Write and Publish Your Bestselling Book that Sells on Amazon Hey, Indie Authors-- What if there was a simple plan that you could follow to write and publish the book that you want to write - but make sure it gets seen and bought and read? Imagine writing and publishing a book that you love that generates sales and revenue for you for years to come. It's possible! Bestselling author Cara Gubbins traditionally published her first two books but took charge of her writing career by self-publishing her third book. Unfortunately, that book languished in the dusty basement halls of Amazon sales for years, ranking at over 1.1 million and selling only a couple of copies each year. Determined to succeed, she applied herself to learning the business of being an authorpreneur. She studied Amazon techniques, read books, took courses, watched videos and tweaked everything she could on the backend of her only self-published book. Gradually, her sales started to grow and then one day (Hallelujah!) her book became a bestseller. Three years later, that book is still generating new sales (and income) every month. Using the Launch Your Kindle Bestseller system, her next two books debuted as #1 Bestsellers. Her system has now worked for three of her own books and the books of several of her indie author friends. In this guidebook for independent authors, you'll learn * When to work alone and when to get help from early readers (or an editor) to write the best book possible * How to find readers for your books without a publisher or PR firm * When beta readers can help you - and when they can hurt you * Which categories to list your book in and why it matters * How to get more book reviews so that your book ranks higher in searches * Why keywords are so important - and where to use them for maximum impact * How to promote your book like a pro - without breaking the bank * A simple system for choosing your title, subtitle and series name that works for fiction and non-fiction books * A step by step guide to publishing your book using Kindle Direct Publishing * How to plan an easy but effective book launch - even if you've never published a book before * Bonus: What you have to think about AFTER your book is published * Bonus: How to get your backlist selling more copies, too! * Bonus: Optional steps to help you publish print or audiobook editions * PLUS: How to use your book to

Having been there and done that, I can tell you that the #1 thing I have done to get to where I am today is to build up your pen names as authoritative brands in your niche, and that's exactly what I'm going to teach you how to do in this

book. In this book, I will share with you the following:- The story of how I got into Kindle publishing- The 5 basic steps to create a Kindle book- How to choose a niche and keyword that will make you money- How to research, write, and publish a Kindle eBook in less than 24 hours- How to turn your pen name(s) into an authoritative brand- How to publish your eBook to the Kindle Store- Kindle Publishing tips you can't afford to overlook. Within those chapters, the additional topics will be discussed as well:- How to find a niche that's getting lots of monthly searches but also has low competition- How to choose competitive keywords- How to choose a book title and subtitle that sell- How to write an excellent introduction and conclusion- How to ensure that your entire book is high quality and contains value- Guidelines for creating a high quality Kindle cover- Why value is more important than length for your book- How to promote your pen name on social media- The importance of building an email list and how to interact with your subscribers- How to reward your loyal email subscribers - How/why Amazon will promote your book for you- How to determine the best price for your books- Easy and effective tactics to always get lots of 5 star reviews for your books- How to outsource your book and cover. Kindle publishing is the easiest and quickest way to create a passive income stream online, and it's something that anybody can do. As we'll discuss, you don't even have to be a writer to be a Kindle publisher because you can outsource the entire process! It also has a low start-up cost, and since Amazon is the largest bookstore in the world and the number of Kindle books sold has long since eclipsed the number of traditional paperback books sold, the potential reward is HUGE. And the best part is the sky is the limit with what you can make with Kindle publishing. It's possible to either write a book that makes you an extra hundred bucks or two a month with it in passive income, or it's possible to fully commit yourself to the process and produce lots of Kindle books each week under an authoritative pen name to eventually earn you thousands of dollars a month. If you want to learn how to create a Kindle publishing business that consistently produces thousands of dollars a month while you sleep, then this book is for you.

Discover Book Ideas The secret to creating books that sell on Amazon is to write them around topics that currently capture the attention of the masses and that have the chance of being discovered by people hungry for the information. Most authors don't know where to find the right ideas for writing books, so they flounder with books that only sell a few copies or none at all.

Whether you are writing fiction, nonfiction, short stories, novellas or epic novel series, starting with the best ideas will really help your writing. **Discover the Secrets** In this book you will find the very best places to get ideas for books of all kinds and learn about why those topics are the best selling. There is a discussion on source after source of incredible ideas for books and validation techniques that should keep you in the best categories. There are many reasons for writing a book, but every author wants to see their book become a best seller. As a #1 bestselling author I bring my experience to the table and demonstrate how you can become a bestselling author also. There are few disappointments in life that compare to writing a book that no one is buying. I know, because I have been there and done that. The result was no-holds barred pursuit of what made some books popular, and others very lack luster. The results were quite surprising to me, but they revolved around finding topics that were already popular. **Open Your Mind and Your Potential** This book has the potential to open your mind and your potential with a plethora of ideas that can be the basis for many very popular books that you could write. The methods are straight forward and easily reproducible. You could be on your way to your own bestseller within a couple of hours. Start your amazing journey today by reading the book today.

Why Does it Seem Everyone Thinks Beginning Authors are Already Rich? It's not because their books are bringing them any income. But the courses and services designed to "help" you just put you further in the hole! It doesn't have to be that way.

This entire series was written with the idea that you can get started from the computer and internet connection you already have. And nothing else. After I got my own financial freedom from publishing books, I was able to "invest" in some of these courses to see what I was still missing. Funny enough, that extra \$500 per course taught me little I didn't already know. And what I did learn was either wrong, or I could have learned it for free from those same authors. Here's the secret, exposed: You only have to write decent books, and market them decently, to get decent income. And you should be able to start writing today, self-edit and proof when you're done, then self-publish for no more than your own sweat-equity. **Get You Copy Now.**

A Simplified Guide for Absolute Beginners

In the world of kindle publishing, a newbie doesn't have to scratch his/her head to understand the principles and strategies of successful kindle publishing, and that's because; UNLIKE BEFORE, WE NOW KNOW HOW IT WORKS. Most of us dream of having the ability to make money while sleeping, but for most people it would remain a dream, but for you, that dream is already close to reality, because in this book, I will show you some of the most important things to know about one of the best ways to make money online. Amazon kindle publishing is one of the best ways to make passive income online, but to be successful publishing on Amazon is something that is hard for most people as they don't know what works and what doesn't work. Most authors on Amazon are ignorant of how kindle publishing works and they don't know what it takes to be

a successful author on Amazon, in fact, it's possible that most authors read articles on kindle publishing and they read that money can be made through it, but they don't know the details of how to be successful on kindle publishing. This is because, for you to be successful, you need to understand how Amazon kindle publishing works, how to differentiate between a real bestseller and a fake bestseller, what you need to worry about and what you don't need to, what sells in different categories, and other top information you need to make your book a true bestseller. I addressed various questions and misconceptions in this book, also, know that I have written this book to serve as an invaluable guide to every kindle publisher who wishes to be a bestselling author on KDP.

A Complete Author Marketing Course If you are self published, have several books available, and you've learned that it's not as easy as they say to make money with Kindle, then chances are that you are spending more and more time marketing than you spend writing, and that's not good. You've probably bought the Publishing Bible books by Tom Corsen Knowles, read John Tighe and his Crush it with kindle, studied Derek Doepker and his Kindle Bestseller Secrets, and maybe read John Locke with his story of selling a million ebooks. They are all very fine books. The idea with becoming a writer is that you build a passive income right? That's possibly why you started writing in the first place. Passive Income should be income where you don't have to spend the rest of your life marketing. When that happens, you are back to trading time for money, and that's not passive is it. The twist with this series is that it will help you put in place not just passive income, but passive book marketing too. If you get the marketing right first time, then there's little else to do but write more content, and that's what you really need to build that income you deserve. Sure, you will have to do some marketing in the future, but the idea is that you get it right the first time, systematize the marketing, and then move on. So what are your options? Do nothing, continue along as you are now and just keep increasing your marketing workload Learn all of this yourself through trial and error Try this book series and take a shortcut. This book gives you the latest and best advice possible when it comes to book marketing. It will give you the best of those tips that you have heard about elsewhere coupled with new ideas and thoughts, all backed with testing. I haven't sold a million books (yet), but unlike the other authors of kindle marketing books, I come from a professional sales & marketing background. That gives me a unique perspective of what actually makes sales happen in any industry. I've sold everything from radio advertising to children's clothes and yes, I sell books too. This series will walk you, step by step, through a comprehensive author marketing plan that will do just that. This first volume in the series will look at your book before it's published; If you get this part right then you will never have to go through major changes again. (How many times have you changed your books so far?) A little of what you will learn: How do the Amazon algorithms work What are the factors that influence them The work you must do to optimize your books for success. A proven formula called SPEVOS for putting together a powerful sales message How to force your readers to join your mailing list Author Central vs KDP Editor (after the Nov 2013 changes) Reviews and how to get them Increase your kindle book sales using psychology What content should be included in every book that you write Pricing strategies Much More Included with the book are supporting documents; spreadsheets and checklists to track your efforts This first book in the series will form the foundation of your author marketing plan. It's comprehensive, detailed and most importantly, proven to work. It is one thing to write and another to publish your book and make it available to millions of people worldwide. But publishing a book is never that easy. You have to look for a publisher and before that, you have to find someone to proof-read and even edit your work. What if you don't find someone to help you for whatever reasons? It's true that you cannot write, edit and publish your book with no errors without a contributor (As a beginner). It also involves creativity for you to publish your work online because there are many things you may need to know before you start and this is the reason this book was written. The first chapter of the book will introduce you to the Amazon Kindle Direct Publishing tools. The second chapter will help you think twice before you decide to publish your book. The third chapter gives you more information about Kindle Direct Publishing features and the KDP website in general. The fourth chapter takes you through the process of learning how to publish your book on Kindle Direct Publishing step-by-step.
