts, the Third Reich, and Guantanamo's detention camps. A vivid and original account of warfare in the Middle Ages and the cruelty and atrocity that accompanied it. Sean McGlynn investigates the reality of medieval warfare. For the talk of chivalry, medieval warfare routinely involved acts which we would consider war crimes. Lands laid waste, civilians slaughtered, prisoners massacred: this was standard fare justified by tradition and practical military necessity. It was unbelievably barbaric, but seldom uncontrolled. Such acts of atrocity were calculated, hiding the cruelties inflicted in order to achieve a specific end. Sean McGlynn examines the battles of Acre and Agincourt, sieges like Béziers, Lincoln, Jerusalem and Limoges as well as the infamous chevauchées of the Hundred Years War that devastated great swathes of France. He reveals how these grisly affairs form the origin of accepted 'rules of war', codes of conduct that are today being enforced in the International Court of Justice in the Hague.

For millennia, the human race has been controlled and manipulated by forces beyond our own dimension or awareness. A carefully managed human/extra-dimensional breeding program has produced a hybrid slave race that isn't aware of its true origins or fate. Massacre At Montségur: A History Of The Albigenian Crusade

An Irresistible Compendium of Catastrophes, Barbarities, Massacres, and Mayhem—From 14 Billion Years Ago to 2007

The classic irreverent look at the past—now updated with even more appalling facts! Fourteen billion or so years ago, the Big Bang exploded—and it's been downhill from there. For every spectacular discovery throughout history, there have been hundreds of devastating epidemics; for every benevolent despot, a thousand like Vlad the Impaler; for every cup half-full, a larger cup half-empty. This enthralling, enlightening, and devilishly entertaining chronicle of disasters and dastardly deeds brings to light the darkest events in history and the most abysmal calamities to strike the planet. . . . so far. 88BC: Mithridates VI Eupator provides an early example of genocide by massacring 100,000 Romans. 1347: Saint Vitus' Dance Epidemic shimmies across Europe like a deadly disco fever, leaving its victims twitching, uncontrollably leaping, and foaming at the mouth. 1888: Jack the Ripper stalks through the dark alleys of Whitechapel, England, turning the world's oldest profession into the world's most dangerous one. 1938: A Swiss chemist wins a Nobel Prize for developing DDT—and the environment gets another nail in the coffin. 2005: Hurricane Katrina devastates the Gulf Coast. In a classic double whammy, the government response also devastates the Gulf Coast. And much, much more!

Imagine, if you will, a Madonna and Child, that has been in your family for years. It is beautiful, serene and spellbinding. It hangs on your wall and for a long time you take it for granted. But curiosity to know more about it gradually grows until it becomes irresistible. You call in the experts. They get excited. What if that old family painting was thought to be by a pupil of Leonardo da Vinci – or even the great master himself? You start researching, communicating with academics and institutions all over the world. The results of your research are nothing short of astounding. What would you do if that painting pointed to one of the greatest heresies of our time? And what if it revealed an incredible story that the Roman Catholic Church has been desperate to keep secret at all costs for centuries? Da Vinci - Last Commission by Fiona McLaren is one of the most astonishing detective stories in the history of art. It is also an account of the courage and tenacity of a woman who challenged the international art establishment, orthodox history and the Church in her quest for the truth.

Monarchy is an enduring institution that still makes headlines today. It has always been preoccupied with image and perception, never more so than in the period covered by this volume. The collection of papers gathered here from international scholars demonstrates that monarchical image and perception went far beyond cultural, symbolic and courtly display - although these remain important - and were, in fact, always deeply concerned with the practical expression of authority, politics and power. This collection is unique in that it covers the subject from two innovative angles: it not only addresses both kings and queens together, but also both the medieval and early modern periods. Consequently, this allows significant comparisons to be made between male and female monarchy as well as between eras. Such an approach reveals that continuity was arguably more important than change over a span of some five centuries. In removing the traditional gender and chronological barriers that tend to lead to four separate areas of studies for kings and queens in medieval and early modern history, the papers here are free to encompass male and female royal rulers ranging across Europe from the early-thirteenth to the late-seventeenth centuries AD and the image of monarchy in England and the cruelty and atrocity that accompanied it. Massacre At Montségur: A History Of The Albigenian Crusade

An Irresistible Compendium of Catastrophes, Barbarities, Massacres, and Mayhem—From 14 Billion Years Ago to 2007

The classic irreverent look at the past—now updated with even more appalling facts! Fourteen billion or so years ago, the Big Bang exploded—and it's been downhill from there. For every spectacular discovery throughout history, there have been hundreds of devastating epidemics; for every benevolent despot, a thousand like Vlad the Impaler; for every cup half-full, a larger cup half-empty. This enthralling, enlightening, and devilishly entertaining chronicle of disasters and dastardly deeds brings to light the darkest events in history and the most abysmal calamities to strike the planet. . . . so far. 88BC: Mithridates VI Eupator provides an early example of genocide by massacring 100,000 Romans. 1347: Saint Vitus' Dance Epidemic shimmies across Europe like a deadly disco fever, leaving its victims twitching, uncontrollably leaping, and foaming at the mouth. 1888: Jack the Ripper stalks through the dark alleys of Whitechapel, England, turning the world's oldest profession into the world's most dangerous one. 1938: A Swiss chemist wins a Nobel Prize for developing DDT—and the environment gets another nail in the coffin. 2005: Hurricane Katrina devastates the Gulf Coast. In a classic double whammy, the government response also devastates the Gulf Coast. And much, much more!

Imagine, if you will, a Madonna and Child, that has been in your family for years. It is beautiful, serene and spellbinding. It hangs on your wall and for a long time you take it for granted. But curiosity to know more about it gradually grows until it becomes irresistible. You call in the experts. They get excited. What if that old family painting was thought to be by a pupil of Leonardo da Vinci – or even the great master himself? You start researching, communicating with academics and institutions all over the world. The results of your research are nothing short of astounding. What would you do if that painting pointed to one of the greatest heresies of our time? And what if it revealed an incredible story that the Roman Catholic Church has been desperate to keep secret at all costs for centuries? Da Vinci - Last Commission by Fiona McLaren is one of the most astonishing detective stories in the history of art. It is also an account of the courage and tenacity of a woman who challenged the international art establishment, orthodox history and the Church in her quest for the truth.

Monarchy is an enduring institution that still makes headlines today. It has always been preoccupied with image and perception, never more so than in the period covered by this volume. The collection of papers gathered here from international scholars demonstrates that monarchical image and perception went far beyond cultural, symbolic and courtly display - although these remain important - and were, in fact, always deeply concerned with the practical expression of authority, politics and power. This collection is unique in that it covers the subject from two innovative angles: it not only addresses both kings and queens together, but also both the medieval and early modern periods. Consequently, this allows significant comparisons to be made between male and female monarchy as well as between eras. Such an approach reveals that continuity was arguably more important than change over a span of some five centuries. In removing the traditional gender and chronological barriers that tend to lead to four separate areas of studies for kings and queens in medieval and early modern history, the papers here are free to encompass male and female royal rulers ranging across Europe from the early-thirteenth to the late-seventeenth centuries AD and the image of monarchy in England and the cruelty and atrocity that accompanied it. Sean McGlynn investigates the reality of medieval warfare. For the talk of chivalry, medieval warfare routinely involved acts which we would consider war crimes. Lands laid waste, civilians slaughtered, prisoners massacred: this was standard fare justified by tradition and practical military necessity. It was unbelievably barbaric, but seldom uncontrolled. Such acts of atrocity were calculated, hiding the cruelties inflicted in order to achieve a specific end. Sean McGlynn examines the battles of Acre and Agincourt, sieges like Béziers, Lincoln, Jerusalem and Limoges as well as the infamous chevauchées of the Hundred Years War that devastated great swathes of France. He reveals how these grisly affairs form the origin of accepted 'rules of war', codes of conduct that are today being enforced in the International Court of Justice in the Hague.

For millennia, the human race has been controlled and manipulated by forces beyond our own dimension or awareness. A carefully managed human/extra-dimensional breeding program has produced a hybrid slave race that isn't aware of its true origins or fate. Few know that these shadow puppeteers are actually in control-or that they even exist. They are not human ... but then again, neither are we. As the epic battle of consciousness expands into the outer dimensions, we know that one thing is for certain: When the Liberty Bell rings once again, their empire will be reduced to a heap of ashes. There will be an army of forces, backed by the highest of forces in the heavens, which will conduct this re-awakening of the masses. This story recounts the takeover of planet Earth by the Snake of Zion and shares everything you need to know to be truly free. You will find the peace and dignity that she deserves. The fate of the world hangs in the balance. All we have to do now is make a choice.
